Mahoney,2018-12-04 This book is a learned essay at the intersection of politics philosophy and religion It is first and foremost a diagnosis and critique of the secular religion of our time humanitarianism or the religion of humanity It argues that the humanitarian impulse to regard modern man as the measure of all things has begun to corrupt Christianity itself reducing it to an inordinate concern for social justice radical political change and an increasingly fanatical egalitarianism Christianity thus loses its transcendental reference points at the same time that it undermines balanced political judgment Humanitarians secular or religious confuse peace with pacifism equitable social arrangements with socialism and moral judgment with utopianism and sentimentality With a foreword by the distinguished political philosopher Pierre Manent Mahoney s book follows Pope Emeritus Benedict XVI in affirming that Christianity is in no way reducible to a humanitarian moral message In a pungent if respectful analysis it demonstrates that Pope Francis has increasingly confused the Gospel with left wing humanitarianism and egalitarianism that owes little to classical or Christian wisdom It takes its bearings from a series of thinkers Orestes Brownson Aurel Kolnai Vladimir Soloviev and Aleksandr Solzhenitsyn who have been instructive critics of the religion of humanity These thinkers were men of peace who rejected ideological pacifism and never confused Christianity with unthinking sentimentality The book ends by affirming the power of reason informed by revealed faith to provide a humanizing alternative to utopian illusions and nihilistic despair      *My New Roots* Sarah Britton,2015-03-31 At long last Sarah Britton called the queen bee of the health blogs by Bon App tit reveals 100 gorgeous all new plant based recipes in her debut cookbook inspired by her wildly popular blog Every month half a million readers vegetarians vegans

Lazarus,Bernice N. Lazarus,1994-11-03 When Oxford published Emotion and Adaptation the landmark 1991 book on the psychology of emotion by internationally acclaimed stress and coping expert Richard Lazarus Contemporary Psychology welcomed it as a brightly shining star in the galaxy of such volumes Psychiatrists psychologists and researchers hailed it as a masterpiece a major breakthrough in our understanding of the emotional process and its central role in our adaptation as individuals and as a

species What was still needed however was a book for general readers and health care practitioners that would dispel the myths still surrounding cultural beliefs about emotion and systematically explain the relevance of the new research to the emotional dramas of our everyday lives Now in *Passion and Reason* Lazarus draws on his four decades of pioneering research to bring readers the first book to move beyond both clinical jargon and feel good popular psychology to really explain in plain accessible language how emotions are aroused how they are managed and how they critically shape our views of ourselves and the world around us With his co author writer Bernice Lazarus Dr Lazarus explores the latest findings on the short and long term causes and effects of various emotions including the often conflicting research on stress management and links between negative emotions and heart disease cancer and other aspects of physical and psychological health Lazarus makes a strong case that contrary to common assumption emotions are not irrational our emotions and our analytical thought processes are inextricably linked While not a how to book *Passion and Reason* does describe how readers can interpret what lies behind their own emotions and those of their families friends and co workers and how to manage them more effectively Exploring fifteen emotions in depth from love to jealousy the authors show how the personal meaning we give to the events and conditions of our lives trigger such emotions as anger anxiety guilt and pride They provide fascinating vignettes to frame a biography of each emotion Some are composite case histories drawn from Dr Lazarus s long career but most are stories of people the Lazaruses have known over the years people whose emotional fears conflicts and desires mirror readers own The Lazaruses also offer a special chapter on the diverse strategies of coping people use in managing their emotions and another When Coping Fails on psychotherapy and its approaches to emotional stress and dysfunction from traditional Freudian psychoanalysis to continuing research into relaxation techniques meditation hypnosis and biofeedback Packed with insight and compellingly readable *Passion and Reason* will enrich all readers fascinated by our emotional lives *Fresh from*

acknowledges that coming to terms with life in a networked era is not easy or obvious In a technologically mediated world life is bound to be complicated Boyd s new book is layered and smart It s Complicated will update your mind Alissa Quart New York Times Book Review A fascinating well researched and mostly reassuring look at how today s tech savvy teenagers are using social media People The briefest possible summary The kids are all right but society isn t Andrew Leonard Salon
