participation Matt Qvortrup, 2013-07-19 We live in an age of democracy Very few people challenge the virtues of government by the people yet politicians and commentators are fond of decrying the crisis of democracy How do these views square up This book provides the answer by surveying the philosophical history of democracy and its critics and by analysing empirical data about citizen participation in Britain and other developed democracies In addition to analysis of major political thinkers like Plato Machiavelli and J S Mill the book analyses how modern technology has influenced democracy Among the issues discussed in the book are why people vote and what determines their decisions what prompts citizen involvement in riots and demonstrations whether spin doctors and designer politics pose a threat to democracy and the influence of mass media on our political behaviour More than merely providing an overview the book also presents original analyses of timely issues such as referendums and the consequences of postal voting An essential book for students of politics history and media studies this study puts the debate about democracy into perspective and offers a solid grounding for future discussions

By-elections in British Politics, 1832-1914 Thomas G. Otte, Paul Readman, 2013 Explores the many issues surrounding by elections in the period which saw the extension of the franchise the introduction of the ballot and the demise of most dual member constituencies Between the 1832 Great Reform Act and the outbreak of World War One in 1914 over 2 600 by elections took place in Britain They were triggered by the death retirement or resignation of sitting MPs or by the appointment of cabinet ministers and were a regular feature of Victorian and Edwardian politics They furnished political parties and their leaders with a crucial tool for gauging and mobilising public opinion Yet despite the prominence of by election contests in the historical records of this period scholars have paid relatively little attention to them As this book shows these elections deserve to be taken as seriously today as people took them at the time They provided important linkages between local and national politics between the four parts of the United Kingdom and Westminster and between foreign and domestic affairs They are vital to understanding the evolving electioneering machineries the varying language of electoral contests the traction that particular issues had with a growing and frequently volatile electorate and the fluctuating fortunes of the political parties This book consisting of original work by leading political historians provides the first synoptic study of this important subject It will be required reading for historians and students of modern British political history as well as specialists in electoral history and politics T G Otte is Professor of Diplomatic History at the University of East Anglia He is the author and or editor of some thirteen books Among the most recent is *The Foreign Office Mind The Making of British Foreign Policy 1865 1914* Paul Readman is Senior Lecturer in Modern British History at King's College London He is the author of *Land and Nation in England Patriotism National Identity and the Politics of Land 1880 1914* Contributors Luke Blaxill Angus Hawkins Geoffrey Hicks Phillips Payson O'Brien T G Otte Ian Packer Gordon Pentland Paul Readman Kathryn Rix Matthew Roberts Philip Salmon Anthony Taylor
