Hydrographic Department, 1898 **Australia as an Asia-Pacific Regional Power** Brendan Taylor, 2008-03-25 This book considers the changing nature of Australia's identity and role in the Asia Pacific and the forces behind these developments with particular attention towards security alignments and alliance relationships *Morrison's Mission: A Lowy Institute Paper: Penguin Special* Paul Kelly, 2022-02 When he became Prime Minister in 2018 Scott Morrison was a foreign policy amateur confronted by unprecedented challenges an assertive Beijing and a looming rivalry between the two biggest economies in world history the United States and China Morrison plunged into foreign and security policy by making highly contentious changes that will be felt for decades not least the historic decision to build nuclear powered submarines Featuring interviews with Morrison and members of his cabinet this book tells the story of the Prime Minister's foreign policy convictions and calculations and what drove his attitudes towards China America and the Indo Pacific **Mechanical Engineering Transactions**, 1976 *The Commonwealth Law Reports* Australia. High Court, 1915 **Master of the Senate** Robert A. Caro, 2002-04-23 Master of the Senate Book Three of The Years of Lyndon Johnson carries Johnson's story through one of its most remarkable periods his twelve years from 1949 to 1960 in the United States Senate At the heart of the book is its unprecedented revelation of how legislative power works in America how the Senate works and how Johnson in his ascent to the presidency mastered the Senate as no political leader before him had ever done It was during these years that all Johnson's experience from his Texas Hill Country boyhood to his passionate representation in Congress of his hardscrabble constituents to his tireless construction of a political machine came to fruition Caro introduces the story with a dramatic account of the Senate itself how Daniel Webster Henry Clay and John C Calhoun had made it the center of governmental energy the forum in which the great issues of the country were thrashed out And how by the time Johnson arrived it had dwindled into a body that merely responded to executive initiatives all but impervious to the forces of change Caro anatomizes the genius for political strategy and tactics by which in an institution that had made the seniority system all powerful for a century and more Johnson became Majority Leader after only a single term the youngest and greatest Senate Leader in our history how he manipulated the Senate's hallowed rules and customs and the weaknesses and strengths of his colleagues to change the unchangeable Senate from a loose confederation of sovereign senators to a whirring legislative machine under his own iron fisted control Caro demonstrates how Johnson's political genius enabled him to reconcile the unreconcilable to retain the support of the southerners who controlled the Senate while earning the trust or at least the cooperation of the liberals led by Paul Douglas and Hubert Humphrey without whom he could not achieve his goal of winning the presidency He shows the dark side of Johnson's

ambition how he proved his loyalty to the great oil barons who had financed his rise to power by ruthlessly destroying the career of the New Dealer who was in charge of regulating them Federal Power Commission Chairman Leland Olds And we watch him achieve the impossible convincing southerners that although he was firmly in their camp as the anointed successor to their leader Richard Russell it was essential that they allow him to make some progress toward civil rights In a breathtaking tour de force Caro details Johnson s amazing triumph in maneuvering to passage the first civil rights legislation since 1875 Master of the Senate told with an abundance of rich detail that could only have come from Caro s peerless research is both a galvanizing portrait of the man himself the titan of Capital Hill volcanic mesmerizing and a definitive and revelatory study of the workings and personal and legislative power **The Log** ,1936 Alice Henry: The Power of Pen and Voice Diane Kirkby,2002-08-08 A biography of Alice Henry 1857 1943 a pioneer in both the Australian and American labour movements The Constitution of Australia Cheryl Saunders,2010-11-30 Consistently with the aims of the series the book canvasses the Australian constitutional system in a way that explains its form and operation provides a critical evaluation of it and conveys a sense of the contemporary national debate The chapters deal with the foundations of Australian constitutionalism its history from the time of European settlement the nature of the Australian Constitutions the framework for judicial review the legislative executive and judicial branches of government federalism and multi level government and rights protection Running through all chapters is the story of the gradual evolution of Australian constitutionalism within the lean but almost unchanging framework of the formal written national Constitution A second theme traces the way in which the present distinctive constitutional arrangements in Australia emerged from creative tension between the British and United States constitutional traditions on which the Australian Constitution originally drew and which continues to manifest itself in various ways One of these which is likely to be of particular interest is Australian reliance on institutional arrangements for the purpose of the protection of rights The book is written in a clear and accessible style for readers in both Australia and countries around the world Each chapter is followed by additional references to enable particular issues to be pursued further by readers who seek to do so The Constitution of Australia has already been cited in a High Court of Australia case Momcilovic v The Queen 2011 HCA 34 8 September 2011 **The High Court on the Interpretation of Statutes** Thomas Macleod,1924 The Space Between Worlds Micaiah Johnson,2020-08-04 NEW YORK TIMES BOOK REVIEW EDITORS CHOICE An outsider who can travel between worlds discovers a secret that threatens the very fabric of the multiverse in this stunning debut a powerful examination of identity privilege and belonging WINNER OF THE COMPTON CROOK AWARD FINALIST FOR THE LOCUS AWARD Gorgeous writing mind bending world building razor sharp social commentary and a main character who demands your attention and your allegiance Rob Hart author of The Warehouse ONE OF THE BEST BOOKS OF THE YEAR NPR Library Journal Book Riot Multiverse travel is finally possible but there s just one catch No one can visit a world where their counterpart is still alive Enter Cara whose parallel selves happen

to be exceptionally good at dying from disease turf wars or vendettas they couldn't outrun Cara's life has been cut short on 372 worlds in total. On this dystopian Earth, however, Cara has survived. Identified as an outlier and therefore a perfect candidate for multiverse travel, Cara is plucked from the dirt of the wastelands. Now what once made her marginalized has finally become an unexpected source of power. She has a nice apartment on the lower levels of the wealthy and walled-off Wiley City. She works and shamelessly flirts with her enticing yet aloof handler Dell as the two women collect off-world data for the Eldridge Institute. She even occasionally leaves the city to visit her family in the wastes, though she struggles to feel at home in either place. So long as she can keep her head down and avoid trouble, Cara is on a sure path to citizenship and security. But trouble finds Cara when one of her eight remaining doppelgängers dies under mysterious circumstances, plunging her into a new world with an old secret. What she discovers will connect her past and her future in ways she could have never imagined and reveal her own role in a plot that endangers not just her world but the entire multiverse. Clever characters, surprise twists, plenty of action, and a plot that highlights social and racial inequities in astute prose. Library Journal starred review

Letters to Australia, Volume 1 Julius Stone, 2014-06-01 Letters to Australia is a collection of Julius Stone's radio talks originally broadcast by the ABC between 1942 and 1972. Recently discovered in the nation's archives, they take the reader back to the mid-20th century, bringing to life the people, events, and the sweep of affairs during World War II and its turbulent aftermath: the hopes and fears of individuals and nations. They tell much of Australia's role in that world and that era. More than anyone else at that time, Julius Stone gave Australians a sense that they were part of the world and could and should seek to influence these events. Volumes one and two contain essays from the 1940s. Volume one begins with 13 wartime broadcasts given with war at its most threatening for Australia; they are a call to courage in dark times. The broadcasts became more nuanced when they resumed in 1945 with the war almost won, and over the remainder of the decade they covered a wide range of issues: the complex aftermath of war, moves towards disarmament and the control of nuclear weapons, the shift of power from Britain and Europe to the US and USSR, the evolution of the Cold War, the birth of the United Nations, the first moves to European union, and the stirrings of the fundamentalist violence that is so large a part of today's conflicts. Volume two completes the 1940s broadcasts with a series on decolonisation and a remarkable set of commentaries on the events and people, nations and regions, starting with Europe and concluding with the Americas. The volume closes with a series of talks on the jurisprudence of international relations and four insightful end-of-the-decade talks on the key challenges he believed must be met to maintain intellectual freedom, to counter the narrowness of indoctrination, to respond constructively to the threat of racial conflict, and to assert the value and power of gradual reform.

The Passage Justin Cronin, 2010-06-08 The Andromeda Strain meets The Stand in this startling and stunning thriller that brings to life a unique vision of the apocalypse and plays brilliantly with vampire mythology, revealing what becomes of human society when a top secret government experiment spins

wildly out of control At an army research station in Colorado an experiment is being conducted by the U S Government twelve men are exposed to a virus meant to weaponize the human form by super charging the immune system But when the experiment goes terribly wrong terror is unleashed Amy a young girl abandoned by her mother and set to be the thirteenth test subject is rescued by Brad Wolgast the FBI agent who has been tasked with handing her over and together they escape to the mountains of Oregon As civilization crumbles around them Brad and Amy struggle to keep each other alive clinging to hope and unable to comprehend the nightmare that approaches with great speed and no mercy *Accumulation and Power* Richard B. DuBoff,2016-07-22 *Accumulation and Power* analyses America s economic development across three great waves of economic expansion the Grand Traverse 1850 1900 the New Era 1916 1929 and the Great Postwar Boom 1945 1972 Drawing on the work of Keynes Schumpeter Marx it departs radically from the new economic history model focusing instead on capitalist decision making and its social consequences It argues that the accumulation process is far more important than competitive markets in explaining resource allocation and growth This innovative book is essential reading for all students and scholars of American economic history Religious Freedom and the Australian Constitution Luke Beck,2018-03-19 This book examines the origins of Australia s constitutional religious freedom provision It explores on the one hand the political activities and motives of religious leaders seeking to give the Australian Constitution a religious character and on the other the political activities and motives of a religious minority seeking to prevent the Australian Constitution having a religious character The book also interrogates the argument advanced at the Federal Convention in favour of section 116 dealing with separation of religion and government and argues that until now scholars and courts have misunderstood that argument The book casts new light to show how the origins of the provision lead to section 116 being conceptualised as a safeguard against religious intolerance on the part of the Commonwealth Written in an accessible style the work has potential to influence the development of constitutional doctrine by the High Court through its challenge of historical assumptions on which the High Court s current doctrine is based Given the ongoing political debates concerning the interaction of discrimination law and religious freedom the book will be of interest to academics and policy makers working in the areas of law and religion constitutional law and comparative law **Australian Offshore Laws** M. W. D. White,2009 *Australian Offshore Laws* brings together in one place a reference to all laws that apply to offshore Australian waters for the benefit of legal practitioners regulators academics and students It demonstrates the unnecessary complexity of the Australian offshore legal regime and proposes as a first step towards reform a review of the Offshore Constitutional Settlement of 1979 OCS 1979 It discusses the manner of present drafting of such laws as many Commonwealth State and Territory laws apply offshore but few are drafted in a manner which identifies their limits or recognises their interaction with other offshore laws of with the OCS 1979 Journal New South Wales.
