**A History of the Philippines** Renato Constantino, Letizia R. Constantino, 1975 Unlike other conventional histories the unifying thread of A History of the Philippines is the struggle of the peoples themselves against various forms of oppression from Spanish conquest and colonization to U S imperialism Constantino provides a penetrating analysis of the productive relations and class structure in the Philippines and how these have shaped and been shaped by the role of the Filipino people in the making of their own history Additionally he challenges the dominant views of Spanish and U S historians by exposing the myths and prejudices propagated in their work and in doing so makes a major breakthrough toward intellectual decolonization This book is an indispensable key to the history of conquest and resistance in the Philippine      Contested Democracy and the Left in the Philippines After Marcos Nathan Gilbert Quimpo, 2008      Filipinos and Their Revolution Reynaldo Clemeña Iletto, 1998      *Power and Intimacy in the Christian Philippines* Fenella Cannell, 1999-03-18 The lowland Philippines in contrast to the apparently exotic tribal areas has for many years been thought of as a strangely Westernized place without a cultural life of its own This innovative and important book shows that this perception is a myth which reflects our own obsessions with defining culture and identity as something unchanging Through an absorbing account of arranged marriages miraculous saint cults spirit mediumship and gay beauty contests the author describes the unexpectedness of daily life in rural Bicol and the resilience and imagination of the Filipino poor      **Beyond the Nation** Martin Joseph Ponce, 2012-02 Part of the American Literatures Initiative Series Beyond the Nation charts an expansive history of Filipino literature in the U S forged within the dual contexts of imperialism and migration from the early twentieth century into the

twenty first Martin Joseph Ponce theorizes and enacts a queer diasporic reading practice that attends to the complex crossings of race and nation with gender and sexuality Tracing the conditions of possibility of Anglophone Filipino literature to U S colonialism in the Philippines in the early twentieth century the book examines how a host of writers from across the century both imagine and address the Philippines and the United States inventing a variety of artistic lineages and social formations in the process Beyond the Nation considers a broad array of issues from early Philippine nationalism queer modernism and transnational radicalism to music influenced and cross cultural poetics gay male engagements with martial law and popular culture second generational dynamics and the relation between reading and revolution Ponce elucidates not only the internal differences that mark this literary tradition but also the wealth of expressive practices that exceed the terms of colonial complicity defiant nationalism or conciliatory assimilation Moving beyond the nation as both the primary analytical framework and locus of belonging Ponce proposes that diasporic Filipino literature has much to teach us about alternative ways of imagining erotic relationships and political communities *Religion, Tradition and the Popular* Judith Schlehe, Evamaria Sandkühler, 2014-04-15 A rapid development of religious popular cultures and lifestyles can be observed across the globe This book provides unique case studies from Asia and Europe illustrating new religious practices forms of articulation and mass mediatization all of which render religious traditions significant for contemporary issues and concerns The essays examine experiences of spirituality in combination with commercialization and expressive performative practices as well as everyday politics of identity Based on innovative theoretical reflections the essays take into consideration what the transcultural negotiation of religion tradition and the popular signifies in different places and social contexts With contributions by Anthony Reid Hubert Knoblauch Ariel Heryanto Stefanie von Schnurbein and others **The Revolt of the Masses** Teodoro A. Agoncillo, 2017 **Christianities in Asia** Peter C. Phan, 2011-01-21 Christianity in Asia explores the history development and current state of Christianity across the world s largest and most populous continent Offers detailed coverage of the growth of Christianity within South Asia among the thousands of islands comprising Southeast Asia and across countries whose Christian origins were historically linked including Vietnam Thailand China Hong Kong Taiwan Japan and Korea Brings together a truly international team of contributors many of whom are natives of the countries they are writing about Considers the Middle Eastern countries whose Christian roots are deepest yet have turbulent histories and uncertain futures Explores the ways in which Christians in Asian countries have received and transformed Christianity into their local or indigenous religion Shows Christianity to be a vibrant contemporary movement in many Asian countries despite its comparatively minority status in these regions *Filipino Politics* David Wurfel, 1991 Wurfel presents a full examination of the island republic from independence to the present placed in the context of the Philippines long and rich history He has taken advantage of new research and publications and has devoted more than a third of the study to the Marcos and Aquino administrations This is an important book a study no student of Philippine politics and society can ignore Choice An

Intercultural Theology of Migration Gemma Cruz, 2010-01-15 Migration has long been associated with the social sciences. However, as a phenomenon that provides windows into possibly new forms of oppression and at the same time paths toward human liberation, a systematic theological look at contemporary migration is long overdue. Building on the emerging interest on migration in theology, this book presents an intercultural theology of migration drawn from the experience of Filipino women domestic workers in Hong Kong in dialogue with theological ethics and liberationist theologies. The result is a new look at the phenomenon of contemporary migration. *The Oxford Handbook of Christianity in Asia* Felix Wilfred, 2014-05-23 Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies. Despite the ongoing global expansion of Christianity, there remains a lack of comprehensive scholarship on its development in Asia. This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions, including worship, theology, spirituality, inter-religious relations, interventions in society, and mission. The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia. They analyze how the growth of Christian beliefs throughout the continent is linked with the socio-political and cultural processes of colonization, decolonization, modernization, democratization, identity construction of social groups, and various social movements. With a particular focus on inter-religious encounters and emerging theological and spiritual paradigms, the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia. **Seeds of the Kingdom** Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times, there are still groups of people scattered throughout the world who are trying to live out utopian dreams. These communities challenge the inevitability and morality of dominant political and economic models. By putting utopian religious ethics into practice, they attest to the real possibility of social alternatives. In *Seeds of the Kingdom*, Anna L. Peterson reflects on the experiences of two very different communities: one inhabited by impoverished former refugees in the mountains of El Salvador and the other by Amish farmers in the Midwestern U.S. What makes these groups stand out among advocates of environmental protection, political justice, and sustainable development is their religious orientation. They aim, without apology, to embody the reign of God on earth. The Salvadoran community is grounded in Roman Catholic social thought, while the Amish adhere to Anabaptist tradition. Peterson offers a detailed portrait of these communities: history, social organization, religious life, environmental values, and agricultural practices. She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities, including a strong collective identity, deep attachment to local landscapes, a desire to preserve non-human as well as human lives, and perhaps unexpectedly, a utopian horizon that provides both goals and the hope of reaching them. By examining the process by which people struggle to live according to a transcendent value system, she sheds light on both the actual and the potential place of religion in public life. Peterson argues that the Amish and Salvadoran communities, geographically and culturally

removed from the industrialized West have relevance for the political and environmental problems of the developed world. These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world.

**Missions in Southeast Asia** Kiem-Kiok Kwa, Samuel Ka-Chieng Law, 2022-09-26 As the boundaries between cultures and religions blur in an increasingly globalized world the church finds itself in need of new approaches to understanding and embracing otherness both inside and outside of its established communities. Southeast Asia has long been one of the world's most diverse regions with over a hundred ethnicities represented and members of every major religion living as neighbors. In this rich and complex environment the church has an equally rich and complex history at times flourishing at times floundering but inexorably taking root. In this collection of essays contributors from throughout the region reflect on the history and future of Christianity in Southeast Asia providing an overview of missions in the region and exploring how local churches are defining a uniquely Southeast Asian approach to interreligious engagement. Combining missiological research with contextual theology this volume offers profound insight into the challenges accompanying missions in a multireligious environment. From ethnic and religious conflict resolution to navigating hybrid identities this collection of essays makes an excellent contribution to global conversations surrounding the future of missions in a globalized world.

**Nationalism in Southeast Asia** Nicholas Tarling, 2004-08-02 Nationalism in Southeast Asia seeks a definition of nationalism through examining its role in the history of southeast Asia a region rarely included in general books on the topic. By developing such a definition and testing it out Tarling hopes at the same time to make a contribution to southeast Asian historiography and to limit its ghettoization. Tarling considers the role of nationalism in the nation building of the post colonial phase and its relationship both with the democratic aspirations associated with the winning of independence and with the authoritarianism of the closing decades of the 20th century.

**Multiculturalism in the United States** John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work. Co editors Ratner and Buenker have revised and updated the first edition of *Multiculturalism in the United States* to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them. Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool. Seven new ethnic groups are included: Arabs, Haitians, Vietnamese, Koreans, Filipinos, Asian Indians, and Dominicans. New essays on the Irish, Chinese, and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition. The contribution to American culture by people of these diverse origins reflects differences in class, occupation, and religion. The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants. Changes over time that both of the cultures brought to America and of the culture that received them is also discussed.

Essays on representative ethnic groups include African Americans American Indians Arabs Asian Indians Chinese Dominicans Filipinos Germans Haitians Irish Italians Jews Koreans Mexicans Poles Scandinavians and the Vietnamese
