Report of the Government of the District of Columbia District of Columbia. Board of Commissioners, 1945 **An Opinion** Abdalla Salih Hamid, 2012-10-23 TO THE READER Dear reader From my readings and personal experience I have my own views as every Sudanese citizen may have about the future of his home country and I have my own opinion concerning the sociopolitical situation in my beloved country Sudan I wrote some articles about the recurring problems in my country However those articles were not publishable by the media in Sudan as it would create a governmental upset against the media and against those who dare to promote free writing because free writing may open the door for people who have opposing views with the ruling despotic regime to reveal their disagreement I started thinking of Sudanese complicated political problems a long time ago but seriously in 1999 However I started writing my opinion about these problems in the year 2000 while I was abroad I posted my first Arabic version at my website in 2001 There was a tremendous request to the website and thousands of visitors hits were logged by the website in the first month and showed navigation through all the web pages Most of the visitors were Sudanese who are living abroad as the website statistics reflected They were either

immigrants or refugees at different countries around the world as some of them have indicated in their electronic mail messages Till this time I didn't get clear reaction positive or negative about the opinion I think they respected the effort put in developing such an opinion concerning the sociopolitical situation in Sudan I thought many times about publishing this opinion in a book to be distributed inside my home country Sudan However relatives and friends were absolutely against the idea Most of them thought that since the government is basically against any opinion that comes opposing to their propagandas in ruling the country I would myself fail this trial of publishing the book Some of them thought that time has not ripened yet and since the idea of the book is very controversial they suggested that I should wait for the right opportunity My country is going through difficult times and is becoming like a kid country that needs parents to guide him and put him in the right track The main point of my opinion is about the identity of my country Since the independence the country's identity is not well defined sometimes it is Afro Arab at other times it is Arab African sometimes it is African and at other times it is an Arab Some of us want the country to be a new Sudan others want it to be just Sudan In this opinion I tried hopefully to outline a suitable definition of an identity of this Country which has been split on 09/07/2011 in two countries Republic of Sudan in the north and which is supposed to be my home country and Southern Republic of Sudan Why it is split into two countries This question should be answered by the ruling totalitarian despotic regime In the second chapter the reader will find out justifiable evidences I think concerning the identity that I assume is the most suitable for my people in Sudan Why should I plan a new system for governing such a continental country Is it because I am planning to become its president Of course No I am not I am suggesting such a political frame for governing my country hoping to attract my people to think deeply and genuinely about decisive solutions to their accumulated problems Readers then have the choice to take it or leave it I hope it should be understood that the opinion is a mere attempt for solving our educational health social political economical and ethnic problems by throwing some lights on them When this book is published the situation in my country might have been apparently changed but not drastically and the problem of identity remains unsolved As a result we will remain orbiting our old vicious circle Our country will not gain stability if we could not solve the problem of its identity If we solve this problem we will bring in u

What Do Principals Do? Jonathan Hurst,2021-04-01 What Do Principals Do provides a comprehensive and expansive look into a high school principal s job Rather than a survey asking principals how much time they spend on various tasks this work provides empirical evidence of exactly what a principal does every day of the year and how much time he spends doing it Based on the results of a three year longitudinal study conducted by a California High School Principal of the Year Association of California School Administrators 2012 this book reveals precisely what a principal does when he does it and how much time he spends doing it The study identifies 72 discrete tasks performed by principals and examines how much time disaggregated by day week month and year they spend on each of those 72 tasks The results of the data collection are the foundation of the book The findings are supplemented with explanations and analyses that reveal the workings of K 12 education and give readers a glimpse of life in a comprehensive high school This is a must read for everyone considering a life in public school administration The author Dr Jonathan Hurst the longest running principal in Elsinore High School s 130 year history provides insightful commentary and relevant anecdotes from a rich and rewarding career served in a large comprehensive high school in Southern California This book provides detailed quantitative evidence and an explanation for just what a principal does and how much time he spends doing it In the process it demonstrates the requisite skills for effective school governance administrative multi tasking and productive principal behavior Data collected covers three years and encompasses over 20 500 tasks and 7 500 hours of work This is a useful augmentation to existing administrative credential course readings as it provides evidence for what the research and authors are saying and demonstrates those skills procedures and operations that are an everyday part of a school administrator s job But the appeal for What Do Principal s Do goes beyond those seeking knowledge about educational administration Besides the facts and figures about how a principal spends his time Dr Hurst offers explanations for why and how the time is spent and he provides insight into the educational scene This book has appeal for students in teacher education programs because it explains school communities and life in a school system and that also makes it appealing to the lay person or parent who wants to understand how schools work *Measurement for Evaluation in Kinesiology* Ted A.
