Paternal Tyranny Arcangela Tarabotti, 2007-11-01 Sharp witted and sharp tongued Arcangela Tarabotti 1604-52 yearned to be formally educated and enjoy an independent life in Venetian literary circles But instead at sixteen her father forced her into a Benedictine convent To protest her confinement Tarabotti composed polemical works exposing the many injustices perpetrated against women of her day Paternal Tyranny the first of these works is a fiery but carefully argued manifesto against the oppression of women by the Venetian patriarchy Denouncing key misogynist texts of the era Tarabotti shows how despicable it was for Venice a republic that prided itself on its political liberties to deprive its women of rights accorded even to foreigners She accuses parents of treating convents as dumping grounds for disabled illegitimate or otherwise unwanted daughters Finally through compelling feminist readings of the Bible and other religious works Tarabotti demonstrates that women are clearly men's equals in God's eyes An avenging angel who dared to speak out for the rights of women nearly four centuries ago Arcangela Tarabotti can now finally be heard

**Arbitrary Rule** Mary Nyquist, 2013-05-10 Slavery appears as a figurative construct during the English revolution of the mid-seventeenth century and again in the American and French revolutions when radicals represent their treatment as a form of political slavery What if anything does figurative political slavery have to do with transatlantic slavery In Arbitrary Rule Mary Nyquist explores connections between political and chattel slavery by excavating the tradition of Western political thought that justifies actively opposing tyranny She argues that as powerful rhetorical and conceptual constructs Greco-Roman political liberty and slavery reemerge at the time of early modern Eurocolonial expansion they help to create racialized free national identities and their unfree counterparts in non-European nations represented as inhabiting an earlier primitive age Arbitrary Rule is the first book to tackle political slavery's discursive complexity engaging Eurocolonialism political philosophy and literary studies areas of study too often kept apart Nyquist proceeds through analyses not only of texts that are canonical in political thought by Aristotle Cicero Hobbes and Locke but also of literary works by Euripides Buchanan Vondel Montaigne and Milton together with a variety of colonialist and political writings with special emphasis on tracts written during the English revolution She illustrates how anti-tyranny discourse which originated in democratic Athens was adopted by republican Rome and revived in early modern Western Europe provided members of a free community with a means of protesting a threatened reduction of privileges or of consolidating a collective political identity Its semantic complexity however also enabled it to legitimize racialized enslavement and imperial expansion Throughout Nyquist demonstrates how principles relating to political slavery and tyranny are bound up with a Roman jurisprudential doctrine that sanctions the power of life and death held by the slaveholder over slaves and by extension the state its representatives or its laws over its citizenry
