Partition Omnibus With An Introduction By Mushirul Hasan:

Witnessing Partition Tarun K. Saint, 2019-08-13 This book interrogates representations of literary motifs and narratives of the Partition of India. Delving into the writings of Khushwant Singh, Balachandra Rajan, Attia Hosain, Abdullah Hussein, Rahi Masoom Raza, and Anita Desai among many others, it highlights the modes of fictive testimony that sought to articulate the inarticulate experiences of trauma and violence of loss and longing and of diaspora and displacement. The author discusses representational techniques and formal innovations in writing across three generations of twentieth-century writers in India and Pakistan, invoking theoretical debates on history, memory, witnessing, and trauma. With a new afterword, the second edition of this volume draws attention to recent developments in Partition studies and sheds new light on ongoing debates about an event that still casts a shadow on contemporary South Asian society and culture. A key text, this is essential reading for scholars, researchers, and students of literary criticism, South Asian studies, cultural studies, and modern history.

The Partition Omnibus David Page, Anita Inder Singh, Penderel Moon, G.D. Khosla, Mushirul Hasan, 2005-06-02 The Partition Omnibus brings together four authoritative readings on the genesis and development of the idea of Partition, its inevitability, the upheaval that followed the creation of Pakistan, and the attendant problems of nationalism and decolonization. A lucid introduction by Mushirul Hasan holds these narratives together.

The 1947 Partition of British India Leaning, Jennifer, Bhadada, Shubhangi, 2022-07-22 The 1947 Partition of British India remains the largest instance of forced migration in the recorded human history. Despite the passage of time, it is still widely seen as a process of singular distress and sorrow. Yet for those in the subcontinent, the Partition also offers a process of self-exploration for subsequent generations. This book is the first collection of chapters related to the Partition studies wherein experts of various disciplines from the three major modern nation-states affected by this cataclysm—Bangladesh, India, and Pakistan—have closely collaborated to develop a nuanced assessment of the Partition as active in the present. The book casts a somber yet uplifting light on the enormous challenges the Partition imposed on societies struggling to emerge from generations of colonial rule into a post-war world depleted of resources and a future of uncertain prospects.

The Partition of India Daniela Rogobete, 2019-01-23 This volume offers a collection of essays focused upon the representation of one of the most traumatic events in the history of India: the 1947 Partition in literature and cinematographic adaptations. The focus here is placed on various strategies of representation and different types of memory at work in the process of remembering/re-membering Partition. All these avoid the traditional Hindu vs. Muslim perspective and analyse other sides of the same story seen from the perspective of marginal people belonging to other religious minorities whose stories have generally been ignored and silenced by the official historical discourse. The book also demonstrates that the multiple truths engendered by this crucial event in India's history lie along improbable lines randomly generated between history, amnesia, and memory; between personal drama and collective trauma; loss and rupture; religion and nationalism; and longing and belonging.

Postmodern Gandhi and Other Essays Lloyd I. Rudolph, Susanne Hoeber Rudolph, 2010-07-15 Gandhi with his loincloth and walking stick seems an unlikely advocate of postmodernism But in Postmodern Gandhi Lloyd and Susanne Rudolph portray him as just that in eight thought provoking essays that aim to correct the common association of Gandhi with traditionalism Combining core sections of their influential book Gandhi The Traditional Roots of Charisma with substantial new material the Rudolphs reveal here that Gandhi was able to revitalize tradition while simultaneously breaking with some of its entrenched values and practices Exploring his influence both in India and abroad they tell the story of how in London the young activist was shaped by the antimodern other West of Ruskin Tolstoy and Thoreau and how a generation later a mature Gandhi's thought and action challenged modernity's hegemony Moreover the Rudolphs argue that Gandhi's critique of modern civilization in his 1909 book Hind Swaraj was an opening salvo of the postmodern era and that his theory and practice of nonviolent collective action satyagraha articulate and exemplify a postmodern understanding of situational truth This radical interpretation of Gandhi's life will appeal to anyone who wants to understand Gandhi's relevance in this century as well as students and scholars of politics history charismatic leadership and postcolonialism

The Sovereign Lives of India and Pakistan Atul Mishra, 2021-10-20 The Sovereign Lives of India and Pakistan explores what it has meant for the two countries to act as sovereign states entangled at birth by an unsatisfactory partition Sovereignty is conventionally understood as a means to achieve the goals that states set for themselves This book argues that for India and Pakistan sovereignty has become an end in itself and that its pursuit has aided majoritarianism insecurity and mutual estrangement It examines the trajectory of three problems that the partition of 1947 bequeathed to the two states It investigates the state minority relations national identity debates and contestation over Kashmir to outline the parallel processes of minoritization homogenization and territorialization It shows how these processes signify the two states' quest for sovereignty The scholarship on India and Pakistan often privileges their bilateral relations In contrast the author carries out the deeper task of a single frame analysis and critique of their intertwined statehoods Ultimately the book shows the inadequacy of the nation state form as the basis for political community in the subcontinent It concludes by pointing to the contemporary relevance of alternative ideas of sovereignty and political community in South Asia that were articulated during the first half of the 20th century

History (A Short History) Andrew Robinson,2025-05-13 This concise history tells India's unfolding story from the ancient Hindu dynasties to the coming of Islam from the Mughal Empire to the present day with a new preface and postscript Throughout its long history India has signified many things To pilgrims from ancient China India was the birthplace of the Buddha to Alexander the Great it was a land of philosophers and indomitable elephantine armies At the height of the Mughal Empire in 1700 India meant wealth boasting nearly 25 percent of the world economy but then under British rule its economy declined In the nineteenth century India's identity continued to evolve defined by stark contrasts of extravagant wealth and crippling poverty symbolized by the Taj Mahal and devastating famines maharajas and untouchables At the same time the country was celebrated for its rich spirituality from the many gods of Hinduism and Sufi saints to Buddhist philosophy with towering figures like Mahatma Gandhi and Rabindranath Tagore shaping its legacy Andrew Robinson incisively distills India's many incarnations from the remarkably advanced cities of the early Indus Valley to the world's largest democracy Anyone curious about its past present or future will find this a fascinating introduction **Nehru** Benjamin Zachariah,2004-08-02
