The Myth of Sisyphus And Other Essays Albert Camus, 2012-10-31 One of the most influential works of this century The Myth of Sisyphus and Other Essays is a crucial exposition of existentialist thought Influenced by works such as Don Juan and the novels of Kafka these essays begin with a meditation on suicide the question of living or not living in a universe devoid of order or meaning With lyric eloquence Albert Camus brilliantly posits a way out of despair reaffirming the value of personal existence and the possibility of life lived with dignity and authenticity

Black Skin, White Masks Frantz Fanon, 2017 Black Skin White Masks is a classic devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world First published in English in 1967 this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace Franz Fanon identifies a devastating pathology at the heart of Western culture a denial of difference that persists to this day A major influence on civil rights anti-colonial and black consciousness movements around the world his writings speak to all who continue the struggle for political and cultural liberation With an introduction by Paul Gilroy author of There Ain't No Black in the Union Jack

Pessimism Joshua Foa Dienstag, 2009-02-17 Pessimism claims an impressive following from Rousseau Schopenhauer and Nietzsche to Freud Camus and Foucault Yet pessimism remains a term of abuse an accusation of a bad

attitude or the diagnosis of an unhappy psychological state Pessimism is thought of as an exclusively negative stance that inevitably leads to resignation or despair Even when pessimism looks like utter truth we are told that it makes the worst of a bad situation Bad for the individual worse for the species who would actually counsel pessimism Joshua Foa Dienstag does In Pessimism he challenges the received wisdom about pessimism arguing that there is an unrecognized yet coherent and vibrant pessimistic philosophical tradition More than that he argues that pessimistic thought may provide a critically needed alternative to the increasingly untenable progressivist ideas that have dominated thinking about politics throughout the modern period Laying out powerful grounds for pessimism s claim that progress is not an enduring feature of human history Dienstag argues that political theory must begin from this predicament He persuasively shows that pessimism has been and can again be an energizing and even liberating philosophy an ethic of radical possibility and not just a criticism of faith The goal of both the pessimistic spirit and of this fascinating account of pessimism is not to depress us but to edify us about our condition and to fortify us for life in a disordered and disenchanted universe **Mythologies** Roland Barthes,1972 No denunciation without its proper instrument of close analysis Roland Barthes wrote in his preface to Mythologies There is no more proper instrument of analysis of our contemporary myths than this book one of the most significant works in French theory and one that has transformed the way readers and philosophers view the world around them **Ulysses** ,

distinct charisms and vocations **Ecritures digitales** Claire Clivaz, 2019-07-01 *Ecritures digitales* aims to demonstrate how digital writing contributes to the emergence of a new relationship between the human body and the machine as Jacques Derrida proposed when he considered the effects of new technologies. This reconfigured relationship not surprisingly is also influencing the digital future of the Jewish-Christian textual corpus referred to as the Scriptures. The French title brings together this duality in one expression: *Ecritures digitales*. The English subtitle makes explicit the double meaning of the unique French word: *Digital writing, digital Scriptures*. With a full French version and an abbreviated English version, this monograph analyzes the main challenges and opportunities for both writing and the Scriptures in the transition to digital culture. *Ecritures digitales* souhaite d' montrer de quelle manière l' écriture digitale contribue l' émergence d' une nouvelle relation du corps humain aux machines selon le diagnostic posé par Jacques Derrida propos des effets des nouvelles technologies. Cette relation innovante influence galemment l' avenir numérique du corpus textuel judéo-chrétien d' sign comme les *Ecritures*. Le titre français rassemble en une seule expression ces deux thématiques: *Ecritures digitales*. Le sous-titre anglais rend sa double signification explicite: *Digital writing, digital Scriptures*. Avec une version française complète et une version anglaise brève, cette monographie analyse les principaux défis des métamorphoses digitales de l' écriture et des *Ecritures*.

Body and Spirit in the Middle Ages Gaia Gubbini, 2020-08-10 A crucial question throughout the Middle Ages: the relationship between body and spirit cannot be understood without an interdisciplinary approach combining literature, philosophy and medicine. Gathering contributions by leading international scholars from these disciplines, the collected volume explores themes such as lovesickness, the five senses, the role of memory and passions in order to shed new light on the complex nature of the medieval Self. **From War To Peace** Janine Chanteur, 2019-03-04 Combining political theory, gender analysis and human psychology, this book constitutes a brilliant contribution to all these fields and is essential reading for scholars of war, peace and human society. It argues that the hope for peace lies in rediscovering a neglected aspect of human ontology.
