

A close-up photograph of a large bouquet of roses. The bouquet is composed of many pink roses of various shades, from light pink to deep magenta, and one prominent pale yellow rose with a golden center. The roses are arranged in a dense, overflowing cluster. They are held in a ceramic vase with a colorful, patterned design in shades of green, yellow, and brown. The vase sits on a dark, textured wooden surface. In the background, there is a soft-focus view of green foliage and more flowers, suggesting a garden setting. The overall lighting is bright and natural, highlighting the textures of the rose petals.

Passion For Flowers:

A Passion for Flowers Carolyn Roehm, 1997-10-07 Nothing lights up a room like flowers Whether it's baby's breath draped on a table at a wedding reception clusters of daffodils in small pots scattered throughout a living room or a bucket of sunflowers on a picnic table a strategically placed bouquet has the power to create a mood and make us feel special Unfortunately most of us don't know how to display flowers properly and they often end up clumsily thrown together in a vase In *A Passion for Flowers* Carolyn Roehm teaches readers how to create arrangements that set off a flower's natural beauty She discusses the overall features of dozens of the most popular flowers and helps readers understand how these elements relate to each other Though the book is filled with ideas for brightening holidays and special occasions Roehm stresses that the magic of flowers should be enjoyed year round Organized by season to profile the blossoms as they come into their glory bouquet recipes with step by step instructions are sprinkled throughout along with special care instructions for more sensitive blooms Sections detailing containers conditioning flowers and elements of floral design are included at the end of the book *A Passion for Flowers* features 250 breathtaking photographs and is a treasure trove of knowledge and inspiration that will help readers stop and smell the roses every day

A Passion for Flowers in 3-D Peyote Stitch Sheila Root, 2017-10-12 This book is the result of a challenge from one of my readers The patterns are a combination of engineering and bead artistry but the engineering is done for you so you get the fun of watching your flowers bloom one bead at a time So for Victoria and all the other flower loving bead artists around the world this one's for you The flowers in this book are three dimensional complete on all sides including stems bracts and some leaves They can also be made without the stems for a flatter application Flowers include Purple Passion Flower Carnation Blue Aster Gaillardia also called Blanket Flowers Bright Lights variety of Cosmos Nasturtium Lilac Seashell Cosmos in either single color or bi color Columbine and Snap Dragon All flowers are shown on the back cover or look inside for the Table of Contents The designs have detailed instructions and are fully illustrated with over 300 color photographs and diagrams All designs are original and have not been previously published in any other venue All flowers are approximately life size when made with size 11/0 round seed beads Size 15/0 round seed beads are also used for shaping to smooth edges and for some of the more delicate parts where 11/0 are just too big A good light and a magnifier help a lot with the smaller details if needed Or if you just can't work with tiny beads you could replace the 11/0 beads with 8/0 and the 15/0 with 11/0 you will just get bigger flowers Glass beads can be heavy so wire is used as an armature in the stems and a few flower parts A word of caution this book is for the serious beader If you love those magazine articles about making a necklace this afternoon and wearing it out for dinner this book is not for you You cannot start a bridal bouquet on Friday and have it ready for a Sunday wedding That is not to say you must be an advanced beader If you have some patience and can follow detailed directions you can make these flowers Basic peyote stitch instructions are NOT covered in this book You need to know even and odd count increasing and decreasing within rows and
