practicing and teaching high stakes leadership In First In Last Out he explains the department s unique strategies and how they can be adopted by leaders in any field as he has taught them to organizations around the country In a tough talking no nonsense style Salka uses real world stories to convey leadership imperatives such as first in last out your people need to see you taking the biggest risk as the first one to enter the danger zone and the last to leave manage change the fire you fought yesterday is not the one you ll be fighting tomorrow communicate aggressively a working radio is worth more than 20 000 gallons of water create an execution culture focus your people on the flames not the smoke commit to reality never allow the way you would like things to be to color how things are develop your people let them feel a little heat today or they ll get burned tomorrow Illustrated by harrowing real life situations the principles in First In Last Out will help managers become more confident coherent and commanding On the web <http://www.firstinleadership.com> **How to Pass the UK's National**
