Passing The Torch By:

Passing the Torch Paul Attewell, David Lavin, 2007-04-05 The steady expansion of college enrollment rates over the last generation has been heralded as a major step toward reducing chronic economic disparities. But many of the policies that broadened access to higher education including affirmative action, open admissions and need based financial aid have come under attack in recent years by critics alleging that schools are admitting unqualified students who are unlikely to benefit from a college education. In *Passing the Torch*, Paul Attewell, David Lavin, Thurston Domina and Tania Levey follow students admitted under the City University of New York's open admissions policy tracking its effects on them and their children to find out whether widening college access can accelerate social mobility across generations. Unlike previous research into the benefits of higher education, *Passing the Torch* follows the educational achievements of three generations over thirty years. The book focuses on a cohort of women who entered CUNY between 1970 and 1972 when the university began accepting all graduates of New York City high schools and increasing its representation of poor and minority students. The authors survey these women in order to identify how the opportunity to pursue higher education affected not only their long term educational attainments and family well being but also how it affected their children's educational achievements. Comparing the record of the CUNY alumnae to peers nationwide, the authors find that when women from underprivileged backgrounds go to college, their children are more likely to succeed in school and earn college degrees themselves. Mothers with a college degree are more likely to expect their children to go to college, to have extensive discussions with their children and to be involved in their children's schools. All of these parenting behaviors appear to foster higher test scores and college enrollment rates among their children. In addition, college educated women are more likely to raise their children in stable two parent households and to earn higher incomes, both factors have been demonstrated to increase children's educational success. The evidence marshaled in this important book reaffirms the American ideal of upward mobility through education. As the first study to indicate that increasing access to college among today's disadvantaged students can reduce educational gaps in the next generation, *Passing the Torch* makes a powerful argument in favor of college for all. *Passing the Torch Without Getting Burned* Peter A. Giuliani, 2013 For law firms, succession is a fact of life. Founding partners retire, rainmakers depart and in the meantime, client relationships must be preserved. *Passing the Torch Without Getting Burned: A Guide to Law Firm Retirement and Succession Planning* is a comprehensive examination of the key economic issues typically encountered by law firms when they consider how partners end their careers as they inevitably must. Peter Giuliani, an experienced law firm management consultant, illustrates common retirement issues and their resolutions through real life case studies from his years of consulting experience. *Passing the Torch* Ilze Alberts, 2018-03-20 Sustain and grow your family's capital throughout generations. Families need to have vision and foresight to sustain the family's capital throughout generations. Unfortunately, many of them build wealth effectively but find near the end of their lives that it has little sustainability to

prepare the next generations that will be the beneficiaries of their hard work Passing the Torch teaches high net worth families how to foster a strong family dynamic to be truly generational Inside first generation wealth creators will learn how to create a culture of sustainability and growth and endow subsequent generations with the tools and mindset necessary to prosper Subsequent generations will learn how to receive the torch sustain and grow the family s capital and pass the torch to the next generation Discover the importance of emotional intelligence Learn to view generational wealth from a behavioral lens Transcend financial instruction to find a sense of purpose and direction Map out your family s legacy Whether you re consulting an advisor or taking matters into your own hands this is the essential reference you need to sustain wealth for generations to come Passing the Torch Karl Besel,Charlotte Lewellen Williams,2016-10-01 Public service executives both elected and appointed within the public and nonprofit sectors are retiring at record levels and the number of Americans reaching age sixty five annually will continue to rise over the next decade and is expected to surpass four million in 2020 Finding qualified motivated leaders to fill vital public service positions will challenge the public and nonprofit sectors Unfortunately recent studies show that few proactive steps are being taken by public service organizations to plan for the next generation Passing the Torch Planning for the Next Generation of Public Service Leaders provides an outline for those who will be facing and managing these looming changes In this valuable guide the factors that influence selection of a career in public service are explored through the authors years of experience as leaders in public service organizations and through interviews with other public service professionals Passing the Torch will be essential for leaders of nonprofit organizations university faculty researchers in the field of nonprofit management and students in nonprofit management courses
