A Path to Power Mack Newton, Michele St. George, 1997

In the Path of God Daniel Pipes, Americans awareness of Islam and Muslims rose to seemingly unprecedented heights in the immediate aftermath of September 11 2001 but this is not the first time they have dominated American public life Once before during the period of the Iranian revolution and hostage crisis of 1979 to 1981 Americans found themselves targeted as a consequence of a militant interpretation of Islam Daniel Pipes wrote *In the Path of God* in response to those events and the heightened interest in Islam they generated His objective was to present an overview of the connection between Islam and political power through history in a way that would explain the origins of hostility to Americans and the West Its relevance to our understanding of contemporary events is self evident Muslim antagonism toward the West is deeply rooted in historical experience In premodern times the Islamic world enjoyed great success being on the whole more powerful and wealthier than their neighbors About two hundred years ago a crisis developed as Muslims became aware of the West's overwhelming force and economic might While they might have found these elements attractive Muslims found European culture largely alien and distasteful The resulting resistance to Westernization by Muslims has deep roots has been more persistent than that of other peoples and goes far to explain the deep Muslim reluctance to accept modern ways In short Muslims saw what the West had and wanted it too but they rejected the methods necessary to achieve this This the Muslim trauma has only worsened over the years Scholarly far ranging and thoughtful the debate is interesting and Pipes has made a stimulating contribution to it The New Republic Brilliant authoritative demonstrates encyclopedic knowledge of Muslim intellectual history Few other writers have explained so lucidly such complex developments in Muslim history The Washington Post He has resisted a widespread tendency to translate Muslim self expression into social science jargon as unintelligible as any mosque harangue His unadorned interpretation strikes a judicious balance between faithfulness to sources and clarity of presentation The American Spectator Daniel Pipes is director of the Middle East Forum and a columnist for the New York Post and the Jerusalem Post Among his books are *The Long Shadow* Culture and Politics in the Middle East published by Transaction Greater Syria The History of an Ambition Friendly Tyrants An American Dilemma and *The Rushdie Affair* The Novel the Aftermath and the West
