in posts being removed on an industrial scale While this moderation is often encouraged by governments on the pretext that terrorism bullying pornography hate speech and fake news will slowly disappear from the internet it enables tech companies to censure our society It is the social media companies who define what is blacklisted in their community standards And given the dominance of social media in our information society we run the risk of outsourcing the definition of our principles for discussion in the public domain to private companies Instead of leaving it to social media companies only to take action the authors argue democratic institutions should take an active role in moderating criminal content on the internet To make this possible tech companies should be analyzed whether they are approaching a monopoly Antitrust legislation should be applied to bring those monopolies within democratic governmental oversight Despite being in different stages in their lives Anne Mette is in the startup phase of her research career while Frederik is one of the most prolific philosophers in Denmark the authors found each other in their concern about Free Speech on the internet The book was originally published in Danish as Dit opslag er blevet fjernet techgiganter ytringsfrihed Praise for Your Post has been Removed From my perspective both as a politician and as private book collector this is the most important non fiction book of the 21st Century It should be disseminated to all European citizens The learnings of this book and the usewe make of them today are crucial for every man woman and child on earth Now and in the future Jens Rohde member of the European Parliament for the Alliance of Liberals and Democrats for Europe This timely book compellingly presents an impressive array of information and analysis about the urgent threats the tech giants pose to the robust freedom of speech and access to information that are essential for individual liberty and democratic self government It constructively explores potential strategies for restoring individual control over information flows to and about us Policymakers worldwide should take heed Nadine Strossen Professor New York Law School Author HATE Why We Should Resist It with Free Speech Not Censorship Invisible Intrique Jerry Prescott, 1999
