## **Party In The Netherlands:**

**The Power of Populism** Koen Vossen, 2016-08-12 This book discusses the Party for Freedom PVV a political party in the Netherlands founded and led by Geert Wilders Attaining between 10 and 18% of the votes the PVV has become one of the largest parties in the Netherlands and is the only political party worldwide without members Between 2010 and 2012 the party supported a minority coalition of liberals and christian democrats in exchange for influence on governmental policy The PVV can be viewed as the Dutch version of an ideological family of nationalist parties linked by their opposition to immigration and to the political and cultural elites Within this family Geert Wilders has played an important role as pioneer of a new master frame in which Islam is portrayed as the historical arch enemy of the West As the main figurehead of European islamophobia Wilders has inspired political parties and organizations in Europe North America Israel and even Australia Examining data collected on various aspects of the party for example voters activists organization and ideology and employing theoretical insights from sociology electoral geography and political science this book analyses this controversial phenomenon and seeks to obtain a clearer picture of the functioning of the PVV This book will be of interest to students and scholars interested in European politics and current affairs more generally **From Multiculturalism to Democratic**

**Discrimination** Alberto Spektorowski, Daphna Elfersy, 2020-12-10 The effect of Islam on Western Europe has been profound Spektorowski and Elfersy argue that it has transformed European democratic values by inspiring an ultra liberalism that now faces an ultra conservative backlash Questions of what to do about Muslim immigration how to deal with burqas how to deal with gender politics have all been influenced by western democracies grappling with ideas of inclusion and most recently exclusion This book examines those forces and ultimately sees not an unbridgeable gap but a future in which Islam and European democracies are compatible rich and evolving Riding the Populist Wave Cristóbal Rovira Kaltwasser, 2021

The origins of this project can be traced back to 2011 when the editors of this volume were working together at the University of Sussex During this time Cristóbal was working on a book on the right in Latin America while Tim was doing research on the Conservative Party in the UK Soon after Tim started a new job at Queen Mary University of London and Cristóbal started a new job at Universidad Diego Portales in Santiago de Chile Nevertheless we continued to stay in contact and continued to remain baffled about the absence of comparative studies on the mainstream right in Western Europe This bafflement led Tim to come to Santiago de Chile in March 2018 and we started not only to write a framework for analysis on this topic but also to think about who else might be interested in writing on the state of the mainstream right in the different countries of Western Europe Thanks to the support of the Thyssen Foundation we were able to organize a two day meeting at Queen Mary University of London in March 2019 in which we discussed a first draft of several of the chapters of this edited volume We want to thank Susan Scarrow and Thomas Poguntke who provided invaluable feedback to all authors during this workshop **The Politics of Accommodation** Arend Lijphart, 1975 Populism in Western Europe Teun

Pauwels,2014-08-01 Despite the increasing academic interest in populism we still lack understanding of individual factors contributing to populist voting One of the main reasons for this is that populism is almost always attached to other ideologies which makes it difficult to isolate factors This book draws on an innovative research design by comparing the reasons to vote for six populist parties which differ remarkably in terms of their host ideology in Belgium The Netherlands and Germany The results show that populist voters are motivated by their dissatisfaction with the functioning of democracy and a desire for more direct democracy Furthermore it appears that populist parties do not mobilize among one specific social group although deprived groups are generally more susceptible to populist voting Finally this study explored why some populist parties persist while others decline Origins of party formation and how leaders organize their party internally seem the most important factors determining party persistence This book will be of great interest to students and scholars of populism European politics and contemporary political theory     *The Oxford Handbook of Electoral Systems* Erik S. Herron,Robert J. Pekkanen,Matthew S. Shugart,2018-03-15 No subject is more central to the study of politics than elections All across the globe elections are a focal point for citizens the media and politicians long before and sometimes long after they occur Electoral systems the rules about how voters preferences are translated into election results profoundly shape the results not only of individual elections but also of many other important political outcomes including party systems candidate selection and policy choices Electoral systems have been a hot topic in established democracies from the UK and Italy to New Zealand and Japan Even in the United States events like the 2016 presidential election and court decisions such as Citizens United have sparked advocates to promote change in the Electoral College redistricting and campaign finance rules Elections and electoral systems have also intensified as a field of academic study with groundbreaking work over the past decade sharpening our understanding of how electoral systems fundamentally shape the connections among citizens government and policy This volume provides an in depth exploration of the origins and effects of electoral systems     **The Politics of Justification** Christoffer Green-Pedersen,2002 Annotation Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition     **Empirical Studies in Comparative Politics** Melvin J. Hinich,Michael C. Munger,1999-01-31 Empirical Studies in Comparative Politics presents a collection of papers analyzing the political systems of ten nations It intends to provoke a conscious effort to compare and investigate the public choice of comparative politics There have been many publications by public choice scholars and many more by researchers who are at least sympathetic to the public choice perspective yet little of this work has been integrated into the main stream of comparative political science literature This work however presents an empirically oriented study of the politics bureaucratic organization and regulated economies of particular nations in the canon of the comparativist It therefore provides a public choice view at the level of nations not of systems This compendium of work on comparative politics meets two criteria In every case a model of human behavior or institutional impact is

specified Also in every case this model is confronted with data appropriate for evaluating whether this model is useful for understanding politics in one or more nations

**The Republican Alternative** André Holenstein, Thomas Maissen, Maarten Roy Prak, 2008 The Republican Alternative seeks to move beyond the mere notion of scholarly inquiry into the republic the subject of recent rediscovery by political historians interested in Europe's intellectual heritage by investigating the practical similarities and differences between two early modern republics as well as their self images and interactions during the turbulent seventeenth and eighteenth centuries Among the world's most economically successful societies Switzerland and the Netherlands laid much of the foundation for their prosperity during the early modern period discussed here This volume attempts to clarify the special character of these two countries as they developed including issues of religious plurality the republican form of government and an increasingly commercially driven agrarian society

**The Success and Failure of Right-Wing Populist Parties in the Benelux Countries** Léonie de Jonge, 2021-06-14 This book focuses on the varied support for the populist radical right in the Benelux countries Belgium the Netherlands and Luxembourg Despite many common characteristics right wing populist parties have historically been more successful in the Netherlands and Flanders than in Luxembourg and Wallonia This book argues that the variation in the success of right wing populist parties depends to a large extent on the way in which they are perceived and received in a given polity In the Netherlands and Flanders mainstream parties and the media have contributed to politicising issues pertaining to immigration and national identity thereby tilling the field for the populist radical right In Luxembourg and Wallonia mainstream parties and the media have resolutely limited the opportunities for right wing populist challengers to influence the public debate This volume will be of interest to practitioners as well as students and scholars of party politics the media the populist radical right and the Benelux region

**Postcolonial Netherlands** Gert Oostindie, 2011 The Netherlands is home to one million citizens with roots in the former colonies Indonesia Suriname and the Antilles Entitlement to Dutch citizenship pre migration acculturation in Dutch language and culture as well as a strong rhetorical argument We are here because you were there were strong assets of the first generation This postcolonial bonus

indeed facilitated their integration In the process the initial distance to mainstream Dutch culture diminished Postwar Dutch society went through serious transformations Its once lily white population now includes two million non Western migrants and the past decade witnessed heated debates about multiculturalism The most important debates about the postcolonial migrant communities centeracknowledgment and the inclusion of colonialism and its legacies in the national memorial culture This resulted in state sponsored gestures ranging from financial compensation to monuments The ensemble of such gestures reflect a guilt ridden and inconsistent attempt to do justice to the colonial past and to Dutch citizens with colonial roots Postcolonial Netherlands is the first scholarly monograph to address these themes in an internationally comparative framework Upon its publication in the Netherlands 2010 the book elicited much praise but also serious objections to some of the author s theses such as his prediction about the diminishing relevance of postcolonial roots Publisher s description

**The Eurosceptic 2014 European Parliament Elections** Julie Hassing Nielsen,Mark N. Franklin,2016-12-08 This edited collection explores the role of Euroscepticism in the European Parliament EP elections of 2014 both in particular EU Member States and across broader regions It shows how the second rate features of elections with no clear agenda setting role facilitated the astonishing success of Eurosceptic parties while the traditionally second order nature of purely legislative elections amplified this outcome giving it a quite different character than the outcome of any previous EP elections with potential in turn to affect outcomes of later national elections as well The chapters draw on a number of different methodological approaches and focus on different perspectives regarding how Euroscepticism played a role in the election context investigating public opinion party strategies and media coverage and assessing how these elections created links to national party politics with likely consequences for electoral success of Eurosceptic parties in future national elections and referendums This book will be of particular interest to students and scholars in the fields of European politics voting behavior Euroscepticism
