Burning Center, Porous Borders Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal glocal mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace *Kuki Shuzo*

Michael F. Marra, 2004-04-30 Kuki Shōmei (1888-1941) one of Japan's most original thinkers of the twentieth century is best known for his interpretations of Western Continental philosophy. His works on and of poetry are less well known but equally illuminating. During his eight years studying in Europe in the 1920s Kuki spent time in Paris where he wrote several collections of poetry and many short poems in the tanka style. Included in this volume are these Paris poems as well as other verses that Kuki appended to a long essay on poetry, *Rhymes in Japanese Poetry* written in 1931. Included as well are translations of two of Kuki's major critical essays on poetry, *The Genealogy of Feelings: A Guide to Poetry* (1938) and *The Metaphysics of Literature* (1940). Michael Marra, one of the West's foremost authorities on modern Japanese aesthetics, prefaces his translations with an important essay that gives an account of the current state of Kuki studies in English and presents an intriguing and original interpretation of Kuki's writings. Marra argues that there is an unresolved tension in Kuki's thought between a desire to overcome the rigid schemes of metaphysics garnered from his knowledge of French and German philosophy on the one hand and a constant hesitation to let those schemes go, which is expressed in his verse. Laurent Olivier, 2024-01-09 The field of archaeology continues to face a major crisis of interpretation. The traditional view is that the basic business of archaeology is to reconstruct the history of cultures and civilizations through their material productions. Olivier challenges this view with a new approach to archaeological remains based on the works of French theorists such as Foucault, de Certeau, and Derrida, with insight from Darwin and Freud. His thesis is that archaeology does not study the past itself but rather what materially remains of the past in our present. Olivier also develops an interpretation of material culture based on Aby Warburg's and Walter Benjamin's work in the anthropology of art. With wider implications for history and all social sciences, *The Dark Abyss of Time* is a major contribution to the theory of time, memory, heritage, and archaeology. This flawless translation makes Olivier's elegantly written work available in English for the first time.

Collective Memory & the Historical Past Jeffrey Andrew Barash, 2016-11-25 Barash seeks to safeguard history from mythology, deep and wide ranging yet the author's prose is clear and accessible. Highly recommended. Choice. There is one critical way we honor great tragedies: by never forgetting. Collective remembrance is as old as human society itself, serving as an important source of social cohesion yet, as Jeffrey Andrew Barash shows in this book, it has served novel roles in a modern era otherwise characterized by discontinuity and dislocation. Drawing on recent theoretical explorations of collective memory, he elaborates an important new philosophical basis for it, one that unveils profound limitations to its scope in relation to the historical past. Crucial to Barash's analysis is a look at the radical transformations that symbolic configurations of collective memory have undergone with the rise of new technologies of mass communication. He provocatively demonstrates how such technologies' capacity to simulate direct experience, especially via the image, actually makes more palpable collective memory's limitations and the opacity of the historical past, which always lies beyond the reach of living memory. Thwarting skepticism, however, he eventually looks to literature, specifically writers such as Walter

Scott Marcel Proust and W G Sebald to uncover subtle nuances of temporality that might offer inconspicuous emblems of a past historical reality A highly insightful and erudite book on the complex relationship of the past to the present It raises a host of important questions about memory and history Journal of the History of Ideas George Herbert Mead on Social Psychology George Herbert, 2018-12-09 One of the most brilliantly original of American pragmatists George Herbert Mead published surprisingly few major papers and not a single book during his lifetime Yet his influence on American sociology and social psychology since World War II has been exceedingly strong This volume is a revised and enlarged edition of the book formerly published under the title The Social Psychology of George Herbert Mead It contains selections from Mead's posthumous books Mind Self and Society Movements of Thought in the Nineteenth Century The Philosophy of the Act and The Philosophy of the Present together with an incisive newly revised introductory essay by Anselm Strauss on the importance of Mead for contemporary social psychology Required reading for the social scientist Milton L Barron Nation
