Why is Everyone Smiling? Paul Spiegelman, 2012-10-15 A call center company CEO shares how businesses of all sizes can repeat his success by focusing on employee loyalty and not outsourcing. How many small businesses have a full-time coworker whose official title is Queen of Fun and Laughter? How many have a CEO and COO who dress in matador outfits for a company holiday video version of *Dancing with the Stars*? Beryl is a Top Small Workplace because of one thing: its focus on people. Visitors report they feel the vibe when they walk in the door. As a call center company, a business normally known for high turnover, low morale, and a boiler room environment, Beryl created a special culture resulting in low attrition, high customer loyalty, and profits reinvested in coworkers. What Beryl does behind the scenes to take care of the needs of its internal family sets it apart. It operates with a real spirit of camaraderie, the loyalty of team members at every level, a leadership team that operates with a true servant mindset, and a CEO Paul Spiegelman who believes that everyone deserves a chance to feel important. He rewards people frequently, respects their efforts and opinions, and informs them of everything that impacts them. Paul drills right to the core of the solution, focusing on people building a culture of customer satisfaction from the top down and empowering employees to do the right thing. What really drives business is the human touch, and Paul has the touch. James D. Power IV, Executive Vice President, J.D. Power and Associates, co-author of *Satisfaction: How Every Great Company Listens to the Voice of the Customer*.

Grit Angela Duckworth, 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent but a special blend of passion and persistence she calls grit. Inspiration for non-geniuses everywhere. People: The daughter of a scientist who frequently noted her lack of genius, Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers: from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll.
