Passage to England John Western, 1992 **A Passage to England** John Western, 1992 Since World War II London has become a significantly multiracial city Some of the earliest agents of its transformation were young men and women recruited in the late 1950s from Barbados then a British colony to work in the metropolis s nationalized public transportation system and in its hospitals These Barbadians met married settled in London and raised Londoner children In 1987 88 John Western conducted a series of interviews with twelve such families both parents and children Their vivid words fill *A Passage to England* with insight human and often poignancy Here is a rich perspective on thirty years or more of London social history Western structured the interviews to allow the Barbadians a lot of freedom to discuss whatever came to mind concerning either their own life histories and achievements or wider themes of culture politics and society Topics covered range from matters of race to Margaret Thatcher and the change her decade in power has wrought in Britain One development for example is the strikingly entrepreneurial spirit now embraced by some of the young British blacks veritably Mrs Thatcher s Children Ultimately many of the interviewees focused on the changes they see in their ancestral island in the Caribbean to which all of them have returned for visits For this migrant generation especially as the prospect of retirement begins to grow increasingly important inevitable questions regard the definitions of home and belonging must be confronted Does one stay in London with one s children and grandchildren or does one return to Barbados which for many seems no longer the same island as the one they left a working lifetime ago Within the context of an ever increasing complement of geographically mobile people worldwide Western s study provides unique insights into the particular ambiguities a particular set of person have wrestled with at a particular moment in history but the import of the Barbadian Londoners story is universal

McLean-Farrell, 2016-02-11 This is a significant in depth study that explores the cultural context of the religious experience of West Indian immigrant communities Whereas most studies to date have focussed on how immigrants settle in their new home contexts Janice A McLean Farrell argues for a more comprehensive perspective that takes into account the importance of religion and the role of both home and the host contexts in shaping immigrant lives in the Diaspora West Indian Pentecostals Living Their Faith in New York and London explores how these three elements religion the home and host contexts influence the ethnic religious identification processes of generations of West Indian immigrants Using case studies from the cities of New York and London the book offers a critical cross national comparison into the complex and indirect ways the historical socio economic and political realities in diaspora contribute to both the identification processes and the missional practices of immigrants Its focus on Pentecostalism
