Core Sociological Dichotomies Chris Jenks, 1998-07-08 In this sociology text the contributors provide an introduction to the subject without oversimplifying or writing down to their audience The book aims to furnish undergraduates with the knowledge that will help them to understand and practice sociology and also to develop a self-perpetuating sociological imagination to enable them to think through new issues and new problems It consists of a series of specially commissioned chapters around binary or dichotomous themes Although many sociologists are critical of dichotomous models of sociological theory and research the device crops up again and again in the history and practice of the subject Jenks and his colleagues use the dichotomies to situate students in current sociological arguments and topical debates For example by examining contradictory pairs of concepts like structure agency local global continuity change students are introduced to alternative explanations for aspects of human conduct over a whole series of issues

The Contemporary Deathbed John Anthony Tercier, 2005-04-15 How do we picture ourselves dying A death with dignity the darkened room and a few murmured farewells Or in the lights flashing siren wailing chest pumping maelstrom of the back of an ambulance hurtling towards an ER Over the last decade the two most robust vehicles of popular culture film and television have opted for the latter scenario This book examines the hi-tech death of the twenty-first century as enacted in our hospitals and as portrayed on our TV screens
