**The Things Things Say** Jonathan Lamb,2021-07-13 One of the new forms of prose fiction that emerged in the eighteenth century was the first person narrative told by things such as coins coaches clothes animals or insects This is an ambitious new account of the context in which these it narratives became so popular What does it mean when property declares independence of its owners and begins to move and speak Jonathan Lamb addresses this and many other questions as he advances a new interpretation of these odd tales from Defoe Pope Swift Gay and Sterne to advertisements still life paintings and South Seas journals Lamb emphasizes the subversive and even nonsensical quality of what things say their interests are so radically different from ours that we either destroy or worship them Existing outside systems of exchange and the priorities of civil society things in fact advertise the dissident obscurity common to slave narratives all the way from Aesop and Phaedrus to Frederick Douglass and Primo Levi a way of meaning only what is said never saying what is meant This is what Defoe s Roxana calls the Sense of Things and it is found in sounds substances and images rather than conventional signs This major work illuminates not only it narratives but also eighteenth century literature the rise of the novel and the genealogy of the slave narrative

**Just Property** Christopher Pierson,2016-07-28 Property remains the bedrock of the societies we all inhabit It underpins our core institutions including families states and economies and it is the medium through which the intensifying politics of inequality is played out There is plenty of evidence that its importance is increasing in a world of growing wealth inequality and depletion of natural resources Volume Two of Just Property traces the development of ideas about property in the Western world from the early eighteenth century through the Enlightenment and the experience of the French Revolution to the critical stance of socialists and anarchists in the nineteenth century It ranges across the thought of Bernard Mandeville David Hume Adam Smith Voltaire Rousseau Kant Hegel the Abbe de Sieyes Burke Wollstonecraft Charles Fourier Karl Marx Proudhon and Peter Kropotkin Many themes persist from an earlier period as does the influence of Christianity and the Roman Law but there are also many innovations In general the authority of God and the natural law recedes and the themes of utility and securing general welfare became more prominent In the wake of Locke labour though sometimes in the form of past labour that is capital attains a new prominence For its admirers a newly unfettered private property is the means of securing personal freedom constraining authoritarian governments promoting the arts and sciences and delivering an unprecedented improvement in the material condition of the whole population For its critics private property is the central component in a new political economy of systemic and unlimited class exploitation It penetrates everywhere and corrupts everything that it touches With these arguments we are clearly on the terrain of modernity witnessing a set of arguments and counter arguments with which we all still struggle

**A Passion for Position (eBook)** Afrika Mhlophe,2018-11 Afrika Mhlophe tackles the timely issue of leadership and how it can be misused in today s society He turns us back to the true definition of godly leadership as defined by the Lord

reminding leaders that their purpose is to serve      **Entangled Things** Alison Hulme, 2024-08-22 *Entangled Things* takes the concept of entanglement as its starting point in investigating the relationship between us and the material things we engage with. Each chapter illustrates a particular form of entanglement: desiring things, hoarding things, creating things, ridding ourselves of things, using ethnographic examples and theoretical perspectives. Hulme encourages a wider consideration of the place of humans in the world and the kind of choices we enact when influenced by the material things around us. She explores our relationships with material objects in light of both personal and planetary space and personal and historical time, from the space in our homes, storage spaces, landfill, and oceans to the times in our lives and the times in wider shared histories that things connect us to, not to mention our sense of time and our own place in the world. In so doing, Hulme intentionally places discussions on our entanglement with things squarely back into the context of the Anthropocene, with a provocative analysis in which the Anthropocene is posited as a concept which on one hand takes away human agency, placing us in the context of immense geological epochs, whilst on the other hand pushes agency upon humans, blaming us for the extreme challenges of the current era and looking to us to solve those challenges. For Hulme, material things are instrumental in helping us to grasp our existential place in the world and weave a way through the complications of living in epochal times.

**A Passion for Cultural Studies** Ben Highmore, 2017-09-16 The culture that infiltrates our lives can provoke a range of feelings and afflictions; culture can move you, get under your skin, and stir up your emotions. Ben Highmore uses these feelings or passions to explore the culture that surrounds us and uses it as a basis to introduce and explain the key ideas, debates, and theories that are central to cultural studies. Impressively accessible and packed with absorbing examples from everyday life, this compact book is the ideal entry point into cultural studies. The chapters examine problematic and complex issues that are core to cultural studies: looking at the experience of migration, the nature of the media, the lure of commodities, the world of taste, and the culture of love. Cleverly written in a way that's easy to follow and enjoyable to read, the text gives a sense of the discipline as a way of thinking rather than an amalgamation of theories and whets the appetite of all those interested in cultural studies. Whether you're a student who's new to the field or a seasoned scholar seeking a fresh idea about what cultural studies can do, this clear and concise text encourages you to become truly passionate about cultural studies.      **The**

Anton DiSclafani, author of *The Yonahlossee Riding Camp for Girls*. In this electrifying literary debut, a young woman who channels the dead for a living crosses a dangerous line when she falls in love with one of her clients whose wife died under mysterious circumstances. Edie has been a body at the Elysian Society for five years, an unusual record. Her

success is the result of careful detachment she seeks refuge in the lotuses anesthetic effects and distances herself from making personal connections with her clients But when Edie channels Sylvia the dead wife of recent widower Patrick Braddock she becomes obsessed with the glamorous couple Despite the murky circumstances surrounding Sylvia s drowning Edie breaks her own rules and pursues Patrick moving deeper into his life and summoning Sylvia outside the Elysian Society s walls After years of hiding beneath the lotuses dulling effect Edie discovers that the lines between her own desires and those of Sylvia have begun to blur and takes increasing risks to keep Patrick within her grasp Suddenly she finds her quiet life unraveling as she grapples not only with Sylvia s growing influence and the questions surrounding her death but with her own long buried secrets A tale of desire and obsession deceit and dark secrets that defies easy categorization *The Possessions* is a seductive absorbing page turner that builds to a shattering unforgettable conclusion *Evagrius of Pontus* Robert E.
