Passing by Jerzy Kosinski, 1995 Jerzy Kosinski is one of the most important and original writers of our times *Passing By* serves as his legacy a collection of writings that answers many questions about his work and offers a revealing and provocative self portrait by an author whose life was shrouded in enigma The man who emerges here has a passion for sport a quirky sense of fun an idiosyncratic range of acquaintances stretching from Pope John Paul II to Warren Beatty and an abiding love of secrets conundrums and fantasies But first and foremost as he demonstrates in major essays on his novels *The Painted Bird* and *Steps* Kosinski is a powerful incomparable literary artist

The Wilkomirski Affair Stefan Maechler, 2009-07-29 This is the definitive report on *Fragments* Benjamin Wilkomirski's invented memoir of a childhood spent in concentration camps which created international turmoil In 1995 *Fragments* a memoir by a Swiss musician named Benjamin Wilkomirski was published in Germany Hailed by critics who compared it with the masterpieces of Primo Levi and Anne Frank the book received major prizes and was translated into nine languages The English language edition was published by Schocken in 1996 In *Fragments* Wilkomirski described in heart wrenching detail how as a small child he survived internment in Majdanek and Birkenau and was eventually smuggled into Switzerland at the war's end But three years after the book was first published articles began to appear that questioned its authenticity and the author's claim that he was a Holocaust survivor Stefan Maechler a Swiss historian and expert on anti-Semitism and Switzerland's treatment of refugees during and after World War II was commissioned on behalf of the publishers of *Fragments* to conduct a full investigation into Wilkomirski's life Maechler was given unrestricted access to hundreds of government and personal documents interviewed eyewitnesses and family members in seven countries and discovered facts that completely refute Wilkomirski's book The Maechler report has implications far beyond the tragic story of one individual's deluded life It explores our feelings about survivor literature and the impact these works can have on our remembrance of the Holocaust

Autofiction in English Hywel Dix, 2018-06-04 This innovative volume establishes autofiction as a new and dynamic area of theoretical research in English Since the term was coined by Serge Doubrovsky autofiction has become established as a recognizable genre within the French literary pantheon Yet unlike other areas of French theory English language discussion of autofiction has been relatively limited until now Starting out by exploring the characteristic features and definitions of autofiction from a conceptual standpoint the collection identifies a number of cultural historical and theoretical contexts in which the emergence of autofiction in English can be understood In the process it identifies what is new and distinctive about Anglophone forms of autofiction when compared to its French equivalents These include a preoccupation with the conditions of authorship writing after trauma and a heightened degree of authorial self reflexivity beyond that typically associated with postmodernism By concluding that there is such a field as autofiction in English it provides for the first time detailed analysis of the major works in that field and a concise historical overview of its emergence It thus opens up new avenues in life

The Holocaust in Central European Literatures and Cultures Reinhard Ibler, 2016-10-11 Relating the Holocaust to poetic and aesthetic phenomena has often been considered taboo as only authentic testimony documents or at least unliterary prosaic approaches were seen as appropriate However from the very beginning of Holocaust literature and culture there were tendencies towards literarization poetization and ornamentalization Nowadays aesthetic approaches also in provocative taboo breaking ways are more and more frequently encountered and seen as important ways to evoke the

Kafka's Indictment of Modern Law Douglas E. Litowitz, 2017-08-11 The legal system is often denounced as Kafkaesque but what does this really mean This is the question Douglas E Litowitz tackles in his critical reading of Franz Kafka's writings about the law Going far beyond Kafka's most familiar works such as The Trial Litowitz assembles a broad array of works that he refers to as Kafka's legal fiction consisting of published and unpublished works that deal squarely with the law as well as those that touch upon it indirectly as in political administrative and quasi judicial procedures Cataloguing explaining and critiquing this body of work Litowitz brings to bear all those aspects of Kafka's life that were connected to law his legal education his career as a lawyer his drawings and his personal interactions with the legal system A close study of Kafka's legal writings reveals that Kafka held a consistent position about modern legal systems characterized by a crippling nihilism Modern legal systems in Kafka's view consistently fail to make good on their stated pretensions in fact often accomplish the opposite of what they promise This indictment as Litowitz demonstrates is not confined to the legal system of Kafka's day but applies just as surely to our own A short clear comprehensive introduction to Kafka's legal writings and thought Kafka's Indictment of Modern Law is not uncritical Even as he clarifies Kafka's experience of and ideas about the law Litowitz offers an informed perspective on the limitations of these views His book affords rare insight into a key aspect of Kafka's work and into the connection between the writing the writer and the legal world

Images of War and War of Images Karine Hildenbrand, Gérard Hugues, 2009-03-26 Contributors to this volume address the issue of the representation of warfare in an attempt to assess the veracity or mendacity of war images and their probable impact upon the sequence of events War images may trigger unfathomable horror or conversely and paradoxically attain sublimity The margin is sometimes narrow between ethics and aesthetics let alone the almost irrepressible shift from information to propaganda
