Partners Nevertheless:

Silent Partners Alex Souchen, Matthew S. Wiseman, 2023-09-15 Canada's military industrial complex is deeply embedded in the fabric of the country. *Silent Partners* reveals its origins and influence. During the Cold War, Canada's military industrial and political partnerships developed behind the scenes and without much public scrutiny. *Silent Partners* explores Canada's history of leveraging military and defence expenditures to fund domestic industries, bolster employment and support science and technology. Military and defence spending have affected Canada in myriad ways from demography and geography to political economy and international relations in uneven patterns of prosperity and decline. The contributions in this volume explore the environmental impacts of military activities and munitions production, the ethical issues of human experimentation and military testing, and the economic and political implications of procurement and arms exports. *Silent Partners* is an illuminating examination of Canada's military industrial complex from a historical perspective. *The Paradox in Partnership* Helena Syna Desivilya, Michal Palgi, 2011 *The Paradox in Partnership: The Role of Conflict in Partnership Building* elucidates on alliances that are on one hand designed to promote collaboration between individuals, groups and organizations, but on the other hand, the processes of their formation and maintenance entail continuous engagement with competitive orientation, power struggles and conflict. Theoretical frameworks with praxis are integrated as reflected in a variety of organizational, community and national contexts. In the theoretical domain, it expands knowledge on partnerships in general and their paradoxical nature in particular. *Innovative Health Partnerships* Daniel Low-Beer, 2011 Over the last ten years, the financing and diversity of new players in global health have increased significantly. Ten years ago, it would have been difficult to predict some of these changes. OCo Bill Gates programming global health rather than software, NGOs formally governing a US \$20 billion health fund, WHO convening a range of partnerships, financial markets launching bonds to support vaccines. This volume assesses the range of innovative partnerships which are now near the heart of health diplomacy. It then describes the negotiations to integrate new players into development, which has changed health governance at global and country level. The chapters represent unique and concrete perspectives on these issues: OCo from activists, private sector, country ministers of health, district health workers, multilaterals and those working in these partnerships; OCo from the global right down to the community level. **Form a Partnership** Denis Clifford, Ralph Warner, 2020-08-25 The nuts and bolts guide to forming a partnership. A solid partnership agreement is the foundation for a lasting and successful business partnership. Don't skip this essential step or you might run into major problems later. *Form a Partnership* helps you create the agreement you need for your shared business venture. It takes you through the important issues, then helps you write your own partnership agreement tailored to your needs, clause by clause. The book covers cash, property and service contributions, financial and tax liabilities, how partners will make decisions, allocating profits and losses, admitting new partners, what happens if a partner wants out, buying out a partner's interest, the death of a partner and much more. The 11th edition.
