draw closer to him in prayer the better you can learn how to plug into God's narrative of the world in a way that enables you to participate in the divine story through the use of your gifts and talents With God Moments as a guide you'll have a better understanding of how to seek personal wholeness in the reality of God's presence in the ordinary and learn to accept his invitation to participate in his transformation of the world

in mathematics galois cohomology is the study of the group cohomology of galois modules that is the application of homological algebra to modules for galois groups a galois group  $G$  associated to a field extension  $L/K$  acts in a natural way on some abelian groups for example those constructed directly from  $L$  but also through other galois representations that may be derived by more abstract means galois cohomology accounts for the way in which taking galois invariant elements fails
