The Book of Night Women Marlon James, 2009-02-19 From the author of the National Book Award finalist *Black Leopard Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* An undeniable success The New York Times Book Review A true triumph of voice and storytelling *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy It is the story of Lilith born into slavery on a Jamaican sugar plantation at the end of the eighteenth century Even at her birth the slave women around her recognize a dark power that they and she will come to both revere and fear *The Night Women* as they call themselves have long been plotting a slave revolt and as Lilith comes of age they see her as the key to their plans But when she begins to understand her own feelings desires and identity Lilith starts to push at the edges of what is imaginable for the life of a slave woman and risks becoming the conspiracy's weak link But the real revelation of the book the secret to the stirring imagery and insistent prose is Marlon James himself a young writer at once breath takingly daring and wholly in command of his craft

Brand New Justice Simon Anholt, 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations here the branding process is rehabilitated as a potential saviour of the economically underprivileged Brand New Justice now in a revised paperback edition systematically analyses the success stories of the Top Thirteen nations demonstrating that their wealth is based on the last mile of the commercial process buying raw materials and manufacturing cheaply in third world countries these countries realise their lucrative profits by adding value through finishing packaging and marketing and then selling the branded product on to the end user at a hugely inflated price The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process Applying his observations on economic history and the development and impact of global marketing Anholt presents a cogent plan for developing nations to benefit from globalization So long the helpless victim of capitalist trading systems he shows that they can cross the divide and graduate from supplier nation to producer nation Branding native produce on a global scale making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the last mile benefits are key to this graduation and fundamental to forging a new global economic balance Anholt argues with a forceful logic but also backs his hypothesis with enticing glimpses of this process actually beginning to take place Examining activities in India Thailand Russia and Africa among others he shows the risks challenges and pressures inherent in turning the tide but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms *When Toys Come Alive* Lois R. Kuznets, 1994-01-01 In this work the author studies the role of toy characters in works ranging from older classics such as Pinocchio and Winnie the Pooh to modern texts such as The Mouse and his Child and the comic strip Calvin and Hobbes science fiction with robots and cyborgs **Machines as the Measure of Men** Michael Adas, 1989 This new edition of what has become a standard account of Western expansion and technological dominance includes a new preface by the author that discusses how subsequent developments in gender and race studies as well as global technology and politics enter into conversation with his original arguments **Sugar Changed the World** Marc Aronson, Marina Budhos, 2017-04-04 Traces the panoramic story of the sweet substance and its important role in shaping world history
