Covey, 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A B Combs Elementary School in North Carolina. To hear the parents of A B Combs talk about the school is to be amazed. In 1999 the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children who blossomed under the programme. By the end of the following year the average end of grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits that have already changed the lives of millions of people and shows how children can use them as they develop. Those habits be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize and sharpen the saw are critical skills to learn at a young age and bring incredible results proving that it's never too early to teach someone how to live well.      *Reckoning with Racism in Schools* Jennifer L. McCarthy Foubert, 2022 Drawing from the lived experiences of Black parents, this book brings a critical race theory (CRT) analysis to family-school partnerships. Drawing on policy research and practice from kindergartens and early years settings in five European countries, it provides insight into how political, social and cultural contexts affect the relationships between educators and families and the impact this has on children's early experiences. The book is based upon learning from an Erasmus mobility project between educators from five countries in OMEP, the World Organisation for Early Childhood Education. It presents examples from practice and research from the different countries and highlights some positive and practical ways in which professionals can work with parents as well as potential barriers to parental partnership and how these might be overcome. Each section focuses on a different country and allows for a detailed exploration into how relationships are developed and sustained for the benefit of young children and their families in different places. Throughout the reader is encouraged to reflect on their current understanding of parental partnership and how they can plan for positive parental partnership working in the future.
