**Configurations of a Cultural Scene** Andrew A. Anderson, 2023-01-15 Throughout the 1920s a remarkable number of young writers and artists lived and worked in Madrid, creating an atmosphere of effervescence and an upsurge in creativity that has rarely been equalled. These young people, acquainting themselves with one another within the span of only a few years, came together to form a tightly woven network of both personal and artistic relationships. In *Configurations of a Cultural Scene*, Andrew Anderson explores this growing community of artists and writers with a focus on how sites of face-to-face interaction in Madrid fostered creative work and forged young identities. Organizing locations into places of sociability, learning and residence, Anderson offers five case studies that exemplify the significance of these three points of intersection: Rafael Barradas and his tertulia at the Café de Oriente, an artists' studio located on the Pasaje de la Alhambra; women art students at the Academia de San Fernando who lodged at the Residencia de Señoritas; the artist and writer Gabriel García Márquez and the close relationship between artist Maruja Mallo and poet Rafael Alberti. Departing from conventional approaches that foreground the trajectories of individual careers, Anderson privileges the lived experience of artists and writers in his analysis of a rich cultural scene held together by cooperation, exchange and interpersonal connections.

**Culture and the Cuban State** Yvon Grenier, 2017-11-08 Culture and the Cuban State examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jes s D az Rafael Hern ndez Kcho Reynier Leyva Novo Leonardo Padura and Jos Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public

expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere

**The Politics of Taste** Ana María Reyes, 2019-11-15 In *The Politics of Taste* Ana María Reyes examines the works of Colombian artist Beatriz González and Argentine born art critic Marta Traba who championed González's art during Colombia's National Front coalition government 1958-74 During this critical period in Latin American art artistic practice art criticism and institutional objectives came into strenuous yet productive tension While González's triumphant debut excited critics who wanted to cast Colombian art as modern sophisticated and universal her turn to urban lowbrow culture proved deeply unsettling Traba praised González's cursi tacky recycling aesthetic as daringly subversive and her strategic localism as resistant to U.S. cultural imperialism Reyes reads González's and Traba's complex visual and textual production and their intertwined careers against Cold War modernization programs that were deeply embedded in the elite's fear of the masses and designed to avert Cuban inspired revolution In so doing Reyes provides fresh insights into Colombia's social anxieties and frustrations while highlighting how interrogations of taste became vital expressions of the growing discontent with the Colombian state

**Alternative Communities in Hispanic Literature and Culture** Luis H. Castañeda, Javier

González, 2016-09-23 What are Hispanic alternative communities and how are they represented in literature film and popular music This book studies the fictional representation of circles of artists and intellectuals youth gangs musical bands packs of marginal urban dwellers groups of immigrants and other diverse associations that share the common trait of being small and subversive collectives perhaps akin to secret societies plotting to take control of society These groups usually exist within a larger and established community typically the nation state though maintaining with it complicated relations of rivalry criticism outright violence and other forms of antagonism Thus alternative communities represent the other side of official institutions by constituting dystopias that condemn the status quo or by building utopias that point to new social arrangements In the Hispanic world a broad transatlantic space that includes Spain and Spanish America alternative communities have existed since the 19th century a time of nation building for Spanish American countries all the way to the 21st century when hybrid postnational and cosmopolitan communities begin to appear The seventeen chapters brought

together in this volume which constitutes the first systematic approach to Hispanic alternative communities tackle this complex cultural phenomenon from diverse critical perspectives      Pots, Pans, and People: Material Culture and Nature in Mesoamerican Ceramics Eduardo Williams,2024-07-19 This book explores material culture and human adaptations to nature over time with a focus on ceramics The author also explores the role of ethnoarchaeology and ethnohistory as key elements of a broad research strategy that seeks to understand human interaction with nature over time      **Fodor's Spain** Fodor's Travel Publications, Inc,2012 Full color guide Make your trip to Spain unforgettable with illustrated features maps and color photos Customize your trip with simple planning tools Top experiences attractions Convenient overview of each region and its highlights Easy to read color regional maps Explore Spain and beyond Discerning Fodor s Choice picks for hotels restaurants sights and more Word of Mouth tips from fellow Fodor s travelers Illustrated features on the Prado Museum the wines of Spain Gaudi flamenco the Alhambra tapas and Basque Country Best beaches best restaurants best tapas spots and best lodgings Opinions from destination experts Fodor s Spain based writers reveal their favorite local haunts Revised annually to provide the latest information      **World Exhaustion in Latin American Literatures and Cultures / El agotamiento del mundo en las literaturas y culturas de América Latina** Gesine Müller,Ignacio M. Sánchez Prado,2025-03-31 The volume analyzes the implications of the world exhaustion concept that has emerged in a post global cultural context and whose effects are particularly salient in Latin American literatures and cultures This conceptual term aptly describes the ambivalent lived experiences of societies that have been marked by centuries of globalization and the artistic production that seeks to give form and meaning to these experiences      Cross-Cultural Research Jorge Delva,Paula Allen-Meares,Sandra L. Momper,2010-04-29 This pocket guide offers researchers a framework for conducting research in a culturally sensitive manner with individuals families and communities in diverse settings This unique framework focuses on a process rather than a typology of behaviors attitudes values and beliefs All too frequently cross cultural research improperly attributes behaviors beliefs and values entirely to culture when a closer examination would reveal the shared influences of gender socioeconomic status immigration status and racial and ethnic backgrounds that interact in complex ways By encouraging practitioners to incorporate an intersectionality lens into their work this pocket guide helps researchers reveal stories that are more than the sum of particular identities Sharing their extensive research experience with diverse populations around the world the authors present a range of fluid and dynamic cross cultural research practices that readers can easily adapt to their unique circumstances At the intersection of culture and research methods chapters illustrate the application of the model to three broad areas of inquiry describing the nature of a problem understanding the etiology of the problem and evaluating the interventions designed to ameliorate the problem Each area is illustrated with examples of research projects that incorporate multiple epistemologies and methodologies in order to better understand and respond to a population s needs This guide offers a complete roadmap for developing cross cultural projects that truly engage

communities and will be a trusted resource for students and seasoned researchers alike      **Relations Between Cultures**

Jackson, 2014-05-02 In a study published in the mid twentieth century French historian Robert Ricard postulated that the evangelization and conversion of the native populations of Mexico had been rapid and relatively easy However different forms of evidence show that the so called spiritual conquest was anything but easy or rapid and in fact natives continued to practice their traditional beliefs alongside Catholicism Within several decades of initiating the so called spiritual conquest the campaign to evangelize and convert the native populations the missionaries faced growing evidence of idolatry or the persistence of traditional religious practices and apostasy straying from Church teachings The evidence includes written documents such as inquisition investigations that resulted for example in the execution of don Carlos the native ruler of Tezcoco on December 1 1539 or that uncovered evidence of systematic organized resistance to Dominican missionaries in the Sierra Mixteca of Oaxaca Other forms of evidence include pre Hispanic religious iconography incorporated into what ostensibly were Christian murals and pre Hispanic stones embedded in the churches and convents the missionaries had built One example of this was the stone with the face of Tl loc at the rear of the Franciscan church Santiago Tlatelolco in Distrito Federal During the course of some three centuries missionaries from different Catholic religious orders attempted to convert the native populations of colonial Mexico with mixed results Native groups throughout colonial Mexico resisted the imposition of the new religion in overt and covert forms and incorporated Catholicism into their worldview on their own terms Native cultural and religious traditions were more flexible than the Iberian Catholic norms introduced by the missionaries The so called spiritual conquest a term coined by Ricard evolved as a cultural war set against the backdrop of the imposition of a foreign colonial regime The 11 essays in this volume examine the efforts to evangelize the native populations of Mexico the approaches taken by the missionaries and native responses The contributions investigate the interplay between natives and missionaries in central Mexico and on the southern and northern frontiers of New Spain and among sedentary and non sedentary natives In the end many natives found little in the new faith to attract them and resisted the imposition of new religious norms and way of life      *Crossroads of Colonial Cultures* Gesine Müller, 2018-04-23 The

study examines cultural effects of various colonial systems of government in the Spanish and French speaking Caribbean in a little investigated period of transition from the French Revolution to the abolition of slavery in Cuba 1789 1886 The comparison of cultural transfer processes by means of literary production from and about the Caribbean embedded in a broader context of the circulation of culture and knowledge deciphers the different transculturations of European discourses in the colonies as well as the repercussions of these transculturations on the motherland s ideas of the colonial other The loss of a culturally binding centre in the case of the Spanish colonies in contrast to France s strong presence and binding force is accompanied by a multirelationality which increasingly shapes hispanophone Caribbean literature and promotes the pursuit for political independence The book provides necessary revision to the idea that the 19th century Caribbean can only be understood as an outpost of the European metropolises Examining the kaleidoscope of the colonial Caribbean opens new insights into the early processes of cultural globalisation and questions our established concept of a genuine western modernity Updated and expanded translation of Die koloniale Karibik Transferprozesse in hispanophonen und frankophonen Literaturen De Gruyter mimesis 53 2012
