being a passenger With this book philosopher Michael Marder fills the gap offering a philosophical guide to passengerhood He takes readers from ticketing and preboarding preface and introduction through a series of stops and detours reflections on topics including time space existence boredom our sense of self and our sense of the senses to destination and disembarking conclusion Marder finds that the experience of passengers in the twenty first century is experience itself stretching well beyond railroad tracks and airplane flight patterns On his journey through passengerhood he considers among many other things passenger togetherness which goes hand in hand with passenger loneliness flyover country and the idea of placeness and Descartes in an airplane seat He tells us that the word metaphor means transport in Greek and discusses the gray area between literalness and metaphoricity explains the connection between reading and riding and ponders the difference between destination and destiny Finally a Beckettian disembarking you might not be able to disembark yet you must disembark After the voyage in the world ends the journey of understanding begins *Wayfarer (Volume 2)* Alexandra Bracken, 2017-01-03 I've been orphaned by my time The timeline has changed My future is gone Etta Spencer didn't know she was a traveler until the day she emerged both miles and years from her home Now robbed of the powerful object that was her only hope of saving her mother Etta finds herself stranded once more cut off from Nicholas the eighteenth century privateer she loves and her natural time When Etta inadvertently stumbles into the heart of the Thorns the renegade travelers who stole the astrolabe from her she vows to finish what she started and destroy the astrolabe once and for all Instead she's blindsided by a bombshell revelation from their leader Henry Hemlock he is her father Suddenly questioning everything she's been fighting for Etta must choose a path one that could transform her future Still devastated by Etta's disappearance Nicholas has enlisted the unlikely help of Sophia Ironwood and a cheeky mercenary for hire to track both her and the missing astrolabe down But as the tremors of change to the timeline grow stronger and the stakes for recovering the astrolabe mount they discover an ancient power far more frightening than the rival travelers currently locked in a battle for control a power that threatens to eradicate the timeline altogether From colonial Nassau to New York City San Francisco to Roman Carthage imperial Russia to the Vatican catacombs New York Times 1 best selling author Alexandra Bracken charts a gorgeously detailed thrilling course through time in this stunning conclusion to the Passenger series
