second adulthood as a period of reawakening Combining interviews and research this book gives voice to more than a hundred colorful women whose stories tell of wives who reinvigorate their marriages after their children leave the nest as well as divorced widowed and long single women who find new dreams and new loves From publisher description *The Lifelong Learner* Ronald Gross,1977 *Attached* Amir Levine,Rachel Heller,2010-12-30 Over a decade after its publication one book on dating has people firmly in its grip The New York Times We already rely on science to tell us what to eat when to exercise and how long to sleep Why not use science to help us improve our relationships In this revolutionary book psychiatrist and neuroscientist Dr Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly while others struggle Discover how an understanding of adult attachment the most advanced relationship science in existence today can help us find and sustain love Pioneered by psychologist John Bowlby in the 1950s the field of attachment posits that each of us behaves in relationships in one of three distinct ways Anxious people are often preoccupied with their relationships and tend to worry about their partner s ability to love them back Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness Secure people feel comfortable with intimacy and are usually warm and loving *Attached* guides readers in determining what attachment style they and their mate or potential mate follow offering a road map for building stronger more fulfilling connections with the people they love *The Third Chapter* Sara Lawrence-Lightfoot,2009-01-06 In the twenty first century a developmental phase of life is emerging as significant and distinct capturing our interest engaging our curiosity and expanding our understanding of human potential and development Demographers talk about this new chapter in life as characterized by people between fifty and seventy five who are considered neither young nor old In our third chapters we are beginning to redefine our views about the casualties and opportunities of aging we are challenging cultural definitions of strength maturity power and sexiness This is a chapter in life when the traditional norms rules and rituals of our careers seem less encompassing and restrictive when many women and men seem to be embracing new challenges and searching for greater meaning in life In *The Third Chapter* the renowned sociologist Dr Sara Lawrence Lightfoot offers a strong counterpoint to the murky ambivalence that shrouds our clear view of people in their third chapters She challenges the still prevailing and anachronistic images of aging by documenting and revealing the ways in which the years between fifty and seventy five may in fact be the most transformative and generative time in our lives tracing the ways in which wisdom experience and new learning inspire individual growth and cultural transformation The women and men whose voices fill the pages of *The Third Chapter* tell passionate and poignant stories of risk and vulnerability failure and resilience challenge and mastery experimentation and improvisation and insight and new learning *Seeing Like a State* James C.
