Pastorale Chiaroscuro:

The Low Countries Luc Devoldere, 2004 The Low Countries is a yearbook aimed at presenting to the world the culture and society of the Dutch speaking area which embraces both the Netherlands and also Flanders the northern part of Belgium The articles in this yearbook survey the living contemporary culture of the Low Countries as well as their cultural heritage It provides information about literature and the arts but also about broad social and historical development in Flanders and the Netherlands

The Pastoral Vision of Cormac McCarthy Georg Guillemín, 2004-06-17 Georg Guillemín's visionary approach to the work of Western novelist Cormac McCarthy combines an overall survey of McCarthy's eight novels in print with a comprehensive analysis of the author's evolving ecopastoralism Using in depth textual interpretations Guillemín argues that even McCarthy's early work is characterized less by traditional nostalgia for a lost pastoral order than by a radically egalitarian land ethic that prefigures today's ecopastoral tendencies in Western American writing The study shows that more than any of the other landscapes evoked by McCarthy the Southwestern desert becomes the stage for his dramatizations of a wild sense of the pastoral McCarthy's fourth novel Suttree which is the only one set inside an urban environment is used in the introductory chapter to discuss the relevant compositional aspects of his fiction and the methodology of the chapters to come The main part of the study devotes chapters to McCarthy's Southern novels his keystone work Blood Meridian and the Western novels known as the Border Trilogy The concluding chapter discusses the broader context of American pastoralism and suggests that McCarthy's ecopastoralism is animistic rather than environmentalist in character Guillemín shows that the very popular Border Trilogy takes McCarthy's ecopastoralism to its culmination although this is often overlooked precisely because of the simplicity of the plots picaresque quests As the trilogy arranges its plots as a search for a life of pastoral harmony All the Pretty Horses envisions a nomadic version of pastoral The Crossing and experiences the foreclosure of the pastoral vision anywhere Cities of the Plain the trilogy as a whole tacitly acknowledges the obsolescence of utopian pastoralism Increasingly man ceases to be the dominant focus of narration so that the shift from an egocentric to an ecocentric sense of self marks both the heroes and narrators of McCarthy's novels

The Low Countries Stichting Ons Erfdeel, 1993 The Pictorial Mode Donald A. Ringe, 2021-12-14 Focusing on style as a means of thematic expression Donald A. Ringe in this study examines in detail the affinities that exist between the paintings of the Hudson River school and the works of William Cullen Bryant Washington Irving and James Fenimore Cooper The emphasis on physical description of nature that characterizes the work of these writers he finds is not simply an imitation of European models nor is it merely nonfunctional decoration Rather he demonstrates that the authors' concern with description of the physical world derives from the late eighteenth century theory of knowledge and specifically from the concepts of the Scottish Common Sense school of philosophy Recognizing the differing limitations and opportunities presented by the media in which these two groups of artists worked Ringe traces deeper parallels in their treatment of spatial and temporal

relationships Having at their disposal the suggestive powers of language the writers succeeded in making of the pictorial mode an effective means of expressing moral and intellectual themes of fundamental concern to the nineteenth century American A full understanding of this characteristic mode of expression Ringe concludes is essential to accurate interpretation of the literary works of the first generation of American romantics

Appalachian Pastoral Michael S. Martin, 2022-10-15 This project overall attempts to recast Appalachian literature in terms of a lost tradition of texts that are generally out of print though of central importance to understanding the history of the region and its current environmental and cultural challenges The epilogue will also consider the way that ecological based literary criticism offers a vital language for how antebellum travel writers sought to frame the region from a 19th century environmental point of view The book aims to resituate the field of Appalachian Studies to an earlier historic genesis in the 19th century and bring to light several books which have received scant scholarly attention in the canon of Appalachian and American literature respectively The book centers on the argument that mid 19th century travel writers going through or from the Appalachian region drew on familiar versions of 18th century European mainly British landscape aesthetics that would help make the readerly experience less alien to their erudite regional and Northern audiences These travel writers such as Philip Pendleton Kennedy and David Hunter Strother consciously appropriated such aesthetic tropes as the pastoral as a way to further dramatic the effect in their nonfiction accounts of Appalachia while the reader could find such references comforting as they considered whether to domesticate or tour the Appalachian region

Black Pastoral Ariana Benson, 2023-09-15 Winner of the 2024 Academy of American Poets Lenore Marshall Poetry Prize Finalist 2023 National Book Critics Circle John Leonard Prize Black Pastoral explores the complex duality of Black peoples past and present relationship with nature It surveys the ways in which our histories both Black histories and natural ecological histories our suffering and our thriving are forever wound around one another They are painful at times and act as a salve at others Ariana Benson s poems meditate upon the violence and tenderness that simultaneously characterize the entangling of the two taking the form of a series of eco-poetic musings that re envision these confluences Moreover Benson s poems illustrate the beauty inherent to Blackness to nature to the remarkable relationship they share while also refusing its permission to collect idly like an opaque skein of film obscuring uglier necessary truths Black Pastoral seeks to be both love letter and elegy both flame to raze the field and flood to nourish the land anew

Karel Appel Karel Appel, Rudi Fuchs, Danubiana, Meulenstein Art Museum, 2005 No discussion of postwar Dutch art or postwar European art is complete without mentioning Karel Appel whom many consider Holland s most important painter Appel attended the Academy of Arts in Amsterdam from 1940 to 1943 and then bided his time painting landscapes and portraits in an era when artists were forbidden to buy materials or exhibit unless they joined the German Chamber of Culture After the liberation as reproductions of works by Picasso and others began to find their way to Holland

Appel rebelled against his studio training founded several avant garde groups including Cobra and then moved to Paris Years of travel and experimentation with subjects colors and materials left him with a close relationship to the American art community and studios all over the world Appel is a sculptor and a ceramist too but he is above all an expressionist a man of passion led by spontaneity who has conversely made a lasting mark *Pastoral Habits* George Drew, 2020-07-09 Just as an orchard grower when harvesting its fruit discards the tart the bitter the overripe and the stunted so too any poet tries to judiciously rejected less than sterling poems when assembling his *Selected Pastoral Habits* is a *Selected* of carefully chosen poems from fifty years and five volumes of poetic harvests If pastoral connotes good shepherding or good harvesting then George Drew's collection with like various varieties of fruit includes poems about Michelangelo Physics Russia all things American and the natural world will resonate for those who value the worlds of poetry from lyric to dramatic to narrative and whether as background or central the pastoral Few books of poetry as good as *Pastoral Habits* will come out this year perhaps none better X J Kennedy *THE PIET* Mother have you looked on this masterpiece Seen how you hold me as you did when I was but a child Here joy has been exiled and sorrow set upon the throne You will not see it on your perfect brow draped by its kerchief Nor on your firm chin nor in your inward looking marble eyes nor even in my horror riddled shape draped like a smock across your lap Now do you see it There in your left hand the fingers splayed like broken wings the deeply chiseled lifeline and the blood or shadow smudging palm and fingertips Here mother piety and pity are the same

Pastoral Cities James L. Machor, 1987 What has the city meant to Americans James L. Machor explores this question in a provocative analysis of American responses to urbanization in the context of the culture's tendency to valorize nature and the rural world Although much attention has been paid to American rural urban relations Machor focuses on a dimension largely overlooked by those seeking to explain American conceptions of the city While urban historians and literary critics have explicitly or implicitly emphasized the opposition between urban and rural sensibilities in America an equally important feature of American thought and writing has been the widespread interest in collapsing that division Convinced that the native landscape has offered special opportunities Americans since the age of settlement have sought to build a harmonious urban pastoral society combining the best of both worlds Moreover this goal has gone largely unchallenged in the culture except for the sophisticated responses in the writings of some of America's most eminent literary artists *Pastoral Cities* explains the development of urban pastoralism from its origins in the prophetic vision of the New Jerusalem applied to America in the sixteenth and seventeenth centuries through its secularization in the urban planning and reform of the 1800s Machor critiques the sophisticated treatment of urban pastoralism by writers such as Emerson Whitman Hawthorne Wharton and James by skillfully by combining cultural analysis with a close reading of urban plans travel narratives sermons and popular novels The product of this multifaceted approach is an analysis that works to reveal both the strengths and weaknesses of the pastoral ideal as cultural mythology **Pastoral Poetry & Pastoral Drama** Walter Wilson Greg, 1906

The Landscape and Pastoral Painters of Holland Frank Cundall,1891 *American Anti-Pastoral* Thomas

Gustafson,2024-06-14 One of the best known novels taking place in New Jersey Philip Roth's 1997 *American Pastoral* uses the fictional hamlet of Old Rimrock NJ as a microcosm for a nation in crisis during the cultural upheavals of the 1960s 70s Critics have called Old Rimrock mythic but it is based on a very real place the small Morris county town of Brookside New Jersey *American Anti Pastoral* reads the events in Roth's novel in relation to the history of Brookside and its region While Roth's protagonist Seymour Swede Levov initially views Old Rimrock as an idyllic paradise within the Garden State its real world counterpart has a more complex past in its origins as a small industrial village as well as a site for the politics of exclusionary zoning and a 1960s anti war protest at its celebrated 4th of July parade Literary historian and Brookside native Thomas Gustafson casts Roth's canonical novel in a fresh light as he studies both Old Rimrock in comparison to Brookside and the novel in relationship to NJ literature making a case for it as the Great New Jersey novel For Roth fans and history buffs alike *American Anti Pastoral* peels back the myths about the bucolic Garden State countryside to reveal deep fissures along the fault lines of race and religion in American democracy **An Archetypal Constable** Peter Bishop,1995 What is the significance of Constable's paintings and Constable country for the contemporary postmodern era Peter Bishop brings a new post Jungian or archetypal perspective to bear on Constable's paintings and Constable country addressing also the broader issues of the cultural psychology of art and the role of imagined landscapes in the formation of modern psychological and cultural ideas It forms a companion volume to the author's earlier work *The Myth of Shangri La* which looked at Western fantasies of the Other as expressed in the creation of images of an exotic place The present volume charts the corresponding fantasies of the Self Constable country provides a lens to examine the fostering of a sense of identity individual cultural and national It will be of value to all those with an interest in art history cultural history psychology and cultural geography
