Passion and Addiction in Sports and Exercise Attila Szabo, Zsolt Demetrovics, 2022-06-07 Passion and Addiction in Sports and Exercise is about the bright and dark aspects of sports and exercise behavior and revolves around two closely related yet distinct concepts Passion is a joyful and healthy reflection of one's enjoyment and dedication to an adopted sport or exercise At the same time exercise addiction is an obligatory and must be done training regimen This book is the first to attempt to explain the significant differences between passion and addiction in sports and exercise as well as the relationship between the two This book presents an overview of three dimensions of passion and offers a new frame to contextualize exercise addiction The work also addresses the misinterpretation of certain aspects of training e.g intensity frequency and commitment often related to the risk of exercise addiction After introducing the health benefits of exercise the book looks at the passion for sports and exercise training and the transition into maladaptive practice Then it presents definitions and theoretical models for exercise addiction It then examines exercise addiction cases while also illustrating how excessive or high exercise volumes could be beneficial instead of problematic The last chapter offers a new approach for a better understanding of exercise addiction Passion and Addiction in Sports and Exercise is helpful for students researchers and clinicians interested in sport and
