Passion for Reality Michael R. Yogg, 2014-02-11 Paul Cabot, 1898-1994 was an innovative mutual fund manager and executive known for his strong character, charismatic personality, and trendsetting achievements. Iconoclastic and rebellious, Cabot broke free from the Boston Brahmin trustee mold to pursue new ways of investing and serving investment clients. Having spent nearly two decades working for Cabot's company as an analyst, research director, portfolio manager, and chief investment officer, Michael Yogg is well positioned to share the secrets behind Cabot's extraordinary success. Cabot oversaw the birth of the mutual fund industry in the 1920s and lobbied on behalf of key New Deal securities legislation in the 1930s. As Harvard University Treasurer, he increased endowment allocations to equities just in time for the bull market of the 1950s and as a corporate director in the 1960s, campaigned against conglomerates' abusive takeover strategies. Cabot pioneered the use of fundamental stock analysis and its progressive practice of interviewing company management. His accomplishments all stemmed from his passion for finance, imaginative thinking, and unbreakable will. Facets Yogg is able to illuminate through elite access to Cabot's papers and a wealth of interviews.

and biases we think hold us back and turning them to work in our favor How do you find a competitive edge when the obstacles feel insurmountable How do you get people to take you seriously when they re predisposed not to and perhaps have already written you off Laura Huang has come up against that problem many times and so has anyone who s ever felt out of place or underestimated Many of us sit back quietly hoping that our hard work and effort will speak for itself Or we try to force ourselves into the mold of who we think is successful stifling the creativity and charm that makes us unique and memorable In Edge Huang offers a different approach She argues that success is rarely just about the quality of our ideas credentials and skills or our effort Instead achieving success hinges on how well we shape others perceptions of our strengths certainly but also our flaws It s about creating our own edge by confronting the factors that seem like shortcomings and turning them into assets that make others take notice Huang draws from her groundbreaking research on entrepreneurial intuition persuasion and implicit decision making to impart her profound findings and share stories of previously overlooked Olympians assistants turned executives and flailing companies that made momentous turnarounds Through her deeply researched framework Huang shows how we can turn weaknesses into strengths and create an edge in any situation She explains how an entrepreneur scored a massive investment despite initially being disparaged for his foreign accent and how a first time political candidate overcame voters doubts about his physical disabilities Edge shows that success is about knowing who you are and using that knowledge unapologetically and strategically This book will teach you how to find your unique edge and keep it sharp
