Passage West:

The Passage West Giacomo Marramao, 2014-06-10 In this ambitious work Giacomo Marramao proposes a radical reconceptualization of the world system in our era of declining state sovereignty He argues that globalization cannot be reduced to mere economics or summarized by phrases such as the end of history or the westernization of the world Instead we find ourselves embarking on a passage to a new post nation state age destined to transform all civilizations and to disrupt Western geopolitical dominance To confront the challenges of this interregnum one must think in terms of a new and radical universalism a universalism of difference able to revitalize politics and to demythologize identity Building on the great interwar discussion between Spengler Junger Schmitt and Heidegger Marramao's new work engages with Habermas Derrida and post colonialism Arguing against the classic Western pretension to universal norms of democracy and reason he develops instead the idea of a universal politics of difference
