

A Passage to Africa

George Alagiah writes about his experiences as a television reporter during the war in Somalia, Africa in the 1990s. He won a special award for his report on the incidents described in this passage.

I saw a thousand hungry, lean, scared and betrayed faces as I criss-crossed Somalia between the end of 1991 and December 1992, but there is one I will never forget.

I was in a little hamlet just outside Gufgaduud, a village in the back of beyond, a place the aid agencies had yet to reach. In my notebook I had jotted down instructions on how to get there. 'Take the Badale Road for a few kilometers till the end of the tarmac, turn right on to a dirt track, stay on it for about forty-five minutes — Gufgaduud. Go another fifteen minutes approx. — like a ghost village.'

In the ghoulissh manner of journalists on the hunt for the most striking pictures, my cameraman ... and I tramped from one hut to another. What might have appalled us when we'd started our trip just a few days before no longer impressed us much. The search for the shocking is like the craving for a drug: you require heavier and more frequent doses the longer you're at it. Pictures that stun the editors one day are written off as the same old stuff the next. This sounds callous, but it is just a fact of life. It's how we collect and compile the images that so move people in the comfort of their sitting rooms back home.

There was Amina Abdirahman, who had gone out that morning in search of wild, edible roots, leaving her two young girls lying on the dirt floor of their hut. They had been sick for days, and were reaching the final, enervating stages of terminal hunger. Habiba was ten years old and her sister, Ayaan, was nine. By the time Amina returned, she had only one daughter. Habiba had died. No rage, no whimpering, just a passing away — that simple, frictionless, motionless deliverance from a state of half-life to death itself. It was, as I said at the time in my dispatch, a vision of 'famine away from the headlines, a famine of quiet suffering and lonely death'.

There was the old woman who lay in her hut, abandoned by relations who were too weak to carry her on their journey to find food. It was the smell that drew me to her doorway: the smell of decaying flesh. Where her shinbone should have been there was a festering wound the size of my hand. She'd been shot in the leg as the retreating army of the deposed dictator ... took revenge on whoever it found in its way. The shattered leg had fused into the gentle V-shape of a boomerang. It was rotting; she was rotting. You could see it in her sick, yellow eyes and smell it in the putrid air she recycled with every struggling breath she took.

And then there was the face I will never forget.

Crossings James Walvin, 2013-10-15 We all know the story of the slave trade the infamous *Middle Passage* the horrifying conditions on slave ships the millions that died on the journey and the auctions that awaited the slaves upon their arrival in the Americas But much of the writing on the subject has focused on the European traders and the arrival of slaves in North America In *Crossings* eminent historian James Walvin covers these established territories while also traveling back to the story s origins in Africa and south to Brazil an often forgotten part of the triangular trade in an effort to explore the broad sweep of slavery across the Atlantic Reconstructing the transatlantic slave trade from an extensive archive of new research Walvin seeks to understand and describe how the trade began in Africa the terrible ordeals experienced there by people sold into slavery and

the scars that remain on the continent today Journeying across the ocean he shows how Brazilian slavery was central to the development of the slave trade itself as that country tested techniques and methods for trading and slavery that were successfully exported to the Caribbean and the rest of the Americas in the following centuries Walvin also reveals the answers to vital questions that have never before been addressed such as how a system that the Western world came to despise endured so long and how the British who were fundamental in developing and perfecting the slave trade became the most prominent proponents of its eradication The most authoritative history of the entire slave trade to date Crossings offers a new understanding of one of the most important and tragic episodes in world history **Middle Passages** James T. Campbell, 2007-04-24 Penguin announces a prestigious new series under presiding editor Arthur Schlesinger Jr Many works of history deal with the journeys of blacks in bondage from Africa to the United States along the middle passage but there is also a rich and little examined history of African Americans traveling in the opposite direction In Middle Passages award winning historian James T Campbell vividly recounts more than two centuries of African American journeys to Africa including the experiences of such extraordinary figures as Langston Hughes W E B DuBois Richard Wright Malcolm X and Maya Angelou A truly groundbreaking work Middle Passages offers a unique perspective on African Americans ever evolving relationship with their ancestral homeland as well as their complex often painful relationship with the United States

Green Hills of Africa Ernest Hemingway, 2014-05-22 There are some things which cannot be learned quickly and time which is all we have must be paid heavily for their acquiring They are the very simplest things and because it takes a man's life to know them the little new that each man gets from life is very costly and the only heritage he has to leave In the winter of 1933 Ernest Hemingway and his wife Pauline set out on a two month safari in the big game country of East Africa camping out on the great Serengeti Plain at the foot of magnificent Mount Kilimanjaro I had quite a trip the author told his friend Philip Percival with characteristic understatement Green Hills of Africa is Hemingway's account of that expedition of what it taught him about Africa and himself Richly evocative of the region's natural beauty tremendously alive to its character culture and customs and pregnant with a hard won wisdom gained from the extraordinary situations it describes it is widely held to be one of the twentieth century's classic travelogues *The Making of African America* Ira Berlin, 2010-01-21 A leading historian offers a sweeping new account of the African American experience over four centuries Four great migrations defined the history of black people in America the violent removal of Africans to the east coast of North America known as the Middle Passage the relocation of one million slaves to the interior of the antebellum South the movement of more than six million blacks to the industrial cities of the north and west a century later and since the late 1960s the arrival of black immigrants from Africa the Caribbean South America and Europe These epic migrations have made and remade African American life Ira Berlin's magisterial new account of these passages evokes both the terrible price and the moving triumphs of a people forcibly and then willingly migrating to America In effect Berlin rewrites the master narrative of African

America challenging the traditional presentation of a linear path of progress He finds instead a dynamic of change in which eras of deep rootedness alternate with eras of massive movement tradition giving way to innovation The culture of black America is constantly evolving affected by and affecting places as far away from one another as Biloxi Chicago Kingston and Lagos Certain to garner widespread media attention *The Making of African America* is a bold new account of a long and crucial chapter of American history
