What will happen to her heart and her destiny? — **Grit** Angela Duckworth, 2020-04-07 A useful guide for parents or teachers looking for confirmation that passion and persistence matter and for inspiring models of how to cultivate these important qualities. The Washington Post In this young readers edition of the instant New York Times bestseller Grit MacArthur Genius Award winning professor Angela Duckworth offers insights into who succeeds in life and why: the secret to achievement is a special blend of passion and persistence she calls grit. The daughter of a scientist who frequently noted her lack of genius, Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching and neuroscience that led to her hypothesis about what really drives success: not genius but a unique combination of passion and long-term perseverance. In **Grit: Passion, Perseverance, and the Science of Success** Duckworth shows young people how they can achieve remarkable things not just by relying on natural talent but by practicing a unique form of focused persistence. She also teaches them how to be better at pursuing the small goals that will bring joy into their everyday life. Drawing on her powerful personal story, Duckworth describes how a youth spent smashing through every academic barrier resulted in the hypothesis that the real predictor of success may not be inborn talent but a special blend of resilience and single-mindedness. Through her descriptions of field research at venues as various as the National Spelling Bee where students who score highest on the Grit Scale land in the final rounds to work with Pete Carroll, coach of the Seattle Seahawks who was building the grittiest culture in the NFL, Duckworth shows how grit works in the real world. She also passes along insights gleaned from interviews with dozens of high achievers including the New York Times Crossword Editor, the Dean of Admissions at Harvard and more.

This book shows that beneath the opulent sets and sumptuous costumes, opera is very much a product of its time. Like all the great narrative arts, it draws on essential human experiences to create a form that can be endlessly reinvented to reflect a changing society. Focusing on seven opera premieres in seven distinct cultural landscapes with additional essays by contemporary practitioners including Plácido Domingo, Antonio Pappano, and Simone Young, the book culminates in the international explosion of opera in the twentieth and twenty-first centuries.
