Struthers,Ellis S Krauss,Robert J Pekkanen,2021-05-20 Key party goals serve to advance a policy brand and maximize seats in the legislature This book offers a theory of how political parties assign their elected members their personnel to specialized legislative committees to serve collective organizational goals here known as party personnel strategies Individual party members vary in their personal attributes such as prior occupation gender and local experience Parties seek to harness the attributes of their members by assigning them to committees where their expertise is relevant and where they may enhance the party s policy brand However under some electoral systems parties may need to trade off the harnessing of expertise against the pursuit of seats instead matching legislators according to electoral situation e g marginality of seat or characteristics of their constituency e g population density This book offers an analysis of the extent to which parties trade these goals by matching the attributes of their personnel and their electoral needs to the functions of the available committee seats The analysis is based on a dataset of around six thousand legislators across thirty eight elections in six established parliamentary democracies with diverse electoral systems **Public Funding of Presidential Elections** ,1996 **Congressional Record** United States. that shocked the legislators who had created them His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright While some of Gingrich s fellow Republicans were disturbed by the viciousness of his attacks party leaders enjoyed his successes so much that they did little collectively to stand in his way Democrats for their part were alarmed but did not want to sink to his level and took no effective actions to stop him It didn t seem to matter that Gingrich s moral conservatism was hypocritical or that his methods were brazen his accusations of corruption permanently tarnished his opponents This brand of warfare worked not as a strategy for governance but as a path to power and what Gingrich planted his fellow Republicans reaped He led them to their first majority in Congress in decades and his legacy extends far beyond his tenure in office From the Contract with America to the rise of the Tea Party and the Trump presidential campaign his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics Burning Down the House presents the alarming narrative of how Gingrich and his allies created a new normal in Washington

Politics without Power Bernard C. Hennessy, 2017-07-12 The national committees of the major political parties in the United States are symbols of party government They carry forward a national heritage of peaceful change in national politics and administration National committees are substitutes for party ideologies yet they are pretty much headless drifting organizations Cotter and Hennessy explain why this is the case arguing that the vagueness of the committees responsibilities between presidential elections is one of the main sources of their limitations *Politics without Power* explains what the national committees are who belongs to them where they are located in relation to other politically oriented organizations what they do and what steps might be taken to make better use of them Although the authors descriptions in this classic volume are straightforward their recommendations are sweepingly bold A few have been instituted in part but most have yet to be adopted If they were it would completely change the makeup of the two committees and the political processes Among their proposals are that the offices of national committeeman and committeewoman should be abolished that the national chairman of the in party continue to be chosen by the president or candidate and the national chairman of the out party be the titular head of that committee The out party should have a party council to interpret the platform and to recommend a platform to the national convention There should be a tax credit for small contributions to the national committee or state committees and each national committee would have its own building shared with the Congressional Campaign Committees This book will interest political scientists politicians and other students of

Commission,2007 **Is the Republican Party Destroying Itself?** Thomas E Patterson,2020-01-24 Is the Republican Party Destroying Itself explores five traps that the Republican Party has set for itself and endanger its future The traps vary in lethality but together they could cripple the party for a generation or more One trap is its steady movement to the right which has distanced the party from the moderate voters who hold the balance of power in a two party system A second trap is demographic change Younger adults and minorities vote heavily Democratic and their numbers increase with each passing election The older white voters that are the GOP s base of support are shrinking in number Within two decades based on demographic change alone the GOP faces the prospect of being a second rate party Right wing media are the Republicans

third trap A powerful force within the party they have tied the GOP to policy positions and versions of reality that are blunting its ability to govern and impeding its efforts to attract new sources of support A fourth trap is the large tax cuts that the GOP has three times handed to the wealthy The rich have reaped a windfall but at a high cost to the GOP It has soiled its image as the party of the middle class and created a split between its working class supporters and its marketplace conservatives The fifth trap is the GOP's disregard for democratic norms and institutions including its effort through voter ID laws to suppress the vote of minorities and lower income Americans In the process it has made lasting enemies and created instruments of power that can be used against it That Donald Trump won the 2016 presidential election says more about the Republican Party than it does about Trump In the whole of American history there is only one major party today's GOP that would have nominated a Trump like candidate for president And he has deepened each of the Republican Party's traps If the GOP were to become a second rate party Trump will have accelerated its downfall rather than being the cause of it Before he came on the scene the GOP was already a conservative party in name only It had become a reactionary party out of step with what America is becoming Republicans have traded the party's future for yesterday's America The GOP needs to restore its conservative heritage if it is to remain a competitive party Our democracy requires a healthy and competitive two party system and would not benefit from a greatly diminished Republican Party nor can it flourish from the reactionary course that the GOP has been pursuing
