Tomohito Shinoda

Parties Politics In Contemporary Japan:

Parties and Politics in Contemporary Japan, 1965

Contemporary Japanese Politics Tomohito Shinoda, 2013-09-24

Decentralized policymaking power in Japan had developed under the reign of the Liberal Democratic Party LDP yet in the 1990s institutional changes fundamentally altered Japan's political landscape Tomohito Shinoda tracks these developments in the operation of and tensions between Japan's political parties and the public's behavior in elections as well as in the government's ability to coordinate diverse policy preferences and respond to political crises The selection of Junichiro Koizumi an anti mainstream politician as prime minister in 2001 initiated a power shift to the Democratic Party of Japan DPJ and ended LDP rule Shinoda details these events and Prime Minister Koizumi's use of them to practice strong policymaking leadership He also outlines the institutional initiatives introduced by the DPJ government and their impact on policymaking illustrating the importance of balanced centralized institutions and bureaucratic support

Parties and Politics in Contemporary Japan Robert A. Scalapino, Junnosuke Masumi, 1965

Women and Politics in Contemporary Japan

Emma Dalton, 2015-02-11 This book looks at the gendering of the political system in Japan and the effects of that system on gender equality in national level politics specifically and wider society more generally It examines the approach taken by the long ruling Liberal Democratic Party LDP to issues of gender equality in Japan and the repercussions of that approach on women's political experiences and representation This book covers a range of themes including the role of the LDP and other major political parties in constructing the modern Japanese political system the under representation of women in Japanese politics women's experiences in party politics and the gendering of government policies Using in depth interviews with women members of the national Diet the book sheds light on how political women negotiate the male dominated world of Japanese politics

Parties and Politics in Contemporary Japan Junnosuke Masumi, *Kōmeitō* Levi McLaughlin, Axel Klein, George Ehrhardt, 2014 Examines the relationship between religious groups and politics in Japan focusing on K meit Japan's most successful religious party Describes K meit's campaign practices and varying modes of political participation from its founding to its decision to join the ruling Liberal Democratic Party in a coalition government

Democracy

Without Competition in Japan Ethan Scheiner, 2006 This book explains why no opposition party has been able to offer itself as a sustained challenger in Japan

Political Leadership in Contemporary Japan Terry MacDougall, 1982-01-01 Those who do not read Japanese seldom have access to analytic studies of the fascinating and surprisingly diverse world of contemporary Japanese political leadership This volume constitutes a step toward bringing to the English reader some sense of the norms beliefs styles and modes of exercising power of Japanese political leaders and the organizational and political contexts which are changing leadership role expectations The second volume in this series concentrates more explicitly on leadership recruitment although the subject is also addressed here All of the essays in this volume highlight specific politicians while attempting to develop analytic categories to understand the broader significance of these types of leaders

Included are the following a Liberal Democratic Party prime minister and faction leader Fukuda Takeo who rose almost effortlessly to the pinnacle of power on the basis of an elitist educational and bureaucratic career background and another Tanaka Kakuei who took advantage of the chaotic wartime and immediate postwar period to overcome the limitations of his commoner background by developing an entrepreneurial style that makes him even today the most powerful in Japan a younger conservative leader Kono Yohei who with certain others of his generation found life within the restrictive but predictable career paths of ruling Liberal Democrats less attractive than the risky option of forming his own New Liberal Club an unconventional Socialist chairman Asukata Ichio who bucks the pull toward coalition making among the opposition parties in favor of his belief that this major but perpetual opposition party must first reconstruct itself and structure a new popular consensus that can legitimize a coalitional alternative to the Liberal Democrats parliamentary leaders like lower house speaker Maeo Shigesaburo directors of the House Management Committee and heads of the Diet policy committees of the various parties who are projected into increasingly influential roles by changing electoral trends and popular expectations an innovative and dynamic mayor Suzuki Heizaburo who taking advantage of the considerable authority afforded by Japan's presidential system of local chief executives pursues his own priorities mobilizing the requisite support despite the lack of national guidance and the oppositions of former backers and the power behind the throne Matsunaga Yasuzaemon and Komori Takeshi whose visions move prime ministers and governors as well as their own followers in powerful public and private bureaucracies intro

The Logic of Japanese Politics Gerald L. Curtis, 2000-11-05 Widely recognized both in America and Japan for his insider knowledge and penetrating analyses of Japanese politics Gerald Curtis is the political analyst best positioned to explore the complexities of the Japanese political scene today Curtis has personally known most of the key players in Japanese politics for more than thirty years and he draws on their candid comments to provide invaluable and graphic insights into the world of Japanese politics By relating the behavior of Japanese political leaders to the institutions within which they must operate Curtis makes sense out of what others have regarded as enigmatic or illogical He utilizes his skills as a scholar and his knowledge of the inner workings of the Japanese political system to highlight the commonalities of Japanese and Western political practices while at the same time explaining what sets Japan apart Curtis rejects the notion that cultural distinctiveness and consensus are the defining elements of Japan's political decision making emphasizing instead the competition among and the profound influence of individuals operating within particular institutional contexts on the development of Japan's politics The discussions featured here as they survey both the detailed events and the broad structures shaping the mercurial Japanese political scene of the 1990s draw on extensive conversations with virtually all of the decade's political leaders and focus on the interactions among specific politicians as they struggle for political power The Logic of Japanese Politics covers such important political developments as the Liberal Democratic Party's egress from power in 1993 after reigning for nearly four decades and their crushing defeat in the voters

revolt of the 1998 upper house election the formation of the 1993 seven party coalition government led by prime minister Morihiro Hosokawa and its collapse eight months later the historic electoral reform of 1994 which replaced the electoral system operative since the adoption of universal manhood suffrage in 1925 and the decline of machine politics and the rise of the mutohaso the floating nonparty voter Scrutinizing and interpreting a complex and changing political system this multi layered chronicle reveals the dynamics of democracy at work Japanese style In the process *The Logic of Japanese Politics* not only offers a fascinating picture of Japanese politics and politicians but also provides a framework for understanding Japan s attempts to surmount its present problems and helps readers gain insight into Japan s future

The Japanese Communist Party Peter Berton, Sam Atherton, 2018-06-12 This book provides an historical overview of the Japanese Communist Party from its foundation to the present It outlines the development of the party explores its stance on key issues and discusses how the party has set a high moral tone avoiding compromising coalitions with other parties being intolerant of corruption within its own ranks and frequently and consistently opposing the ruling Liberal Democratic Party The book also considers the internal nature of the party which continues to have a mass membership and which in recent years has softened its former somewhat rigid approach The book emphasizes the importance for Japan of this moral approach as the conscience of the nation especially as the present Abe government moves Japan to the right even though the Japanese Communist Party has never gained power and is never likely to

Japan's Backroom Politics Watanabe Tsuneo, 2013-09-12 Written by the controversial owner of the Yomiuri Shimbun when he was Japan s leading political reporter Japan s Backroom Politics is the translation of a classic study of the rough and tumble of Japanese politics and Liberal Democratic Party factions in the first two decades of postwar Japan In addition to discussing the reasons for the resiliency of factions he discusses in great detail the history of and personalities within the near dozen factions of the LDP

Parties and Politics in Contemporary Japan Robert A. Scalapino, Junnosuke Masumi, 1967

Introduction to Japanese Politics Louis D. Hayes, 2016-09-17 This classic introduction to the Japanese political system has been revised and updated to take the account of a time of turmoil in the country s political life It incorporates new coverage of the end of the Koizumi era the brief and troubled premiership of Abe and the selection of Fukuda as prime minister This edition also includes expanded material on bubble and post bubble economic developments as well as all new coverage of health care policy The text opens with an overview of Japan s geographical setting and history The next group of chapters covers political institutions processes and actors Two sections then address the country s distinctive social order and economy educational healthcare and public safety systems Part five looks at the increasingly contentious realm of foreign relations and security issues including China s expanding role and the issue of North Korea A concluding section considers dynamics of change in Japanese politics

Ruffians, Yakuza, Nationalists Eiko Maruko Siniawer, 2015-03-19 Violence and democracy may seem fundamentally incompatible but the two have often been intimately and inextricably linked In *Ruffians Yakuza Nationalists* Eiko Maruko Siniawer argues that violence

has been embedded in the practice of modern Japanese politics from the very inception of the country's experiment with democracy. As soon as the parliament opened its doors in 1890, brawls, fistfights, vandalism, threats, and intimidation quickly became a fixture in Japanese politics, from campaigns and elections to legislative debates. Most of this physical force was wielded by what Siniawer calls violence specialists, ruffians, and yakuza. Their systemic and enduring political violence in the streets, in the halls of parliament during popular protests, and amid labor strife ultimately compromised party politics in Japan and contributed to the rise of militarism in the 1930s. For the post-World War II years, Siniawer illustrates how the Japanese developed a preference for money over violence as a political tool of choice. This change in tactics signaled a political shift, but not necessarily an evolution, as corruption and bribery were in some ways more insidious, exclusionary, and undemocratic than violence. Siniawer demonstrates that the practice of politics in Japan has been dangerous, chaotic, and far more violent than previously thought. Additionally, crime has been more political. Throughout the book, Siniawer makes clear that certain yakuza groups were ideological in nature, contrary to the common understanding of organized crime as nonideological. *Ruffians, Yakuza, Nationalists* is essential reading for anyone wanting to comprehend the role of violence in the formation of modern nation-states and its place in both democratic and fascist movements.

Democracy and the Party Movement in Prewar Japan Robert A. Scalapino, 2023-11-15

Democracy and the Party Movement in Prewar Japan offers a profound exploration of the rise and fall of democratic ideals in Japan prior to World War II. With a focus on the dynamics of Taisho democracy and its subsequent decline in the 1930s, this work delves into the complexities of Japan's political modernization. The book examines key facets of the democratization process, such as the tension between imported political institutions and Japan's traditional socio-economic structure, the challenges of rapid societal change under a rigid constitutional framework, and the struggle for citizen participation in governance. It also addresses the broader question of why parliamentary democracy failed in Japan during this critical period, offering insights into both the unique aspects of Japanese modernization and universal challenges faced by late-developing societies. This study situates Japan's experience within a global context, highlighting the interplay between domestic political developments and international influences in shaping its trajectory. By analyzing Japan's political system through the lenses of modernization theory and historical analysis, the book uncovers the enduring legacies of prewar democracy and modernization that contributed to postwar democratic success under American guidance. Combining historical rigor with a reflection on contemporary relevance, *Democracy and the Party Movement in Prewar Japan* sheds light on the challenges of establishing democratic governance in transitional societies and the lessons these challenges hold for the broader global discourse on democracy. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1953.

Japan's Parliament

Hans H. Baerwald, 1974 Originally published in 1974 this is a study of the Japanese Parliament or Diet seen at the time from one of two divergent perspectives **Japanese Democracy** Bradley Richardson, Bradley M. Richardson, 1997-01-01 Richardson refutes the widely accepted hypothesis that postwar Japan has been a semiauthoritarian and consensual state arguing that Japanese political life has been extremely fragmented and discordant at all levels *Party Politics in Japan* Ronald J. Hrebenar, Akira Nakamura, 2020-09-30 The Japanese political system is a parliamentary democracy and was the first western style government in Asia when the parliamentary system was adopted in the 1880s It has a multiparty system free elections and a parliament that functions much the same way that any other democratic parliament functions however for much of its existence the Japanese party system has been dominated by one party This fact is crucial to understanding contemporary politics in Japan especially since the long term ruling party the Liberal Democratic Party is once again back in power This book presents an up to date analysis of the political parties that make up the Japanese party system and their impact on Japanese politics and government Given that the executive branch is selected as a result of the pattern of party numbers in the parliament to understand Japanese politics and policy one must first know the nature of the ruling and opposition parties and their leaders Indeed in the past decade the quality of Japan's government has been closely associated with the strengths and weaknesses of Japan's prime ministers and the dominant party in the system This book focuses on a central question why Japanese politics and government has been so dysfunctional in the past two decades With this question in mind the chapters provide key background information on Japanese politics and political parties discuss each of the major political parties that have governed Japan since 1955 and finally examine the December 2012 House of Representatives elections that returned the LDP to power and the differences between the First 1955 1993 and the Second Post War Party Systems 1993 *Party Politics in Japan* provides a comprehensive analysis of the past sixty years of Japanese party politics As such it will be of great interest to students and scholars of Japanese politics and Asian politics as well as to those interested in political parties and political systems more broadly *Governing Japan* J. A. A. Stockwin, 2008-04-07 This fourth edition provides an in depth up to date chronological analysis of Japan's current political system and the contributions of its leaders It emphasizes why Japan and its politics matters in a global society Ideal for college courses on Japanese or comparative politics as well as for those interested in Japanese war memory constitutional revision and Japan's relationship with the US China and North and South Korea Investigates the divided aspects existing below the veneer of consensus in Japanese politics Explores conflicts between power hungry political groups as well as fundamental differences regarding Japan's constitution the interpretation of Japanese actions in the Asia Pacific War and Japan's place in today's world Advocates a system that readily permits changes of party in power for the present system dominated by the Liberal Democratic Party Examines the extreme statements of high profile politicians to determine whether a nationalist resurgence in Japan is real or not Sheds light on the official incompetence and the spectacular rise of civil society following the Kobe earthquake Features

numerous Japanese sources **Japan's New Party System** Ronald J Hrebienar, 2019-08-15 The authors of this book have joined together for a third time to produce a book on Japanese political parties and elections The first two books under the title of The Japanese Party System were also published by Westview Press in 1986 and 1992 This book Japan's New Party System has a different purpose than the previous volumes The first two books had as their task the presentation of a vast amount of material on the various parties of the 1955-1993 party system Since 1955 Japanese politics and parties had been rather uneventful and predictable consequently many Japanese political scientists preferred to study other nations Decade after decade the Liberal Democratic Party LDP ruled Japan while the permanent opposition party the Japan Socialist Party JSP revolved around it but could never even come close to replacing it in power on the national level All of this changed in 1993 after the LDP split new parties emerged and formed a non LDP government and a new party system began This book is about the Second Party System and how Japanese politics has changed from the old LDP dominated First Party System

Getting the books **Parties Politics In Contemporary Japan** now is not type of inspiring means. You could not isolated going when book buildup or library or borrowing from your connections to log on them. This is an no question easy means to specifically get guide by on-line.
