Pastoral Nature Of Theology An Upholding Presence:

The Pastoral Nature of Theology R. John Elford, 2000-03-01 Classifying pastoral care as an applied theology suggests that it stems from a separate and pure theology In this new volume R John Elford contends that pastoral concerns and actions are not products of theology but in fact are the catalysts that prompt and necessitate it Elford offers a detailed critical analysis of the relationship between theology and pastoral care and compares how different faith traditions understand the pastoral He traces how shifting historical circumstances and perceptions of pastoral need spurred changes in theological understanding and he asserts the need for these traditions to be in conversation with modern culture In closing The Pastoral Nature of Theology considers the role of morality in pastoral care and how contemporary issues often bring about profound theological problems

Introducing Feminist Perspectives on Pastoral Theology Zoe Bennett Moore, 2002-12-12 This book introduces feminist perspectives in pastoral theology It is concerned both with pastoral care and practice and also with pastoral theology and theory It seeks to explore why the inclusion of women s experiences and of feminist perspectives is of vital importance to Christian pastoral practice and to a Christian understanding of God The book is designed for concerned practitioners and also has specifically in mind the needs of students of pastoral theology It begins with the lived experience of violence in Church and society moving through to the implications of this for our understanding of the human community and the divine

The Mediation of the Spirit Mark J. Cartledge, 2015-07-08 A noteworthy theology of the Holy Spirit that challenges current scholarship in the field How might a distinctively Pentecostal and charismatic theological perspective inform and enrich the discourse of academic practical theology In order to address that question Mark Cartledge in this book probes the relationship between Scripture experience and the Holy Spirit by means of the concept of mediation that is how the divine is experienced in the world An expert in both Pentecostal theology and practical theology Cartledge offers a unique intervention into practical theology through the lens of the Holy Spirit He presents an original reading of Pentecost and the Spirit reception texts in the book of Acts and engages with current literature in both Pentecostal studies and practical theology Further Cartledge places his whole discussion within a broader Protestant theological framework and he interrogates an existing congregational study to provide a real life example of theological intervention **Who Do We**

Think We Are? Christopher A. Fallon, 2015-02-26 This empirical study explores how the sampled priests understand their priesthood Chris A Fallon reviews Liverpool s history of expansion and decline which has left fewer and older priests serving fewer active Catholics and an undiminished number who still require baptisms first communions marriages and funerals It contrasts the models of priesthood found in Liverpool with American studies of the cultic and servant leader models of priesthood taking into account the theological viewpoints and personality profiles of the individuals who took part

Anthropology and Theology Douglas Davies, 2020-05-18 Anthropology and Christian Theology have traditionally interpreted religion in quite different ways and have often been thought of as hostile to one another In fact a fundamental concern for human experience lies at the heart of both disciplines This innovative book takes a new look at key anthropological and theological themes and explores the intricacies of their interplay throughout history and in the present Sacrifice embodiment ritual incarnation symbolism gift and power are all related in ways that shed new light on religious behaviour and belief Detailed analysis of fundamental Christian rites shows how they help generate emotional meaning and inspire philosophical ideas and demonstrates how the body serves as a vehicle for religious beliefs Through an examination of these issues and much more Davies reveals how religious rituals help people to become secure in their sense of identity This accessible foray into new territory is essential reading for anthropologists theologians or anyone interested in religion who is seeking new interpretations of familiar themes

A Double Vision Hermeneutic Samuel Hio-Kee Ooi, 2015-02-26 The aim of this thesis is to unfold the multilayered intersubjective experience of the author himself a Chinese pastor The author postulates himself as the subject in whom the said experience was evident so that it can be analyzed and interpreted The author argues for a cultural linguistic experience of shi as the locus at which the intersubjective experience takes place He then shows that such experience embodies a Chinese Christian s two texts inheritance and argues that it is through unfolding or revealing of such experience that the nature of his relationship with them can be demonstrated **Creative**

this third MODEM handbook explores an issue at the very heart of the Church how can an ancient institution with so many encumbrances remain a living sign of the Kingdom of God **The Serendipity of Hope** Simon Lee,Ian S.

Markham,2023-07-07 Institutions are very precious If any idea is going to persist into the future then it needs an institution to keep it going Each of us comes to understand often only gradually over the decades how some influences from our earlier life have affected us Some will have been inspiring Some will have given us direct models of how to behave or how not to behave Indeed it is often the case that the deeper an influence turns out to have been in the long run the less likely it is that we noticed it at the time it was happening For this reason it has become necessary to find the time to reflect on and express gratitude for the institutions that helped form who we are and the work that we do This collection of essays explores the impact of one institution on twenty five participants twenty five years after we worked together The Institution was Liverpool Hope University College and is now Liverpool Hope University By telling and reflecting on our stories we aim to encourage others to think about their own experiences and ultimately our earnest hope is that a greater awareness of this aspect of university life will help to transform our collective understanding of the nature of universities in particular and of communities institutions or societies in general But there was something special about belonging to a community called Hope

The Dying Soul Cobb, Mark,2001-01-01 Holistic models of cancer and palliative care frequently refer to spirituality as an important element But what do we mean when we talk about spirituality and how do we provide spiritual care This book sets out an understanding of this complex domain describing how spirituality is experienced and expressed and looks at the impact of terminal illness The author argues that if we are to recognize spirituality as a significant aspect of living and dying then care providers must develop an interesting consistent and effective approach Therefore issues of training policy and practice all need to be addressed Spirituality is often represented as the fourth pillar of palliative care and yet it is often the least developed area in terms of both theory and practice Originating from the author s clinical and teaching experience this book aims to explore the concepts issues and practical implications of spirituality in care The Foundation of Hope R. John

Elford,2003-01-01 The Foundation of Hope is both a celebration and an analysis of the creation of Liverpool Hope University College in 1996 and of some of its achievements to date during an exciting period in British higher education The central focus is the student experience at Hope University College Contributors also examine the way that teaching and research in theology have developed over the years and the important community regeneration work Hope University College carries out in various areas of Liverpool AAR/SBL Annual Meeting Program American Academy of Religion. Newman, 2018-11-26 God is dead but his presence lives on in politics This is the problem of political theology the way that theological ideas find their way into secular political institutions particularly the sovereign state In this intellectual tour de force leading political theorist Saul Newman shows how political theology arose alongside secularism and relates to the problem of legitimising power and authority in modernity It is not about the power of religion so much as about the religion of power Examining the current crisis of the liberal order he argues that recent phenomena such as the rise of populism the renewed demand for strong national sovereignty and the return of religious fundamentalism may be understood through this paradigm He illustrates his argument through an exploration of themes such as sovereignty democracy economics technology ecological catastrophe messianism and the future of radical politics engaging with thinkers ranging from Schmitt and Hobbes to Stirner Foucault and Agamben This book will be a crucial text for all students scholars and general readers interested in the meaning and significance of political theology for political theory [The British National Bibliography](#)
