

The Effects of a Tariff

A tariff reduces the quantity of imports and moves a market closer to the equilibrium that would exist without trade. Total surplus falls by an amount equal to area $D + E$. These two triangles represent the deadweight loss from the tariff.

	Before tariff	After tariff	Change
Consumer Surplus	$A+B+C+D+E+F$	$A+B$	$-(C+D+E+F)$
Producer Surplus	G	$C+G$	$+C$
Government Revenue	None	E	$+E$
Total Surplus	$A+B+C+D+E+F+G$	$A+B+C+E+G$	$-(D+F)$

The area $D + F$ shows the fall in total surplus and represents the deadweight loss of the tariff

Passing Of The Tariff:

Clashing Over Commerce Douglas A. Irwin, 2017-11-29 A Foreign Affairs Best Book of the Year Tells the history of American trade policy A grand narrative that also debunks trade policy myths Economist Should the United States be open to commerce with other countries or should it protect domestic industries from foreign competition This question has been the source of bitter political conflict throughout American history Such conflict was inevitable James Madison argued in the Federalist Papers because trade policy involves clashing economic interests The struggle between the winners and losers from trade has always been fierce because dollars and jobs are at stake depending on what policy is chosen some industries farmers and workers will prosper while others will suffer Douglas A Irwin s *Clashing over Commerce* is the most authoritative and comprehensive history of US trade policy to date offering a clear picture of the various economic and political forces that have shaped it From the start trade policy divided the nation first when Thomas Jefferson declared an embargo on all foreign trade and then when South Carolina threatened to secede from the Union over excessive taxes on imports The Civil War saw a shift toward protectionism which then came under constant political attack Then controversy over the Smoot Hawley tariff during the Great Depression led to a policy shift toward freer trade involving trade agreements that eventually produced the World Trade Organization Irwin makes sense of this turbulent history by showing how different economic interests tend to be grouped geographically meaning that every proposed policy change found ready champions and opponents in Congress Deeply researched and rich with insight and detail *Clashing over Commerce* provides valuable and enduring insights into US trade policy past and present Combines scholarly analysis with a historian s eye for trends and colorful details readable and illuminating for the trade expert and for all Americans wanting a deeper understanding of America s evolving role in the global economy National Review Magisterial Foreign Affairs *The Tariff History of the United States* Frank William Taussig, 1888 **Olive Branch and Sword** Merrill D. Peterson, 1999-03-01 Dominated by the personalities of three towering figures of the nation s middle period Henry Clay John C Calhoun and President Andrew Jackson *Olive Branch and Sword* The Compromise of 1833 tells of the political and rhetorical dueling that brought about the Compromise of 1833 resolving the crisis of the Union caused by South Carolina s nullification of the protective tariff In 1832 South Carolina s John C Calhoun denounced the entire protectionist system as unconstitutional unequal and founded on selfish sectional interests Opposing him was Henry Clay the Kentucky senator and champion of the protectionists Both Calhoun and Clay had presidential ambitions and neither could agree on any issue save their common opposition to President Jackson who seemed to favor a military solution to the South Carolina problem It was only when Clay after the most complicated maneuverings produced the Compromise of 1833 that he Calhoun and Jackson could agree to coexist peaceably within the Union The compromise consisted of two key parts The Compromise Tariff written by Clay and approved by Calhoun provided for the gradual reduction of duties to the revenue level of 20 percent The Force Bill enacted at the request

of President Jackson authorized the use of military force if necessary to put down nullification in South Carolina. The two acts became respectively the olive branch and the sword of the compromise that preserved the peace of the Union and the Constitution in 1833. A careful study of what has become a neglected event in American political history. Merrill D. Peterson's work spans a period of over thirty years sketching the background of national policy out of which nullification arose, detailing the explosive events of 1832 and 1833 and then tracing the consequences of the compromise through the dozen or so years that it remained in public controversy. Considering as well the larger question of decision making and policy making in the Jacksonian republic, Peterson nonetheless never loses sight of the crucial role played by the ambitions, whims, and passions of such men as Calhoun, Clay, and Jackson in determining the course of history.

Death by China Peter Navarro, Greg Autry, 2011

Unscrupulous Chinese entrepreneurs are flooding world markets with lethal products. China's perverse form of capitalism combines illegal mercantilist and protectionist weapons to pick off American industries job by job. China's emboldened military is racing towards head on confrontation with the U.S. Meanwhile America's executives, politicians, and even academics remain silent. Now author and economist Peter Navarro exposes every form of Death by China drawing on latest trends and events to show a relationship spiraling out of control. Navarro reveals how thousands of Chinese cyber dissidents are being imprisoned in Google Gulags, how Chinese hackers are escalating coordinated cyberattacks on U.S. defense and America's key businesses, how China's undervalued currency is damaging the U.S. Europe and the global recovery, why American companies are discovering that risks of operating in China are worse than they imagined, how China is promoting nuclear proliferation in its pursuit of oil, and how the media distorts the China story. This book catalogs China's abuses and presents a call to action and a survival guide for a critical juncture in America's history and the world's.

Lobbyists and the Making of US Tariff Policy, 1816-1861 Daniel Peart, 2018-10-01. The first book length study of lobbying prior to the Civil War. Since the 2008 global economic crisis, historians have embraced the challenge of making visible the invisible hand of the market. This renewed interest in the politics of political economy makes it all the more timely to remind ourselves that debates over free trade and protection were just as controversial in the early United States as they have once again become and that lobbying then, as now, played an important part in Lincoln's government of the people by the people for the people. In

Lobbyists and the Making of US Tariff Policy 18161861 Daniel Peart reveals how active lobbyists were in Washington throughout the antebellum era He describes how they involved themselves at every stage of the making of tariff policy from setting the congressional agenda through the writing of legislation in committee to the final vote Considering policymaking as a process Peart focuses on the importance of rules and timing the critical roles played by individual lawmakers and lobbyists and the high degree of uncertainty that characterized this formative period in American political development The debate about tariff policy Peart explains is an unbroken thread that runs throughout the pre Civil War era connecting disparate individuals and events and shaping the development of the United States in myriad ways Duties levied on imports provided the federal government with the major part of its revenue from the ratification of the Constitution to the close of the nineteenth century More controversially they also offered protection to domestic producers against foreign competition at the expense of increased costs for consumers and the risk of retaliation from international trade partners Ultimately this book uses the tariff issue to illustrate the critical role that lobbying played within the antebellum policymaking process

Calhoun and the Price of Union* John Niven,1993-07-01 John C Calhoun 1782 1850 was one of the prominent figure of American politics in the first half of the nineteenth century The son of a slaveholding South Carolina family he served in the federal government in various capacities as senator from his home state as secretary of war and secretary of state and as vice president in the administrations of John Quincy Adams and Andrew Jackson Calhoun was a staunch supporter of the interests of his state and region His battle from tariff reform aimed at alleviating the economic problems of the southern states eventually led him to formulate his famous nullification doctrine which asserted the right of states to declare federal laws null and void within their own boundaries In the first full scale biography of Calhoun in almost half a century John Niven skillfully presents a new interpretation of this preeminent spokesman of the Old South Deftly blending Calhoun s public career with important elements of his private life Niven shows Calhoun to have been at once a more consistent politician and a far more complex human being than previous historians have thought Rather than history s image of an assured self confident Calhoun Niven reveals a figure who was in many ways insecure and defensive Niven maintains that the War of 1812 which Calhoun helped instigate and which nearly resulted in the nation s ruin made a lasting impression on Calhoun s mind and personality From that point until the end of his life he sought security first from the western Indians and the British while he was secretary of

war then from northern exploitation of southern wealth through what he regarded as manipulation of public policy while he was vice president and a senator He worked tirelessly to further the South s slave plantation system of economic and social values He sought protection for a region that he freely admitted was low in population and poor in material resources and he defended a position that he knew was morally inferior Niven portrays Calhoun as a driven tragic figure whose ambitions and personal desires to achieve leadership and compensate for a lack of inner assurance were often thwarted The life he made for himself the peace he felt on his plantation with his dependent retainers and the agricultural pursuits that represented to him and his neighbors stability in a rapidly changing environment were beyond price Calhoun sought to resist any menace to this way of life with all the force of his character and intellect Yet in the end Calhoun s headstrong allegiance to his region helped to destroy the very culture he sought to preserve and disrupted the Union he had hoped to keep whole Niven s masterful retelling of Calhoun s eventful life is a model biography The Early National Period Sarah J.
