Paternalism Incorporated Fables Of American Fatherhood 1865 194

Kristian Williams

Paternalism Incorporated Fabies Of American Fatherhood 1865 194:

Paternalism Incorporated David Leverenz, 2004 Between the Civil War and World War I David Leverenz maintains the corporate transformation of American work created widespread desire for upward mobility along with widening class divisions In his view several significant narrative constructs notably the daddy s girl and the daddy s boy emerge at the intersection between paternalist practices and more democratic possibilities for self advancement From Mark Twain s Laura Hawkins in *The Gilded Age* to the protagonist of Theodore Dreiser s *Sister Carrie* and Willa Cather s Alexandra Bergson in *O Pioneers* Leverenz finds that the image of the daddy s girl constrains the emerging threat of the career woman even as it articulates the lure of upward mobility for women In surveying the figure of the daddy s boy Leverenz examines tensions between young men s desires for upward mobility and older men s desires for paternal control *Paternalism Incorporated* also addresses yearnings for individualism and paternalism in various critiques of the emerging corporation Another chapter links honor and shaming to race in the philanthropic practices of Andrew Carnegie and John D Rockefeller framed with narratives by William Dean Howells Booker T Washington and Jane Addams After showing how a daddy s girl becomes a paternalist in Henry James s *The Golden Bowl* Leverenz considers F Scott Fitzgerald s *Tender is the Night* as paternalism s elegy contrasted with the Shirley Temple film *The Little Colonel* Liberty or Equality Erik von Kuehnelt-Leddihn, 2007 Sometime in the 18th century the word equality gained ground as a political ideal but the idea was always vague In this treatise Erik von Kuehnelt Leddihn argues that it reduced to one simple and very dangerous idea equality of political power as embodied in democracy He marshals the strongest possible case that democratic equality is the very basis not of liberty as is commonly believed but the total state He uses national socialism as his prime example He further argues the old notion of government by law is upheld in old monarchies restrained by a noble elite Aristocracy not democracy gave us liberty On his side in this argument he includes the whole of the old liberal tradition and offers overwhelming evidence for his case In our times war and totalitarianism do indeed sail under the democratic flag This book capable of overturning most of what you thought you knew about political systems was first published in 1952 **America, History and Life** ,2006 Article abstracts and citations of reviews and dissertations covering the United States and Canada Forthcoming Books Rose Army, 2003

Culture and Imperialism Edward W. Said, 2012-10-24 A landmark work from the author of *Orientalism* that explores the long overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it Grandly conceived urgently written and urgently needed No one studying the relations between the metropolitan West and the decolonizing world can ignore Mr Said s work *The New York Times Book Review* In the nineteenth and early twentieth centuries as the Western powers built empires that stretched from Australia to the West Indies Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida* Yet most cultural critics continue to see these phenomena as separate Edward Said looks at these works alongside those of such writers as W B Yeats Chinua Achebe and

Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance Vast in scope and stunning in its erudition Culture and Imperialism reopens the dialogue between literature and the life of its time

The Foucault Effect Michel Foucault, 1991-07-09 Based on Foucault's 1978 and 1979 lectures on rationalities of government this work examines the art or activity of government and the different ways in which it has been made thinkable and practicable There are also contributions of other scholars exploring modern manifestations of government *The Making of Modern Japan* Marius B. Jansen, 2002-10-15 Magisterial in vision sweeping in scope this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present A distillation of more than fifty years engagement with Japan and its history it is the crowning work of our leading interpreter of the modern Japanese experience Sojourners and Settlers, Chinese Migrants in Hawaii Clarence Elmer Glick, 1980 Among the many groups of Chinese who migrated from their ancestral homeland in the nineteenth century none found a more favorable situation than those who came to Hawaii Coming from South China largely as laborers for sugar plantations and Chinese rice plantations but also as independent merchants and craftsmen they arrived at a time when the tiny Polynesian kingdom was being drawn into an international economic political and cultural world Between the extremes of enthusiastic welcome and bitter prejudice the migrants made their way into the mainstream of Hawaiian life Caucasians dominated the sugar industry banking and the larger businesses and increasingly controlled the government but they were too few to preempt the openings in crafts trades and smaller businesses resulting from the expansion of the Island economy Although more than half of the migrants returned to China after a few years sojourn those who remained moved successfully into these openings As the first major Asian migrant group in the area followed by Japanese Koreans and Filipinos they had little competition By the time the monarchy was overthrown in 1893 and Hawaii was annexed to the United States in 1898 Chinese settlers were well established and were helping their Hawaii born children move on to greater achievements political and social as well as economic Sojourners and Settlers traces the waves of Chinese immigration the plantation experience and movement into urban occupations Important for the migrants were their close ties with indigenous Hawaiians hundreds establishing families with Hawaiian wives Other migrants brought Chinese wives to the Islands Though many early Chinese families lived in the section of Honolulu called Chinatown this was never an exclusively Chinese place of residence and under Hawaii's relatively open pattern of ethnic relations Chinese families rapidly became dispersed throughout Honolulu Chinatown was however a nucleus for Chinese business cultural and organizational activities More than two hundred organizations were formed by the migrants to provide mutual aid to respond to discrimination under the monarchy and later under American laws and to establish their status among other Chinese and in Hawaii's multiethnic community Professor Glick skillfully describes the organizational network in all its subtlety He also examines the social apparatus of migrant existence families celebrations newspapers schools in short the way of life Using a sociological framework the author provides a fascinating account of the

migrant settlers transformation from villagers bound by ancestral clan and tradition into participants in a mobile largely Westernized social order Book jacket

Religion of White Rage Stephen C. Finley, 2020-09-21 Critically analyses the historical cultural and political dimensions of white religious rage in America past and present This book sheds light on the phenomenon of white rage and maps out the uneasy relationship between white anxiety religious fervour American identity and perceived black racial progress Contributors to the volume examine the sociological construct of the e white labourere whose concerns and beliefs can be understood as religious in foundation and uncover that white religious fervor correlates to notions of perceived white loss and perceived black progress In discussions ranging from the Constitution to the Charlottesville riots to the evangelical community s uncritical support for Trump the authors of this collection argue that it is not economics but religion and race that stand as the primary motivating factors for the rise of white rage and white supremacist sentiment in the United States

The Bloomsbury Encyclopedia of Utilitarianism James E. Crimmins, 2017-01-26 The idea of utility as a value goal or principle in political moral and economic life has a long and rich history Now available in paperback The Bloomsbury Encyclopedia of Utilitarianism captures the complex history and the multi faceted character of utilitarianism making it the first work of its kind to bring together all the various aspects of the tradition for comparative study With more than 200 entries on the authors and texts recognised as having built the tradition of utilitarian thinking it covers issues and critics that have arisen at every stage There are entries on Plato Epicurus and Confucius and progenitors of the theory like John Gay and David Hume together with political economists legal scholars historians and commentators Cross referenced throughout each entry consists of an explanation of the topic a bibliography of works and suggestions for further reading Providing fresh juxtapositions of issues and arguments in utilitarian studies and written by a team of respected scholars The Bloomsbury Encyclopedia of Utilitarianism is an authoritative and valuable resource

Culture Wars and Enduring American Dilemmas Irene Taviss Thomson, 2018-03-22 Research showing America s politics may be more based on personal choice than party or cultural divisions

The Cambridge Introduction to American Literary Realism Phillip J. Barrish, 2011-10-06 Between the Civil War and the First World War realism was the most prominent form of American fiction Realist writers of the period include some of America s greatest such as Henry James Edith Wharton and Mark Twain but also many lesser known writers whose work still speaks to us today for instance Charles Chesnutt Zitkala a and Sarah Orne Jewett Emphasizing realism s historical context this introduction traces the genre s relationship with powerful often violent social conflicts involving race gender class and national origin It also examines how the realist style was created the necessarily ambiguous relationship between realism produced on the page and reality outside the book and the different often contradictory forms realism took in literary works by different authors The most accessible yet sophisticated account of American literary realism currently available this volume will be of great value to students teachers and readers of the American novel

A Poetics of Postmodernism Linda Hutcheon, 2003-09-02 First

published in 1988 Postmodernism is a word much used and misused in a variety of disciplines including literature visual arts film architecture literary theory history and philosophy A Poetics of Postmodernism is neither a defense nor a denunciation of the postmodern It continues the project of Hutcheon s Narcissistic Narrative and A Theory of Parody in studying formal self consciousness in art but adds to this both a historical and ideological dimension Modelled on postmodern architecture postmodernism is the name given here to current cultural practices characterized by major paradoxes of form and of ideology The poetics of postmodernism offered here is drawn from these contradictions as seen in the intersecting concerns of both contemporary theory and cultural practice Black Magic Yvonne P. Chireau, 2006-11-20 Black Magic looks at the origins meaning and uses of Conjure the African American tradition of healing and harming that evolved from African European and American elements from the slavery period to well into the twentieth century Illuminating a world that is dimly understood by both scholars and the general public Yvonne P Chireau describes Conjure and other related traditions such as Hoodoo and Rootworking in a beautifully written richly detailed history that presents the voices and experiences of African Americans and shows how magic has informed their culture Focusing on the relationship between Conjure and Christianity Chireau shows how these seemingly contradictory traditions have worked together in a complex and complementary fashion to provide spiritual empowerment for African Americans both slave and free living in white America As she explores the role of Conjure for African Americans and looks at the transformations of Conjure over time Chireau also rewrites the dichotomy between magic and religion With its groundbreaking analysis of an often misunderstood tradition this book adds an important perspective to our understanding of the myriad dimensions of human spirituality **A Book for All Readers**

Ainsworth Rand Spofford, 1900 **Our Enemies in Blue** Kristian Williams, 2015-08-17 Let s begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute s last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn t an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today s unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful Our Enemies in Blue is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives Kristian Williams is the author of several books including American Methods Torture and the Logic of Domination He co edited Life

During Wartime Resisting Counterinsurgency and lives in Portland Oregon Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur ,2006 Routes and Roots Elizabeth DeLoughrey,2009-12-31 Elizabeth DeLoughrey invokes the cyclical model of the continual movement and rhythm of the ocean tidalectics to destabilize the national ethnic and even regional frameworks that have been the mainstays of literary study The result is a privileging of alter native epistemologies whereby island cultures are positioned where they should have been all along at the forefront of the world historical process of transoceanic migration and landfall The research determination and intellectual dexterity that infuse this nuanced and meticulous reading of Pacific and Caribbean literature invigorate and deepen our interest in and appreciation of island literature Vilsoni Hereniko University of Hawai i Elizabeth DeLoughrey brings contemporary hybridity diaspora and globalization theory to bear on ideas of indigeneity to show the complexities of native identities and rights and their grounded opposition as indigenous regionalism to free floating globalized cosmopolitanism Her models are instructive for all postcolonial readers in an age of transnational migrations Paul Sharrad University of Wollongong Australia Routes and Roots is the first comparative study of Caribbean and Pacific Island literatures and the first work to bring indigenous and diaspora literary studies together in a sustained dialogue Taking the tidalectic between land and sea as a dynamic starting point Elizabeth DeLoughrey foregrounds geography and history in her exploration of how island writers inscribe the complex relation between routes and roots The first section looks at the sea as history in literatures of the Atlantic middle passage and Pacific Island voyaging theorizing the transoceanic imaginary The second section turns to the land to examine indigenous epistemologies in nation building literatures Both sections are particularly attentive to the ways in which the metaphors of routes and roots are gendered exploring how masculine travelers are naturalized through their voyages across feminized lands and seas This methodology of charting transoceanic migration and landfall helps elucidate how theories and people travel positioning island cultures in the world historical process In fact DeLoughrey demonstrates how these tropical island cultures helped constitute the very metropolises that deemed them peripheral to modernity Fresh in its ideas original in its approach Routes and Roots engages broadly with history anthropology and feminist postcolonial Caribbean and Pacific literary and cultural studies It productively traverses diaspora and indigenous studies in a way that will facilitate broader discussion between these often segregated disciplines Higher Education Opportunity Act United States,2008 *Pacific Islanders Under German Rule* Peter J. Hempenstall,2016-06-01 This is an important book It is a reprint of the first detailed study of how Pacific Islanders responded politically and economically to their rulers across the German empire of the Pacific Under one cover it captures the variety of interactions between the various German colonial administrations with their separate approaches and the leaders and people of Samoa in Polynesia the major island centre of Pohnpei in Micronesia and the indigenes of New Guinea Drawing on anthropology new Pacific history insights and a range of theoretical works on African and Asian resistance from the 1960s and 1970s it reveals the complexities of Islander reactions and the nature of

protests against German imperial rule It casts aside old assumptions that colonised peoples always resisted European colonisers Instead this book argues convincingly that Islander responses were often intelligent and subtle manipulations of their rulers agendas their societies dynamic enough to make their own adjustments to the demands of empire It does not shy away from major blunders by German colonial administrators nor from the strategic and tactical mistakes of Islander leaders At the same time it raises the profile of several large personalities on both sides of the colonial frontier including Lauaki Namulau ulu Mamoe and Wilhelm Solf in Samoa Henry Nanpei Georg Fritz and Karl Boeder in Pohnpei or Governor Albert Hahl and Po Minis from Manus Island in New Guinea

The Enigmatic Realm of **Paternalism Incorporated Fabies Of American Fatherhood 1865 194**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
