**The Past in Contemporary Society** Peter J. Fowler, 1995      **The Past as Present** Romila Thapar, 2019-09-15 Pt I History and the public 1 Interpretations of early Indian history Historical perspectives of nation building 3 Of histories and identities 4 In defence of history 5 Writing history textbooks a memoir 6 Glimpses of a possible history from below early India pt II Concerning religion and history 7 Communalism a historical perspective 8 Religion and the secularizing of Indian society 9 Syndicated Hinduism pt III Debates 10 Which of us are Aryans 11 Dating the epics 12 The epic of the Bharatas 13 The Ramayana syndrome 14 In defence of the variant 15 Historical memory without history 16 The many narratives of Somanatha pt IV Our women then and now 17 Women in the Indian past 18 Becoming a Sati the problematic widow 19 Rape within a cycle of violence      **Archaeologies of the Contemporary Past** Victor Buchli, Gavin Lucas, 2002-01-04 Archaeologies of the Contemporary Past turns what is usually seen as a method for investigating the distant past onto the present In doing so it reveals fresh ways of looking both at ourselves and modern society as well as the discipline of archaeology This volume represents the most recent research in this area and examines a variety of contexts including Art Deco landfills miner strikes college fraternities an abandoned council house      **Remembering the Past in Contemporary African American Fiction** Keith Eldon Byerman, 2005 Remembering the Past in Contemporary African American Fiction      **Exhibiting the Past** Kirk A. Denton, 2013-12-31 During the Mao era China's museums served an explicit and uniform propaganda function underlining official Party history eulogizing revolutionary heroes and contributing to nation building and socialist construction With the implementation of the post Mao modernization program in the late 1970s and 1980s and the advent of globalization and market reforms in the 1990s China underwent a radical social and economic transformation that has led to a vastly more heterogeneous culture and polity Yet China is dominated by a single Leninist party that continues to rely heavily on its revolutionary heritage to generate political legitimacy With its messages of collectivism self sacrifice and class struggle that heritage is increasingly at odds with Chinese society and with the state's own neoliberal ideology of rapid paced development glorification of the market and entrepreneurship In this ambiguous political environment museums and their curators must negotiate between revolutionary ideology and new kinds of historical narratives that reflect and highlight a neoliberal present In Exhibiting the Past Kirk Denton analyzes types of museums and exhibitionary spaces from revolutionary history museums military museums and memorials to martyrs to museums dedicated to literature ethnic minorities and local history He discusses red tourism a state sponsored program developed in 2003 as a new form of patriotic education designed to make revolutionary history come alive and urban planning exhibition halls which project utopian visions of China's future that are rooted in new conceptions of the past Denton's method is narratological in the sense that he analyzes the stories museums tell about the past and the political and ideological implications of those stories Focusing on official exhibitionary culture rather than alternative or counter memory Denton reinserts the state back into the discussion of postsocialist culture

because of its centrality to that culture and to show that state discourse in China is neither monolithic nor unchanging The book considers the variety of ways state museums are responding to the dramatic social technological and cultural changes China has experienced over the past three decades

**History and Belonging** Stefan Berger,Caner Tekin,2025-05 In cultural and intellectual terms one of the EU s most important objectives in pursuing unification has been to develop a common historical narrative of Europe Across ten compelling case studies this volume examines the premises underlying such a project to ask Could such an uncontested history of Europe ever exist Combining studies of national politics supranational institutions and the fraught EU Mideast periphery with a particular focus on the twentieth century the contributors to History and Belonging offer a fascinating survey of the attempt to forge a post national identity politics

**The Past in Contemporary Society: Then, Now** Peter Fowler,2017-06-30 First published in 2002 Routledge is an imprint of Taylor and Francis an informa company

**Restaging the Past** Angela Bartie,Linda Fleming,Mark Freeman,Alexander Hutton,Paul Readman,2020-08-17 Restaging the Past is the first edited collection devoted to the study of historical pageants in Britain ranging from their Edwardian origins to the present day Across Britain in the twentieth century people succumbed to pageant fever Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived and hundreds of thousands more watched them These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s they took place in large cities small towns and tiny villages and engaged a whole range of different organised groups including Women s Institutes political parties schools churches and youth organisations Pageants were community events bringing large numbers of people together in a shared celebration and performance of the past they also involved many prominent novelists professional historians and other writers as well as featuring repeatedly in popular and highbrow literature Although the pageant tradition has largely died out it deserves to be acknowledged as a key aspect of community history during a period of great social and political change Indeed as this book shows some traces of pageant fever remain in evidence today

**The Representation of the Past** Kevin Walsh,2002-09-11 The 1980s and early 1990s have seen a marked increase in public interest in our historic environment The museum and heritage industry has expanded as the past is exploited for commercial profit In The Representation of the Past Kevin Walsh examines this international trend and questions the packaging of history which serves only to distance people from their own heritage A superficial unquestioning portrayal of the past he feels separates us from an understanding of our cultural and political present Here Walsh suggests a number of ways in which the museum can fulfill its potential by facilitating our comprehension of cultural identity

**The Burden of the Past** Anna Wylegala,Malgorzata Glowacka-Grajper,2019-01-29 Essays on how chaos totalitarianism and trauma have shaped Ukraine s culture A milestone of the scholarship about Eastern European politics of memory Wulf Kansteiner Aarhus University In a century marked by totalitarian regimes genocide mass migrations and shifting borders the concept of memory in Eastern

Europe is often synonymous with notions of trauma In Ukraine memory mechanisms were disrupted by political systems seeking to repress and control the past in order to form new national identities supportive of their own agendas With the collapse of the Soviet Union memory in Ukraine was released creating alternate visions of the past new national heroes and new victims This release of memories led to new conflicts and memory wars How does the past exist in contemporary Ukraine The works collected in *The Burden of the Past* focus on commemorative practices the politics of history and the way memory influences Ukrainian politics identity and culture The works explore contemporary memory culture in Ukraine and the ways in which it is being researched and understood Drawing on work from historians sociologists anthropologists psychologists and political scientists the collection represents a truly interdisciplinary approach Taken together the groundbreaking scholarship collected in *The Burden of the Past* provides insight into how memories can be warped and abused and how this abuse can have lasting effects on a country seeking to create a hopeful future

**The First Modern Society** Lawrence Stone, A. L. Beier, 1989-07-06 Intended to celebrate the 70th birthday of the distinguished historian Lawrence Stone these essays owe much to his influence There are also four appreciations by friends and colleagues from Oxford and Princeton and a little known autobiographical piece by Lawrence Stone himself

*Futurity* Amir Eshel, 2013-01-14 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century s catastrophes at the expense of literature s prospective vision Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany s public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel s political birth he shows how these stories inspired a powerful reconsideration of Israel s identity Eshel then discusses post 1989 literature from Ian McEwan s *Black Dogs* to J M Coetzee s *Diary of a Bad Year* revealing how these books turn to events like World War II and

the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future Futurity reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow      **A Living Past** John Soluri, Claudia Leal, José Augusto Pádua, 2019-05-01 Though still a relatively young field the study of Latin American environmental history is blossoming as the contributions to this definitive volume demonstrate Bringing together thirteen leading experts on the region *A Living Past* synthesizes a wide range of scholarship to offer new perspectives on environmental change in Latin America and the Spanish Caribbean since the nineteenth century Each chapter provides insightful up to date syntheses of current scholarship on critical countries and ecosystems including Brazil Mexico the Caribbean the tropical Andes and tropical forests and such cross cutting themes as agriculture conservation mining ranching science and urbanization Together these studies provide valuable historical contexts for making sense of contemporary environmental challenges facing the region      *After Modernity* Rodney Harrison, John Schofield, 2010-07-22 Rodney Harrison and John Schofield explore how archaeology can inform the study of our own society and other late modern societies through detailed case studies and a summary of the existing literature They draw together cross disciplinary perspectives and develop a new agenda for the study of the materiality of contemporary societies      *Exoticizing the Past in Contemporary Neo-Historical Fiction* E. Rousselot, 2014-11-13 This collection of essays is dedicated to examining the recent literary phenomenon of the neo historical novel a sub genre of contemporary historical fiction which critically re imagines specific periods of history      **Reclaiming the Past** Jonathan M. Hall, 2021-12-15 *Reclaiming the Past* examines the post antique history of Argos and how the city s archaeological remains have been perceived and experienced since the late eighteenth century by both local residents and foreign visitors to the Greek Peloponnese The first western visitors to Argos a city continuously inhabited for six millennia invariably expected to encounter landscapes described in classical texts yet what they found fell far short of those expectations At the same time local meanings attributed to ancient sites reflected an understanding of the past at odds with the supposed expertise of classically educated outsiders Jonathan M Hall details how new views of Argos emerged after the Greek War of Independence 1821 1830 with the adoption of national narratives connecting the newly independent kingdom to its ancient Hellenic past With rising local antiquarianism at the end of the nineteenth century new tensions surfaced between conserving the city s archaeological heritage and promoting urban development By carefully assessing the competing knowledge claims between insiders and outsiders over Argos s rich history *Reclaiming the Past* addresses pressing questions about who owns the past      *The Cambridge Handbook of the Imagination* Anna Abraham, 2020-06-18 The human imagination manifests in countless different forms We imagine the possible and the impossible How do we do this so effortlessly Why did the capacity for imagination evolve and manifest with undeniably manifold complexity uniquely in human beings This handbook reflects on such questions by collecting perspectives on

imagination from leading experts It showcases a rich and detailed analysis on how the imagination is understood across several disciplines of study including anthropology archaeology medicine neuroscience psychology philosophy and the arts An integrated theoretical empirical applied picture of the field is presented which stands to inform researchers students and practitioners about the issues of relevance across the board when considering the imagination With each chapter the nature of human imagination is examined what it entails how it evolved and why it singularly defines us as a species      **The Oxford Handbook of the Archaeology of the Contemporary World** Paul Graves-Brown,Rodney Harrison,Angela Piccini,2013-10 This Handbook is the first comprehensive survey of a rapidly expanding sub field in archaeology the study of the present and recent past It seeks to explore the boundaries of this emerging area to develop a tool kit of concepts and methods which are applicable to this new sub field and to suggest important future trajectories for research      *Experiencing the New Genetics* Kaja Finkler,2000-02-24 Experiencing the New Genetics will lead scholars and general readers alike to question how far genetic inheritance affects our selves and our future
