*Conscious Uncoupling* Katherine Woodward Thomas, 2015-09-22 And Then They Lived Happily We enter our romantic relationships with great love hope and excitement we've found the one so we plan and forge our futures together But sometimes for many different reasons relationships come undone they don't work out Commonly we view this as a personal failure rather than an opportunity And instead of honoring what we once meant to each other we hoard bitterness and anger stewing in shame and resentment

Sometimes even lashing out in destructive and hurtful ways despite the fact that we're good people at heart. That's natural; we're almost biologically primed to respond this way. Yet there is another path to the end of a relationship: one filled with mutual respect, kindness, and deep caring. Katherine Woodward Thomas's groundbreaking method, *Conscious Uncoupling*, provides the valuable skills and tools for you to travel this challenging terrain with these five thoughtful and thought-provoking steps: Step 1 Find Emotional Freedom; Step 2 Reclaim Your Power and Your Life; Step 3 Break the Pattern; Heal Your Heart; Step 4 Become a Love Alchemist; Step 5 Create Your Happy Even After Life. This paradigm-shifting guide will steer you away from a bitter end and toward a new life that's empowered and flourishing.

**Marriage, Divorce, and Children's Adjustment** Robert E. Emery, 1999-02-10 This completely updated second edition presents an integrated multidisciplinary account of children's experiences of divorce from historical, cultural, and demographic perspectives. The author highlights children's resilience but is sensitive to children's pain throughout the divorce process and afterwards. In addition, he reviews the psychological, social, economic, and legal consequences of divorce and examines how children's risk is predicted by parental conflict, relationships with both parents, financial strain, custody disputes, and other factors. The author uses his family systems model to integrate research findings into a theoretical whole and to evaluate psychological interventions with divorcing and divorced families.

**Does Divorce Make People Happy?** Linda J. Waite, 2002 Does divorce typically make adults happier than staying in an unhappy marriage? Many Americans assume so. This study represents to the best of our knowledge the first serious effort to investigate this assumption empirically. Two out of three unhappily married adults who avoided divorce reported being happily married five years later.

*The Postdivorce Family* Ross A. Thompson, Paul R. Amato, 1999-03-31 With about one half of all marriages ending in divorce today, it is safe to say that nearly everyone will be or has been affected by divorce in some way. For many, it does not mean the end to a family. Focusing on the consequences of divorce for children, *The Postdivorce Family* examines the stressors that divorce can create, adjustment problems among children of divorce, the issue of resilience for children, and individual differences in the psychological adjustment to divorce. The authors also examine the parents' responsibilities after divorce, including custody issues, child support orders, and nonresidential parenting. This book concludes with a section that

explores the effects of a high divorce rate in society including how the prevalence of divorce has changed the family form and structural factors that have contributed to various social problems With this volume the authors hope to incite analysis and reflection of the issues surrounding divorce and their implications for public policy This book integrates the empirical research and policy perspectives of several scholars in various disciplines including psychology sociology human development law and social work
