**A STUDY OF PRACTICAL REASONING
IN PHILOSOPHICAL THEOLOGY**

NICHOLAS RESCHER

Pascals Wager A Study Of Practical Reasoning In Philosophical Theology

Paul Bartha, Lawrence Pasternack

Pascals Wager A Study Of Practical Reasoning In Philosophical Theology:

Pascal's Wager Nicholas Rescher, 1985 *Pascal's Wager* Nicholas Rescher, 1988 **Pascal's Wager** Jeff Jordan, 2006-10-26 What if there is no strong evidence that God exists Is belief in God when faced with a lack of evidence illegitimate and improper Evidentialism answers yes According to Evidentialism it is impermissible to believe any proposition lacking adequate evidence And if any thesis enjoys the status of a dogma among philosophers it is Evidentialism Presenting a direct challenge to Evidentialism are pragmatic arguments for theism which are designed to support belief in the absence of adequate evidence Pascal s Wager is the most prominent theistic pragmatic argument and issues in epistemology the ethics of belief and decision theory as well as philosophical theology all intersect at the Wager Other prominent theistic pragmatic arguments include William James s celebrated essay The Will to Believe a posthumously published and largely ignored pragmatic argument authored by J S Mill supporting the propriety of hoping that quasi theism is true the eighteenth century Scottish essayist James Beattie s argument that the consoling benefit of theistic belief is so great that theistic belief is permissible even when one thinks that the existence of God is less likely than not and an argument championed by the nineteenth century French philosopher Jules Lachelier which based its case for theistic belief on the empirical benefits of believing as a theist even if theism was very probably false In Pascal s Wager Pragmatic Arguments and Belief in God Jeff Jordan explores various theistic pragmatic arguments and the objections employed against them Jordan presents a new version of the Wager what he calls the Jamesian Wager and argues that the Jamesian Wager survives the objections hurled against theistic pragmatic arguments and provides strong support for theistic belief In addition to arguing for a sound version of the Wager Jordan also argues that there is a version of Evidentialism compatible with a principled use of pragmatic arguments and that the Argument from Divine Silence fails Objections found in Voltaire Hume and Nietzsche against the Wager are scrutinized as are objections issued by Richard Swinburne Richard Gale and other contemporary philosophers The ethics of belief the many gods objection the problem of infinite utilities and the propriety of a hope based acceptance are also examined *Gambling on God* Jeff Jordan, 1994 Gambling on God brings together a superb collection of new and classic essays that provide the first sustained analysis of Pascal s Wager and the idea of an infinite utility as well as the first in depth look at moral objections to the Wager **Taking Pascal's Wager** Michael Rota, 2016-04-21 Blaise Pascal s wager argues that since there is much to gain and relatively little to lose the wise decision is to seek a relationship with God and live a Christian life Michael Rota explores the dynamics of doubt evidence and decision making in order to consider what is necessary for people to embrace the Christian faith and the difference it makes in people s lives *Pascal's Wager* Paul Bartha, Lawrence Pasternack, 2018-10-18 Presents a comprehensive examination of Pascal s Wager its underlying theology philosophical influence and role in contemporary decision theory **Pascal's Pensees** Blaise Pascal, 2013-08-20 This collection chronicles the fiction and non fiction classics by the greatest writers the world has ever known The inclusion of

both popular as well as overlooked pieces is pivotal to providing a broad and representative collection of classic works

Routledge Companion to Philosophy of Religion Chad Meister, Paul Copan, 2013-01-17 The Routledge Companion to Philosophy of Religion Second edition is an indispensable guide and reference source to the major themes movements debates and topics in philosophy of religion Considerably expanded for the second edition over seventy entries from a team of renowned international contributors are organized into nine clear parts philosophical issues in world religions key figures in philosophy of religion religious diversity the theistic conception of God arguments for the existence of God arguments against the existence of God philosophical theology Christian theism recent topics in philosophy of religion Covering key world religions including Hinduism Buddhism and Islam and key figures such as Augustine Aquinas and Kierkegaard the Companion explores the central topics in theism such as the ontological cosmological and teleological arguments for God's existence Three final parts consider Catholicism Protestantism Eastern orthodoxy and current debates including phenomenology reformed epistemology religious experience and religion and science making the Companion as a whole essential reading for students of philosophy or religion and suitable for anyone coming to the subject for the first time This second edition includes new chapters on Blaise Pascal Baruch Spinoza Interreligious Dialogue Death and the Afterlife Incorporeality Religion and Global Ethics New Religious Movements Religion and the Environment and Religion and Film

Introducing Philosophy Through Pop Culture William Irwin, David Kyle Johnson, 2022-04-11 Can Wonder Woman help us understand feminist philosophy How Does Wakandan technology transcend anti Blackness What can Star Trek teach us about the true nature of reality Introducing Philosophy Through Pop Culture makes important philosophical concepts and the work of major philosophers relevant fun and exciting Using engaging examples from film and television this easy to read book covers everything from basic metaphysics and epistemology to abstract and complex philosophical ideas about ethics and the meaning of life You don't have to be a pop culture expert to benefit from this book even a general awareness of cultural icons like Superman or Harry Potter will be more than enough for you to learn about a wide range of philosophical notions thinkers and movements The expanded second edition offers timely coverage of important topics such as race gender personal identity social justice and environmental ethics New essays explore the philosophical underpinnings of The Good Place Game of Thrones Black Panther Star Wars The Avengers South Park The Lego Movie The Big Bang Theory and more This edition is supported by a new website with links to primary philosophical texts information about all the popular culture discussed and additional resources for teachers students and general readers alike Features a selection of key essays from the bestselling Blackwell Philosophy and Pop Culture Series Draws on examples from popular media including The Matrix Lost Doctor Strange The Hobbit Westworld and Star Trek Explains philosophical concepts such as relativism skepticism existentialist ethics logic social contract theory utilitarianism and mind body dualism Discusses the ideas of Socrates Aristotle Plato Descartes Nietzsche Heidegger Marx Mill Kierkegaard and other important thinkers Introducing Philosophy Through Pop

Culture is an excellent supplementary textbook for introductory philosophy courses and a valuable resource for general readers wanting to learn about philosophy and its connections with pop culture **Reason And Religious Faith** Terence Penelhum, Emeritus, 2019-07-11 The concerns of philosophy and of religion overlap to a considerable extent each seeks among other things to develop an account of mankind's place in the universe But their relationship has never been an easy one Faith gives rise to philosophical puzzlement just as secular beliefs do but it also generates special philosophical questions that secular beliefs do not This engaging text encourages students and other readers to grapple with these special questions of faith to look at how they relate to other issues in philosophy and in the empirical study of religion Equally accurate and insightful in its treatment of historical authors such as Aquinas and Pascal as it is in treatment of such contemporaries as Plantinga and Alston Reason and Religious Faith is the most up to date and balanced introduction to these issues available It marks an advance over earlier surveys in its recognition of religious pluralism and the relevance of non Christian religious views It is an ideal introduction to the issues of religious epistemology for students of both religious studies and philosophy **The Existence of God** Yujin Nagasawa, 2011-04-19 Does God exist What are the various arguments that seek to prove the existence of God Can atheists refute these arguments The Existence of God A Philosophical Introduction assesses classical and contemporary arguments concerning the existence of God the ontological argument introducing the nature of existence possible worlds parody objections and the evolutionary origin of the concept of God the cosmological argument discussing metaphysical paradoxes of infinity scientific models of the universe and philosophers' discussions about ultimate reality and the meaning of life the design argument addressing Aquinas's Fifth Way Darwin's theory of evolution the concept of irreducible complexity and the current controversy over intelligent design and school education Bringing the subject fully up to date Yujin Nagasawa explains these arguments in relation to recent research in cognitive science the mathematics of infinity big bang cosmology and debates about ethics and morality in light of contemporary political and social events The book also includes fascinating insights into the passions beliefs and struggles of the philosophers and scientists who have tackled the challenge of proving the existence of God including Thomas Aquinas and Kurt Godel who at the end of his career as a famous mathematician worked on a secret project to prove the existence of God The Existence of God A Philosophical Introduction is an ideal gateway to the philosophy of religion and an excellent starting point for anyone interested in arguments about the existence of God **Philosophic Classics: From Plato to Derrida** Forrest Baird, 2016-05-23 First published in 1961 Forrest E Baird's revision of Philosophic Classics continues the tradition of providing generations of students with high quality course material Using the complete works or where appropriate complete sections of works this anthology allows philosophers to speak directly to students Esteemed for providing the best available translations Philosophic Classics From Plato to Derrida features complete works or complete sections of the most important works by the major thinkers as well as shorter samples from transitional thinkers **Embodiment** Ramona Fotiade, David

Jasper, Olivier Salazar-Ferrer, 2016-05-06 This book examines a number of landmark shifts in our account of the relationship between human and divine existence as reflected through the perception of time and corporeal experience Drawing together some of the best scholars in the field this book provides a representative cross section of influential trends in the philosophy of religion e g phenomenology existential thought Biblical hermeneutics deconstruction that have shaped our understanding of the body in its profane and sacred dimensions as site of conflicting discourses on presence and absence subjectivity and the death of the subject mortality resurrection and eternal life **Scaling the Secular City** J. P. Moreland, 1987-02-01 This volume offers up to date arguments for God s existence and for Jesus s deity and resurrection answers to objections to Christian theism and discussions of four key issues Philosophy History Sophistry Dennis Rohatyn, 2022-04-25 Post modernism believes in nothing not even unbelief Hence it is a genial version of nihilism and the flip side of despair Like skepticism from which it descends it is healthy insofar as it rejects all dogmas but unhealthy insofar as it substitutes its own while eating its own essence This book diagnoses this disease and offers irony as its cure What failure of nerve did to Hellenism strength of character must do for the decline of the best Humor laughter and detachment are the gifts of historical art and of Socratic science As we take refuge in the myth of truth we must realize that there is no truth in myth and no comfort in illusion except the lie of immortality **The Oxford Handbook of Philosophy of Religion** William Wainwright, 2004-12-16 The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible manner Each chapter is expository critical and representative of a distinctive viewpoint *Cyberformalism* Daniel Shore, 2018-06-15 Linguistic forms Search Studies Was it for this and the study of influence Act as if and useful fictions WWJD and the history of imitatio christi Milton s depictives and the history of style Conclusions Shakespeare s constructicon God is dead long live philology *Responding to the Sacred* Michael Bernard-Donals, Kyle Jensen, 2021-03-17 With language we name and define all things and by studying our use of language rhetoricians can provide an account of these things and thus of our lived experience The concept of the sacred however raises the prospect of the existence of phenomena that transcend the human and physical and cannot be expressed fully by language The sacred thus reveals limitations of rhetoric Featuring essays by some of the foremost scholars of rhetoric working today this wide ranging collection of theoretical and methodological studies takes seriously the possibility of the sacred and the challenge it poses to rhetorical inquiry The contributors engage with religious rhetorics Jewish Jesuit Buddhist pagan as well as rationalist scientific and postmodern rhetorics studying for example divination in the Platonic tradition Thomas Hobbes s and Walter Benjamin s accounts of sacred texts the uncanny algorithms of Big Data and H l ne Cixous s sacred passages and passwords From these studies new definitions of the sacred emerge along with new rhetorical practices for engaging with the sacred This book provides insight into the relation of rhetoric and the sacred showing the capacity of rhetoric to study the ineffable but also shedding light on the boundaries between them In addition to the editors

the contributors to this volume include Michelle Ballif Jean Bessette Trey Conner Richard Doyle David Frank Daniel M Gross Kevin Hamilton Cynthia Haynes Steven Mailloux James R Martel Jodie Nicotra Ned O Gorman and Brooke Rollins Pascal: Reasoning and Belief Michael Moriarty, 2020-02-13 This book is a study of Blaise Pascal's defence of Christian belief in the Pensées Michael Moriarty aims to expound and in places to criticize what he argues is a coherent and original apologetic strategy Setting out the basic philosophical and theological presuppositions of Pascal's project the present volume draws the distinction between convictions attained by reason and those inspired by God given faith It also presents Pascal's view of the contradictions within human nature between the wretchedness our inability to live the life of reason to attain secure and durable happiness and the greatness the power of thought manifested in the very awareness of our wretchedness His mind body dualism and his mechanistic conception of non human animals are discussed Pascal invokes the biblical story of the Fall and the doctrine of original sin as the only credible explanation of these contradictions His analysis of human occupations as powered by the twin desire to escape from painful thoughts and to gratify one's vanity is subjected to critical examination as is his conception of the self and self love Pascal argues that just as Christianity propounds the only explanation for the human condition so it offers the only kind of happiness that would satisfy our deepest longings He thus reasons that we have an interest in investigating its truth claims as rooted in the Bible and in history The closing chapters of this book discuss Pascal's view of Christian morality and the famous wager argument for opting in favour of Christian belief **The Will to Imagine** J. L. Schellenberg, 2012-04-24 The Will to Imagine completes J L Schellenberg's trilogy in the philosophy of religion following his acclaimed Prolegomena to a Philosophy of Religion and The Wisdom to Doubt This book marks a striking reversal in our understanding of the possibility of religious faith Where other works treat religious skepticism as a dead end The Will to Imagine argues that skepticism is the only point from which a proper beginning in religious inquiry and in religion itself can be made For Schellenberg our immaturity as a species not only makes justified religious belief impossible but also provides the appropriate context for a type of faith response grounded in imagination rather than belief directed not to theism but to ultimism the heart of religion This new and nonbelieving form of faith he demonstrates is quite capable of nourishing an authentic religious life while allowing for inquiry into ways of refining the generic idea that shapes its commitments A singular feature of Schellenberg's book is his claim developed in detail that unsuccessful believers' arguments can successfully be recast as arguments for imaginative faith Out of the rational failure of traditional forms of religious belief The Will to Imagine fashions an unconventional form of religion better fitted Schellenberg argues to the human species as it exists today and as we may hope it will evolve
