The Complete Day Skipper Tom Cunliffe, 2016-04-21 The Complete Day Skipper is a totally practical hands on manual

that covers the RYA Day Skipper syllabus in a way that reflects a skipper's growing experience at sea beginning with yacht handling under power moving on to boat husbandry and sailing skills and from there to the realistic use of modern electronic navigation systems. Eminently readable and very down to earth, this fully revised fifth edition has become required reading for all skippers in their early years as well as more experienced sailors who choose not to venture far afield. As one of Britain's best known instructors and writers on seamanship, Tom Cunliffe provides just the right blend of advice, instruction, inspiration and encouragement.

The Encyclopedia of Tourism and Recreation in Marine Environments Michael Lück, 2008. Marine tourism has become one of the fastest growing areas within the tourism industry. With the increased use of marine environments comes the need for informed planning and sustainable management as well as for the education and training of planners, managers and operators. Combining the disciplines of marine scientists and tourism researchers, this encyclopedia will bring together the terms, concepts and theories related to recreational and tourism activities in marine settings. Entries range from short definitions to medium and long articles.

Stress-free Sailing Duncan Wells, 2015-05-12. By definition, couples sailing alone have to do everything for themselves. They leave the berth, set the sails, helm the boat, navigate, trim the sails, anchor, pick up mooring buoys, enter harbour, moor up, and all without the help of any extra crew. So they need to carry out these manoeuvres efficiently and effectively with as little physical effort as possible. Stress-free Sailing is the answer to single or short-handed crews' prayers: a step-by-step handbook addressing the most common sailing situations that anyone cruising will have to manage. Here you will find clever, highly effective and successfully tried and tested, short-handed solutions for dealing with everything from getting off and then back onto the dock in a variety of wind and tide configurations, sail setting and reefing, mooring and anchoring to sailing in heavy weather and new techniques for man overboard, all clearly illustrated with straightforward diagrams and sequence photos. 21 QR codes dotted throughout the book link to online video demonstrations to bring the techniques to life. As single or short-handers, you have to plan carefully, prepare properly and be able to anticipate. This book will be a godsend with its original techniques for coping in every situation.

The Complete Yachtmaster Tom Cunliffe, 2003. When it was first published, *The Complete Yachtmaster* proved immediately popular with a wide range of readers from skippers and crew to Yachtmaster students, bringing together as it does all the essentials of modern cruising within one volume. Although the boat handling and seamanship sections of this book have required only minor alterations, other areas of the book have evolved to keep in line with the revolution in navigation. Tom Cunliffe is not only an examiner of RYA Yachtmaster Instructors; he is very much an active sailor who runs up a heavy annual mileage in his own cruising yacht. This combination has enabled him to communicate the ever-advancing potential of electronic navigation techniques better than most. In this fourth edition of what has become a standard work, he shows the modern skipper how to use today's exciting equipment to refine a philosophy of navigation which has not changed since the beginning of seafaring. Throughout the book, Tom Cunliffe never lets the reader forget that no single skill can be divorced from the wide range of

knowledge that makes up the armoury of the complete Yachtmaster The latest edition of The Complete Yachtmaster is required reading for anyone skippering a yacht For examination candidates whether on board or in the classroom it guides the reader as authoritatively and reassuringly through the syllabus as a sea pilot bringing a ship to harbour Book jacket
