 Megalogenis considers Australia s political dead zone The Hawke Keating and early Howard years were ones of bold reform
 recently we have seen an era of power without purpose But why Is it down to powerful lobbies or the media or a failure of
 leadership or all of the above And whatever the case how will hard decisions be taken for the future In Trivial Pursuit
 Megalogenis dissects the cycle of polls focus groups and presidential politics and what it has done to the prospect of serious
 difficult reform He argues that politics as usual has become a self defeating game and mounts a persuasive case for a
 different style of leadership From now on he argues it is the key divisions between young and old and north and south that
 will shape the nation s future But can a hung parliament and a pragmatic Labor leader rise to the challenge Rudd Gillard and
 Abbott sought power in 2010 on the same dangerous premise that no sacrifice is required to secure our future Government
 on this basis is never worth it because the promise of painless change can never be kept The voters knew it which is why they
 spared them selves the inevitable let down by hanging the parliament George Megalogenis Trivial Pursuit One of Australia s

 accessible and useful introduction to the field **From Secret Ballot to Democracy Sausage** Judith Brett,2019-03-05 It s
 compulsory to vote in Australia We are one of a handful of countries in the world that enforce this rule at election time and
 the only English speaking country that makes its citizens vote Not only that we embrace it We celebrate compulsory voting
 with barbeques and cake stalls at polling stations and election parties that spill over into Sunday morning But how did this

come to be when and why was voting in Australia made compulsory How has this affected our politics And how else is the way we vote different from other democracies Lively and inspiring From Secret Ballot to Democracy Sausage is a landmark account of the character of Australian democracy by the celebrated historian Judith Brett the prize winning biographer of Alfred Deakin Judith Brett is the author of Robert Menzies Forgotten People and emeritus professor of politics at La Trobe University The Enigmatic Mr Deakin won the 2018 National Biography Award and was shortlisted in the NSW Premier s Literary Awards NSW Premier s History Awards and Queensland Literary Awards A tremendous piece of work ABC Radio National Minefield Brett s writing is capable of extraordinary clarity insight and compassion Monthly A great treasure that sizzles like the sausage in the title I ll be surprised if by the time you ve finished it you don t like me feel a little bit prouder of the Australian democratic system Andrew Leigh MP Shadow Assistant Treasurer Australia led the world in broadening the franchise and introducing the secret ballot but few nations followed us down the path of compulsory voting This absorbing book explains a century old institution how it came to be and how it survives Antony Green Magnificent Brett has constructed an excellent fast moving narrative establishing how Australia became one of the world s pre eminent democracies She skilfully weaves her way through what would be in the hands of a lesser writer a dull dry topic Brett is right to point out that we need more than the Anzac story to understand our success From Secret Ballot to Democracy Sausage How Australia Got Compulsory Voting will be an important part of that conversation Weekend Australian Excellent Brett s book shows how democracy sausages are the symbolic culmination of the proud history of the Australian contribution to electoral and voting practice around the world Canberra Times The Australian way of voting seems to us entirely ordinary but as Judith Brett reveals it s a singular miracle of innovation of which we can all be fiercely proud This riveting and deeply researched little book is full of jaw dropping moments Like the time that South Australian women accidentally won the right to stand as candidates an international first Or the horrifying debates that preceded the Australian parliament s shameful decision to disenfranchise Aborigines in 1902 This is the story of a young democracy that is unique A thrilling and valuable book Annabel Crabb

Friday on Our Minds Michelle Arrow, 2009 From jitterbugging and Big Brother to the introduction of television and the rise of file sharing this study explores the ways in which popular culture has developed and changed in Australia from the end of World War II to today In order to understand the massive social and cultural changes that have taken place Down Under popular culture is examined through three main lenses consumerism and the development of a mass consumer society the impact of technological change and the ways in which popular culture contributes to and articulates individual and collective identities Providing the first integrated account of Australian post war culture this reference analyzes film television sports music and leisure in relation to each other rather than as stand alone cultural forms

Reporting Climate Change in the Global North and South Jahnnabi Das, 2019-08-29 This book reveals how journalists in the Global North and Global South mediate climate change by examining journalism and reporting in Australia and Bangladesh This dual analysis presents a unique opportunity to examine the impacts of media and communication in two contrasting countries in terms of economy income and population size which both face serious climate change challenges In reporting on these challenges journalism as a political institutional and cultural practice has a significant role to play It is influential in building public knowledge and contributes to knowledge production and dialogue however the question of who gets to speak and who doesn't is a significant determinant of journalists capacity to establish authority and assign cultural meaning to realities By measuring the visibility from presences and absences the book explores the extent to which the influences are similar or different in the two countries contrasting how journalists communication power conditions public thought on climate change The investigation of climate communication across the North South divide is especially urgent given the global commitment to reduce greenhouse gas emissions and it is critical we gain a fuller understanding of the dynamics of climate communication in low emitting low income countries as much as in the high emitters high income countries This book contributes to this understanding and highlights the value of a dual analysis in being able to draw out parallels as well as divergences which will directly assist in developing cross national strategies to help address the mounting challenge of

climate change This book will be of great interest to students and scholars of climate change and environmental journalism as well as media and communication studies more broadly *Talking and Listening in the Age of Modernity* Joy Damousi, Desley Deacon, 2007-11-01 Issued also in printed form
