Eudora Welty and Surrealism Stephen M. Fuller,2013 Eudora Welty and Surrealism surveys Welty s fiction during the most productive period of her long writing life The study shows how the 1930s witnessed surrealism s arrival in the United

States largely through the products of its visual artists Welty a frequent traveler to New York City where the surrealists exhibited and a keen reader of magazines and newspapers that disseminated their work absorbed and unconsciously appropriated surrealism's perspective in her writing In fact Welty's first solo exhibition of her photographs in 1936 took place next door to New York's premier venue for surrealist art In a series of readings that collectively examine *A Curtain of Green* and *Other Stories* *The Wide Net* and *Other Stories* *Delta* *Wedding* *The Golden Apples* and *The Bride of the Innisfallen* and *Other Stories* the book reveals how surrealism profoundly shaped Welty's striking figurative literature Yet the influence of the surrealist movement extends beyond questions of style The study's interpretations also foreground how her writing refracted surrealism as a historical phenomena Scattered throughout her stories are allusions to personalities allied with the movement in the United States including figures such as Salvador Dalí Elsa Schiaparelli Caresse Crosby Wallace Simpson Cecil Beaton Helena Rubinstein Elizabeth Arden Joseph Cornell and Charles Henri Ford Individuals such as these and others whom surrealism seduced often lead unorthodox and controversial lives that made them natural targets for moral opprobrium Eschewing such parochialism Welty borrowed the idiom of surrealism to develop modernized depictions of the South a literary strategy that revealed not only cultural farsightedness but great artistic daring

The Body, Childhood and Society A. Prout, 2016-04-30 Bringing together two topics of wide and growing sociological interest *The Body Childhood and Society* examines how children's bodies are constructed in schools families courts hospitals and in film Recognising that children's bodies are a target for adult practices of social regulation the contributors show that children are also active in their construction employ them in resistance and social action and generate their own meanings about them The editor a leading sociologist of childhood draws out the theoretical implications of this work indicates the limits of social constructionism and suggests new ways of thinking about the hybrid of material discursive and collective processes involved It will be a valuable text for social scientists interested in the body childhood schooling the law medicine and health
