Workforce Education William B. Bonvillian, Sanjay E. Sarma, 2021-02-02 A roadmap for how we can rebuild America's working class by transforming workforce education and training The American dream promised that if you worked hard you could move up with well paying working class jobs providing a gateway to an ever growing middle class Today however we have increasing inequality not economic convergence Technological advances are putting quality jobs out of reach for workers who lack the proper skills and training In Workforce Education William Bonvillian and Sanjay Sarma offer a roadmap for rebuilding America's working class They argue that we need to train more workers more quickly and they describe innovative methods of workforce education that are being developed across the country

Chemical Heritage, 2004 Cultures of Commerce E. Brown, C. Gudis, M. Moskowitz, 2016-10-19 While historians have explored the impact on workers of changes in American business the broader impact on other cultural forms and vice versa has not been widely studied This anthology contributes to the debate at the intersection of business history and the study of cultural forms ranging from material to visual culture to literature

Innovation in Education Through Business and Educational STEM Partnerships United States. Congress. House. Committee on Education and Labor, 2008 *Minority Serving Institutions* National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Closing the Equity Gap: Securing Our STEM Education and Workforce Readiness Infrastructure in the Nation's Minority Serving Institutions, 2019-02-05 There are over 20 million young people of color in the United States whose representation in STEM education pathways and in the STEM workforce is still far below their numbers in the general population Their participation could help re-establish the United States preeminence in STEM innovation and productivity while also increasing the number of well educated STEM workers There are nearly 700 minority serving institutions MSIs that provide pathways to STEM educational success and workforce readiness for millions of students of color and do so in a mission driven and intentional manner They vary substantially in their origins missions student demographics and levels of institutional selectivity But in general their service to the nation provides a gateway to higher education and the workforce particularly for

underrepresented students of color and those from low income and first generation to college backgrounds The challenge for the nation is how to capitalize on the unique strengths and attributes of these institutions and to equip them with the resources exceptional faculty talent and vital infrastructure needed to educate and train an increasingly critical portion of current and future generations of scientists engineers and health professionals Minority Serving Institutions examines the nation s MSIs and identifies promising programs and effective strategies that have the highest potential return on investment for the nation by increasing the quantity and quality MSI STEM graduates This study also provides critical information and perspective about the importance of MSIs to other stakeholders in the nation s system of higher education and the organizations that support them
