standard now but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. Why did this guy just text me an emoji of a pizza? Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos. My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure? But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet, and after deciding neither party seemed like a murderer, they would get married and soon have a kid. All by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world. *Passionate Love and Popular Cinema* Erica Todd, 2013-12-16. This book analyses the romantic drama and the way that passionate love is presented as the central storyline in popular cinema, drawing upon genre studies and sociology. Exploring the passionate love story as a cinematic form, it also contributes through comparison to research on the romantic comedy. *The Psychology of Love* Robert J. Sternberg, Michael L. Barnes, 1988-01-01. Psychologische studie over het verschijnsel liefde. [Romantic Love in Cultural Contexts](#) Victor Karandashev, 2016-12-24. This volume presents a conceptual, historical, anthropological, and sociological review of how culture affects our experience and expression of romantic love. What is romantic love, and how is it different from and similar to other kinds of love? How is romantic love related to sex and marriage in human history and across contemporary cultures? What cultural factors mediate attraction in love? These are some of the questions the volume explores through its interdisciplinary yet focused lens. Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures. Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel, think, and behave in romantic relationships. This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting-edge research that has advanced the field. Divided into three parts, the volume begins

by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal
