Bauman, 2013-04-24 The global financial crisis has shattered the illusion that all was well with capitalism and forced us to confront the great challenges we face today with a new sense of urgency Few are better placed to do this than Zygmunt Bauman a social thinker whose writings on liquid modernity have pioneered a new way of seeing the world in which we live at the dawn of the 21st Century Our liquid modern world is characterized by the transition from a society of producers to a society of consumers the natural extension of which is the society of perpetual debtors The ruling idea of the society of consumers is to prevent needs from being satisfied and to create demand its natural extension is to enable consumers to consume more by borrowing Debt was transformed into a crucial profit earning asset of capitalism in liquid modern times The present day credit crunch is not the outcome of the banks failure but rather the fruit of their success in transforming the majority of men and women young and old into a race of debtors They got what they were looking for a society of debtors whose condition of being in debt was made self perpetuating with more debts being offered and more undertaken as the only way of escaping from the debts already incurred Starting from this reflection on the current global financial crisis and prompted by the probing questions of his interlocutor Citlali Roviroso Madrazo Bauman examines in an historical perspective

some of the most pressing moral and political issues of our time from international terrorism and the rise of religious and secular fundamentalism to the decline of the nation state and the threats posed by global warming issues whose seriousness and urgency attest to the fact that we are living today not only on borrowed money but also on borrowed time

Premio Nobel de Literatura II Juan Bravo Castillo,2022-02-01 Tras más de un siglo de historia el Premio Nobel de Literatura aparece envuelto en la polémica desde el momento en que Jean Paul Sartre lo rechazara en 1964 Descubra las razones por las que el Nobel comenzó a politizarse y ser considerado un arma ideológica La polémica la consideración del premio como un elemento burgués las grandes figuras que quedaron fuera y la adaptación del premio a las corrientes dominantes de los intereses socioeconómicos globales La incorporación de la figura femenina cada vez más presente en parcelas que antes le estaban vetadas Un viaje fascinante *La cabaña moderna* Miguel de Lozar de la Viña,2021-05-17 Mediante el análisis de seis pequeñas construcciones situadas en archipiélagos arquitectónicos radicalmente distantes el campamento de Ocatillo F L Wright 1929 la Caja R Erskine 1942 el Cabanon Le Corbusier 1952 la casa cúpula en Carbondale R B Fuller 1960 el refugio en Oropesa F J S en Zúñiga 1967 1977 y el pabellón de invitados en Kempsey G Murcutt 1992 la aparente aporía que supone la cabaña moderna frente a la más lógica en principio cabaña primitiva cobra sentido Efectivamente el referente mítico de la cabaña primitiva tal y como fue enunciado por Laugier en 1753 se corresponde con el estadio más primitivo de la modernidad con sus orígenes precisamente porque la crítica que se hacía en ella de la arquitectura se basaba en criterios exclusivamente técnicos que remitían a los orígenes constructivos de la arquitectura como fórmula para salir del entramado retórico en el que estaba se encontraba perdida La cabaña moderna trasciende sin embargo aquella primitiva fase de la modernidad de la que la cabaña de Laugier es paradigma en la medida en que la crítica que se realiza ahora es doble pues a la crítica de carácter técnico que encontramos en cada una de las cabañas se le añade una crítica de sentido que orienta y fuerza el desarrollo de la técnica en direcciones radicalmente distintas en cada caso Manejo de la comunicación organizacional Jesús Timoteo Álvarez,2013-06-15 El actual capitalismo definido como capitalismo financiero es paralelamente capitalismo reputacional Un mundo virtual lleno de signos y productos de futuro más que de realidades y presente en el cual todo es cuestión de fiabilidad credibilidad crédito y confianza Agentes públicos y corporaciones de todo tipo han tenido que fabricarse un alma que las hiciese reconocibles y crebles una marca y demás activos inmateriales e intangibles que en ese entorno se mueven La gestión y manejo de esos intangibles ha entrado de lleno en las estrategias de los negocios y de la política desde la década de 1980 Se trata de activos reconocidos y presentes en cuentas de resultados en objetivos en balances y en beneficios englobados en torno al término reputación La reputación responde al definitivo redescubrimiento del cliente como entidad final objeto de cualquier actividad e iniciativa pública y de mercado al focalizar toda la actividad de las instituciones y empresas desde el cliente final La reputación es la respuesta el retorno que el individuo el grupo el mercado la opinión dan como interlocutores a la posición de una corporación en la sociedad De esto trata este ensayo de cómo se ha sistematizado el capitalismo reputacional de cómo se han creado organizado y gestionado los activos inmateriales de cómo la comunicación sus medios y herramientas son el sistema que soporta reputación e intangibles de cómo la comunicación y los intangibles han evolucionado hasta posicionarse en el corazón mismo de las organizaciones y de
