Platonic Mysticism Arthur Versluis, 2017-08-16 Restores the Platonic history and context of mysticism and shows how it helps us understand more deeply the humanities as a whole from philosophy and literature to art In Platonic Mysticism Arthur Versluis clearly and tautly argues that mysticism must be properly understood as belonging to the great tradition of Platonism He demonstrates how mysticism was historically understood in Western philosophical and religious traditions and emphatically rejects externalist approaches to esoteric religion Instead he develops a new theoretical critical model for understanding mystical literature and the humanities as a whole from philosophy and literature to art A sequel to his Restoring Paradise this is an audacious book that places Platonic mysticism in the context of contemporary cognitive and other approaches to the study of religion and presents an emerging model for the new field of contemplative science An important work on the mystical experience delving deep into its history particularly from the Platonic perspective An essential text for anyone interested in mysticism and its relationship to philosophy and creative expression Andrew Newberg author of How Enlightenment Changes Your Brain The New Science of Transformation The present work the latest from the pen of Arthur Versluis provides a trenchant learned and illuminating analysis of the origins of Western mysticism in the Platonist tradition relayed through such figures as Plotinus and Dionysius the Areopagite down through Meister Eckhart and others while suitably excoriating the attempts of certain modern philosophers and sociologists of religion to deconstruct it from a materialist perspective I found it a rattling good read John Dillon author of The Heirs of Plato A Study of the Old

Academy 347 274 BC Keynes, Chicago and Friedman, Volume 1 Robert Leeson, Milton Friedman, 2024-10-28 These two volumes present essays on the subdiscipline of Chicago Monetarism in economics Some of the issues under dispute can be regarded as resolved while others are still being debated The contributors include Friedman Patinkin Harry Johnson and James Tobin **Last Words** Karl S. Guthke, 1992-10-30 Whether Goethe actually cried More light on his deathbed or whether Conrad Hilton checked out of this world after uttering Leave the shower curtain on the inside of the tub last words regardless of authenticity have long captured the imagination of Western society In this playfully serious investigation based on factual accounts anecdotes literary works and films Karl Guthke explores the cultural importance of those words spoken at the border between this world and the next The exit lines of both famous and ordinary people embody for us a sense of drama and truthfulness and reveal much about our thoughts on living and dying Why this interest in last words Presenting statements from such figures as Socrates Nathan Hale Marie Antoinette and Oscar Wilde I am dying as I have lived beyond my means Guthke examines our fascination in terms of our need for closure our desire for immortality and our attraction to the mystique of death scenes The author considers both authentic and invented final statements as he looks at the formation of symbols and legends and their function in our culture Last words handed down from generation to generation like cultural heirlooms have a good chance of surviving in our collective memory They are shown to epitomize a life convey a sense of irony or play to an audience as in the case of the assassinated Mexican revolutionary Pancho Villa who is said to have died imploring journalists Don't let it end like this Tell them I said something Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Incubation as a Type-Scene in the Aqhatu, Kirta, and Hannah Stories** Koowon Kim, 2011-05-10 Prior studies of incubation have approached it from a history of religions perspective with a view to historically reconstruct the actual practice of incubation in ancient Near East However this approach has proven unfruitful not due to the dearth of relevant data but because of the confusion with regard to the definition of the term incubation Suggesting a way out of this impasse in previous scholarship this book proposes to read the so called incubation texts from the perspective of incubation as a literary device namely as a type scene It applies Nagler's definition of a type scene to a literary analysis of two Ugaritic mythical texts the Aqhatu and Kirta stories and one biblical story the Hannah story The Quarterly review, 1839

Passion and Resurrection Narratives Andrew M. Bain, 2019-01-03 By grasping how the church of a particular time period reads the Scriptures we can understand much of the Christianity of that age This volume examines how the Gospel accounts at the heart of the Christian faith the passion and resurrection of Christ were interpreted by four key authors from

late antiquity In analyzing the readings and methods of Hilary of Poitiers Ambrose Jerome and Augustine this work advocates for a reshaping of the categories commonly used to understand Latin patristic exegesis It also prompts reflection upon habits of biblical interpretation and the pastoral application of Scripture in our own time **Notes on Books** ,1875 Notes, critical and practical on the book of Exodus Bible.
