America Fredrick B. Pike,2010-07-05 The lazy greaser asleep under a sombrero and the avaricious gringo with money stuffed pockets are only two of the negative stereotypes that North Americans and Latin Americans have cherished during several centuries of mutual misunderstanding This unique study probes the origins of these stereotypes and myths and

explores how they have shaped North American impressions of Latin America from the time of the Pilgrims up to the end of the twentieth century Fredrick Pike's central thesis is that North Americans have identified themselves with civilization in all its manifestations while viewing Latin Americans as hopelessly trapped in primitivism the victims of nature rather than its masters He shows how this civilization nature duality arose from the first European settlers perception that nature and everything identified with it including American Indians African slaves all women and all children was something to be conquered and dominated This myth eventually came to color the North American establishment view of both immigrants to the United States and all our neighbors to the south

Vixen (Complete) Mary Elizabeth Braddon,2020-09-28 Who could resist those little soft hands in doeskin Certainly not Rorie He resigned himself to the endurance of his mother s anger in the future as a price to be paid for the indulgence of his inclination in the present gave Vixen his arm and turned his face towards the Abbey House They walked through shrubberies that would have seemed a pathless wilderness to a stranger but every turn in which was familiar to these two The ground was undulating and vast thickets of rhododendron and azalea rose high above them or sank in green valleys below their path Here and there a group of tall firs towered skyward above the dark entanglement of shrubs or a great beech spread its wide limbs over the hollows here and there a pool of water reflected the pale moonshine The house lay low sheltered and shut in by those rhododendron thickets a long rambling pile of building which had been added to and altered and taken away from and added to again like that well known puzzle in mental arithmetic which used to amuse us in our childhood It was all gables and chimney stacks and odd angles and ivy mantled wall and richly mullioned windows or quaint little diamond paned lattices peeping like a watchful eye from under the shadow of a

jutting cornice The stables had been added in Queen Elizabeth s time after the monks had been routed from their snug quarters and the Abbey had been bestowed upon one of the Tudor favourites These Elizabethan stables formed the four sides of a quadrangle stone paved with an old marble basin in the centre a basin which the Vicar pronounced to be an early Saxon font but which Squire Tempest refused to have removed from the place it had occupied ever since the stables were built There were curious carvings upon the six sides but so covered with mosses and lichens that nobody could tell what they meant and the Squire forbade any scraping process by officious antiquarians which might lead to somebody s forcible appropriation of the ancient basin The Squire was not so modern in his ideas as to set up his own gasometer so the stables were lighted by lanterns with an oil lamp fixed here and there against the wall Into this dim uncertain light came Roderick and Vixen through the deep stone archway which opened from the shrubbery into the stable yard and which was solid enough for the gate of a fortified town Titmouse s stable was lighted better than the rest The door stood open and there was Titmouse with the neat little quilted doeskin saddle still on his back waiting to be fed and petted by his young mistress It was a pretty picture the old low ceiled stable with its wide stalls and roomy loose boxes and carpet of plaited straw golden against the deep brown of the woodwork
