Mediterranean Crossings Iain Chambers, 2008-01-16 The cultural theorist Iain Chambers is known for his historically grounded philosophically informed and politically pointed inquiries into issues of identity alterity and migration and the challenge postcolonial studies poses to conventional Western thought With *Mediterranean Crossings* he challenges insufficient prevailing characterizations of the Mediterranean by offering a vibrant interdisciplinary and intercultural interpretation of the region s culture and history The Mediterranean as a concept entered the European lexicon only in the early nineteenth century As an object of study it is the product of modern geographical political and historical classifications Chambers contends that the region s fundamentally fluid hybrid nature has long been obscured by the categories and strictures imposed by European discourse and government In evocative and erudite prose Chambers renders the
